

Castor Domestic Fundamentals:

- **Castor seed cash market trades sideways despite lower arrival and good export** demand for oil and other castor derivatives. Inner tone remains firm as fear of lower area coverage is getting ground now. Firmness expected September onward, by then picture on area would be clear.
- **As on 8th July, total coverage under castor seed was reported only 34,000 ha** against last year's coverage of 55,000 ha. In first week of July normal area coverage is 65,000 ha. Lower coverage and farmers sowing intention show the possibility of 25 % lower coverage in Gujarat.
- **All India average price for castor seed increased by 3.35 % from Rs 3029.5 to Rs 3131.09 per qtl** during the week ended 9th July-2016. It is lower by 5.65 % from the price registered in the first week of July, 2015. As prices are ruling lower, buyers remain active. Arrivals are comparatively 35 % lower this year due to unattractive price. Lower prevailing price of seed has discouraged farmers from releasing entire stock and they have preferred to retain around 40 % crop in anticipation of price hike, generally seen in third and 4th quarter of the year.
- **Area may decrease in Telangana too as farmers have proffered pulses due to huge price difference** and good rainfall so far. Slight increase in Rajasthan may be expected as some local seed varieties give good yield to farmers with lower production costing. castor seed is likely to trade at Rs 3100 to Rs 3150 In the second half of this month.
- **Castor oil export volume decreases by 31.57 percent week on week basis to 8584.37 tonne.** Average FoB quote too decreases by 0.54 percent from \$1146.68 to \$ 1140.48 per tonne. China and Netherland remain major buyers contributing 4515.92 and 1332.68 tonne respectively. Thailand and France brought 483.48 and 306.29 tonne during week ending 3rd July-2016. Volume is expected to stay steady as buyers are in no hurry to buy in bulk quantity.
- **At arrival front all major markets have seen considerable drop in arrivals** in comparison to May-2016. It decreased by 84% in Dhrol, 65 % in Deesa, 51% in Patan and 58% in Ahmadabad. All India arrivals have decline by 44 percent from 742454 to 418402 qtl. in June-2016.
- **Castor seed market in Sumerpur located in region of Rajasthan traded unchanged.** Stockiest remained active as arrival is being reported at 250/350 bags per day. As price is ruling lower, buyers have started accumulating stock in anticipation of higher price in second half of the year.

International Market Update:

- **Demand for castor oil continues from major buyers like China, EU and USA,** China may buy around 2 lakh tonne during current year. It has brought around 45,000 tonne during last three months. This year castor oil export is bound to increase by 10 percent as price of seed has been ruling 11 percent lower from last year.
- **Average FoB quote for export for the month of June till date comes to \$1120 per tonne.** In coming months export volume may decrease as buyers have brought 15 % higher stock than normal volume. If prices increase, buying for import may decrease.
