

Castor Domestic Fundamentals:

- **Castor cash market traded mixed on Saturday.** Early shown crop may hit market in January, one month earlier than normal. Oil demand is lower and it has pressurized market further. Stockists may start releasing stock sensing more dip in the weeks ahead. With this back ground stake holders in futures should wait before taking any position in futures. Market may slip from current level. recovery in the near term is unlikely.
- **Castor Oil export increases By sharply from 3935.43 Tonne to 15775 during the week** ended 22,Nov-2015.Castor oil exporters realized 1.03 percent lower price from previous week. Average price was registered at \$1351.52 per tonne last week. Before this average price was realized at \$1361.07 per tonne. As seed prices have lost its gains considerably, FoB quote may move down. Meal export was registered at 13571.97 T at an Ave price of \$157.68 per tonne during the same period.
- **Despite 35% lower post monsoon rain fall castor crop is in good condition in Gujarat and Rajasthan.** Plants are in growth stages and there is no report of any pest attack at early growth stage. Under normal condition production is expected to cross last year 's level of 12 lakh tonne and may cross 15 lakh tonne this year. In spite if higher production prospects seed price would continue to trade up as stockists are unwilling to release stock before December. New crop is four months away from now and it may provide opportunity for stockists to drag market up in their own favor.
- **Agriculture statistics Division, DES has released its ^{1st} Adv estimates of Production** of food-grains for 2015-16 on 16.09.2015.It has estimated 19.44 lakh tonne seed production this year. The production target for 2015-16 has been fixed at 20.34 lakh ton. India has produced 19.63 lakh tonne castor seed in 2014-15 as per revised ^{1st} Adv estimate. Private trade estimate for the year is much lower and is between 15 to 16 lakh tonne for 2015-16.However,it is too early to talk about the final size as sowing is just over.

International Market Update:

- **Buying from China, EU and Others may enter into market by the end of this month** for fresh buying and it may push seed market up once again.
- **India Castor oil in Rotterdam decreased from \$1540 to \$1535 per tonne in last one week** and may trade up in the weeks ahead. It was being traded at \$1530 per tonne in (Nov(1st week), 2015.

Domestic market Outlook: Market is likely to trade steady to slightly weak in the short term.
