

### Castor Domestic Fundamentals:

- **Overall castor cash seed markets traded mixed on Saturday.**
- **With higher rainfall in major growing regions planting pace of castor seed** speeded up and it has cast bearish impact on seed price once again despite lower acreage. Demand for oil too from international buyers got affected with firmness in seed market. However, sentiment remains firm in the medium term as area is bound to decline by over 20 % this year.
- **As on 8th August, total coverage under castor seed was reported 1.52 lakh ha** against last year's coverage of 1.48 ha. Till fourth week of July normal area coverage is 1.99 lakh ha. Lower coverage and farmers sowing intention show the possibility of 25 % lower coverage in Gujarat. Area may decline 10 to 15 percent in Rajasthan too from seasons normal of 2.15 lakh ha. Out of total coverage Gujarat has covered 1.34 lakh ha till 8th August. It is lagging behind by 16.05 % from the covered area last year till date.
- **All India average price for castor seed decreased by 0.56 % from Rs 3168.62 to Rs 3150.58 per qtl** during the week ended 6th<sup>th</sup> August-2016. It is lower by 9.96 % from the price registered in the first week of August, 2015. As prices are ruling lower, buyers remain active. Arrivals are comparatively 40 % lower this year due to unattractive price. Lower prevailing price of seed has discouraged farmers from releasing entire stock and they have preferred to retain around 40 % crop in anticipation of price hike, generally seen in third and 4th quarter of the year.
- **India exported 8185 tonne castor oil during week ended 6<sup>th</sup> August-2016**, lower by 21.95 % from previous week. Average price realization increased by 5.84 % to \$1218.63 per tonne. It had exported 6711.95 tonne oil at an average price of \$ 1151.35 per tonne in the fourth week of July. Export volume is unlikely to increase as most buyers have covered their two-three months need and they are in no hurry to buy aggressively in bearish market trend.
- **Farmers may shift castor area to moong, moth, turmeric, cotton, chilly, peanuts and Urad** as prices of these commodities rule considerably higher this year. Govt. has fixed MSP for Pulses and it would buy it to make a buffer stock. So farmers are sure to get MSP for these crops. There is a common gossip in the market that area in Gujarat may decline by 30 percent. It will decrease in Telangana /AP by 4/5 % this year as farmers intend to grow pulses, cotton and turmeric due to attractive price.
- **Castor seed market in Sumerpur located in region of Rajasthan traded unchanged.** Stockiest remained active as arrival is being reported at 250/350 bags per day. As price is ruling lower, buyers have started accumulating stock in anticipation of higher price in second half of the year.

### International Market Update:

- **China Remained the major buyers in July for castor oil buying 13914.15 tonne** at an average FoB of \$1051.76 per tonne. Netherland and France stand second and third position buying 1075 and 1020 tonne during the same period at an average FoB of \$1075 & 1019 per tonne. USA brought 5450 tonne castor oil at an average FOB of \$1117.83 per tonne.
- **Other countries brought 8792 tonne oil during July at an average price of \$1180.36 per tonne.** Major volume has been exported from Mundra and JNPT port.
