

Castor Domestic Fundamentals:

- With restricted buying by castor oil importers and pressure from newly harvested crop seed price in cash market decreases by Rs 30 To Rs 40 per qtl. To Rs 3015-40 in Gujarat. More downside correction is unlikely as stockiest remain active. Arrival in Gujarat have touched at 1lakh bags. Lower seed price affected castor oil price too and it slipped to Rs 6350/6400 per qtl. Cash market is likely to trade stable to weak in the short term.
- Castor seed market in Sumerpur located in region of Rajasthan traded unchanged. Stockiest remained active as arrival is being reported at 600/700 bags per day. As price is ruling lower, buyers have started accumulating stock in anticipation of higher price in second half of the year. Currently seed price is ruling at Rs 2925/2950 per qtl. Stock in the region is said to 2 lakh bags. As arrival has started decreasing, stock would not increase above 3 lakh bags this year.
- Prospects for good rainfall this year may encourage farmers to reduce castor area and shift to other lucrative crops. Total area under castor may decrease below 10 lakh ha due to lower price this year. Castor area of around 25,000 ha in Rajasthan and around 50000 ha in Gujarat might be use for other crops. Planting intention of farmers in growing region hints castor lower acreage. It may push price up.
- Castor oil export has been on higher side this year and almost 90 % old accumulated seed has been consumed so far. So stock remains from new crop only. The season started with 5 lakh tonne carry out and if area decreases, pressure on stock would be felt by Nov this year. It may fuel seed price. In July end seed price may hover in the range of Rs 3500/3600 per gtl. in normal condition.
- All India average price for castor seed increased by 4.79 % from Rs 3124.28 to Rs 3274.1 perqtl during the week ended 14th May-2016. It is lower by 9.14 % from the price registered during the second week ofMay-2015.
- India exported 9992.98 tonne castor oil during week ended 15thMay-2016 at an average price of \$1130.19 per MT. It is lower by 0.35.% from previous week. India had exported 9628.55MT oil previous week. The maximum and minimum prices were registered at \$4051.89 and 687.45 per MT. Castor oil export would continue to stay steady as prices are lower than normal expectation and availability is higher.

International Market Update:

- China brought 6332.16 tonne castor oil at an average FoB of \$978.66 per tonne last week.USA brought 529.18 tonne oil at an average FoB price of \$1118.17 per tonne..belgium and Japan brought 474 and 469 tonne oil during the same period.
- Ave castor oil FoB quote increased slightly from \$1079 to \$1098 last week. China and U.S remained active at current price level.
- Castor oil importers have made inventory this year taking advantage of lower price and higher availability and they are in no hurry to buy oil in bulk quantity as they are aware of higher stock. So firmness is unlikely in the short to medium term.

Domestic market Outlook: Market is likely to trade range bound to weak in the short term.
