

#### Castor Domestic Fundamentals:

- **Cash markets traded mixed amid lackluster trading activities on** the eve of year end. Good production prospects this year despite good export volume may continue to restrict price. With increasing possibility of ample supply from new crop and active bears operators have weakened sentiments in the cash market. As prices are ruling at lower level, slight recovery is expected in futures market. However, overall tone remains bearish. At peak arrival season prices may hover in the range of Rs 3000 to 3200 per qtl.
- **India exported 54.60 % lower castor oil in the week ending 27th Dec-2015.** Total oil export was registered at 7125.44 tonne against 19775 tonne exported in the last week of Nov-2015. China continued to maintain the status of biggest buyer once again buying 3158.65 tonne last week. Exporters realized 0.60 % lower average FoB quote last week. It was \$1333.09 per tonne. The highest and lowest quotes were \$1959 & \$1000 per tonne.
- **New arrival is expected one month earlier and may hit market by Feb end. Till then** stockists would try to drag market up by restricting stock release. Stake holder should buy seed around Rs 3500 to Rs3600 per qtl and hold it for one and a half month. Production picture for 2015-16 would be clear in Global Castor Conference in Feb, scheduled to be held on 12 th Feb in Ahmadabad.
- **Agriculture statistics Division, DES has released its 1st Adv estimates of Production** of food-grains for 2015-16 on 16.09.2015. It has estimated 19.44 lakh tonne seed production this year. The production target for 2015-16 has been fixed at 20.34 lakh ton. India has produced 19.63 lakh tonne castor seed in 2014-15 as per revised 1st Adv estimate. Private trade estimate for the year is much lower and is between 15 to 16 lakh tonne for 2015-16. However, it is too early to talk about the final size as sowing is just over.

#### International Market Update:

- **As oil prices are ruling at lower level, major buyers would remain** active in January too. China brought 3158 tonne castor oil out of 7125 tonne last week and maintained its status as the biggest buyers so far.
- **India Castor oil in Rotterdam decreased from \$1535 to \$1530 per tonne in last one week** and may trade up in the weeks ahead. It was being traded at \$1530 per tonne in (Dec, 1st week), 2015.

**Domestic market Outlook:** Market is likely to trade steady to slightly weak in the short term.
