AGRIWATCH

Castor Domestic Fundamentals:

- India exports 14329 T castor oil during the week ended 29th May-2016. Average price realized during the review period was recorded at \$1192.95 per T. The maximum and minimum prices were registered at \$918.61 and \$5479.28 per T. Others countries excluding China, France and USA contributed 634.49 tonne last week. As prices in domestic market is ruling lower ,export volume would continue to remain stable in coming weeks.
- No major trading activities were seen in cash market. Sentiments remain weak. Castor seed cash markets continue to trade under pressure as higherarrival from new crop and restricted buying at current level have weakened inner tone in the market. However more downward correction is unlikely as farmers would prefer to retain stock than to sell it at lower price. Sowing would start in July and area is expected to decline due to lower prevailing price and good prospects for monsoon rains. Uptrend is unlikely in the short to medium term.
- All India average price for castor seed decreased by 3.25 % from Rs 3274.55 to Rs 3168.06 perqtl during the week ended 21st May-2016. It is slightly higher from the price registered during the first week of May-2016However, it is lower by 12.10 % from the price registered in May 2015. Buyers are in wait and watch mood and continue to buy at lower level. So any major dip from current level is unlikely.
- Arrivals in Gujarat have touched at 11akh bags. Lower seed price affected castor oil price too and it slipped to Rs 6350/6400 per qtl. Cash market is likely to trade stable to weak in the short to medium term outlook depends on planting beginning from July this year.
- Castor seed market in Sumerpur located in region of Rajasthan traded unchanged. Stockiest remained active as arrival is being reported at 750/850 bags per day. As price is ruling lower, buyers have started accumulating stock in anticipation of higher price in second half of the year. Currently seed price is ruling at Rs 2950/2975 per qtl. Stock in the region is said to be around 2 lakh bags. As arrival has started decreasing, stock would not increase above 3 lakh bags this year.

International Market Update:

- China brought maximum quantity(5513.21 T) this week too. France stood second with buying 4395.62 T castor oil. Netherland and USA brought 1491.66 and 701.74 T castor oil respectively.
- Castor oil importers have made inventory this year taking advantage of lower price and higher availability and they are in no hurry to buy oil in bulk quantity as they are aware of higher stock. So firmness is unlikely in the short to medium term.
- Demand for oil from overseas market continues as prices are ruling lower.

Domestic market Outlook: Market is likely to trade range bound to weak in the short term.
