

Castor Domestic Fundamentals:

- **Castor seed futures increased on speculative buying followed by strong** demand at various cash markets. Export demand for oil is good supported by lower arrivals of seed. Some big players have started stocking in cash market too which remains supportive to the cash market fundamentals. Traders opine that demand for castor oil has increased since the past few days coupled with decline in arrivals pushed up castor price.
- **Major cash markets traded firm during the week under review against** all expectation of bearish outlook, weak demand for oil and planters unwillingness to buy at higher price. Cash market post smart recovery last week taking clue from futures market. Bulls operators started taking position in forward months as they think that short supply of seed is inevitable in the second half. Stockists are active and they continued to buy for stock purpose.
- **Agriculture statistics Division, DES has released Third Adv estimates of Production** of foodgrains for 2014-15 on 13.05 2015. It has revised castor production estimate down by 87 thousand tonne to 18.24 lakh tonne. In second Adv Est. castor production was estimated at 19.11 lakh tonne. The minor decrease in third Adv. Est is mainly attributed to inclement weather and yield loss. India has produced 17.27 lakh tonne castor seed in 2013-14. Target for the year was 16.65 lakh tonne.
- **Castor seed price in Rajkot too traded up by Rs 1250 to Rs 36750 per tonne** from Rs 35500 per tonne in the third week of May. It is 9.02 percent lower from the price realized during May, 2014. Agriwatch expects an increase of Rs 400-Rs 500 per tonne this week. After that down ward correction is expected.
- **Castor oil FOB Kandla decreased from \$1205 to \$1190 per tonne this week despite improved** seed price. However it is ruling lower by 15.85 percent in comparison to May 2014. It was ruling \$1396 per tonne in April 2014. As seed prices have gone up FOB quote at Kandla would increase from \$1205 to \$1215 per tonne.

International Market Update:

- China, EU, US may start restricted buying once again by the end of the month. There is a gossip in the market that some forward deals have been finalized for July –August shipment. Prices of this deal has not been disclosed
- **Castor oil in Rotterdam decreased from \$1700 to \$1525 per tonne in last** one month and may touch \$1500 per tonne in the month of March. Pressure on Indian market and decreasing trend continue to impact global market in the weeks ahead.

Domestic market Outlook: Market is likely to trade steady to slightly firm.
