

**Castor Domestic Fundamentals:**

- **All India average price for castor seed recovered slightly by 1.01 % from Rs 2835.09 to Rs 2806.7 per qtl during the week ended 19<sup>th</sup> August-2016.** It is lower by 16.56 % from the price registered in the third week of August, 2015. As prices are ruling lower, buyers remain active. Arrivals are comparatively 45 % lower in August due to unattractive price and retention. Lower prevailing price of seed has discouraged farmers from releasing entire stock and they have preferred to retain around 30-35 % crop in anticipation of price hike, generally seen in third and 4th quarter of the year
- **Castor seed planting is lagging behind by 15.33 % to 4.25 lakh ha as on 19.08.2016.** Indian farmers had planted 5.02 lakh ha in corresponding period last year. It is lower by 30.16 % from mid August's average planting of 6.15 lakh ha. Major decrease has been seen in Gujarat where area lags behind by around 1 lakh ha to 2.12 lakh ha. It had covered 3.03 lakh ha last year till date.
- **Rajasthan too is lagging behind by 25 thousand ha to 1.01 lakh ha so far.** However, coverage area is running slightly ahead in AP and Telangana. Overall coverage area is expected to fall by 20 % this year as farmers have shifted to pulses and other lucrative crops.
- **Rajasthan too is lagging behind by 25 thousand ha to 1.01 lakh ha so far.** However, coverage area is running slightly ahead in AP and Telangana. Overall coverage area is expected to fall by 20 % this year as farmers have shifted to pulses and other lucrative crops.
- **SEA has provided free of cost quality seed, fertiliser, pesticides and other inputs to the farmers and about 50 farmers have joined in this project so far.** SEA Would organize KisanMela in November inviting farmers to showcase the benefit of good agriculture practices for achieving higher yield.
- **Castor seed market in Sumerpur located in region of Rajasthan traded unchanged.** Stockiest remained active as arrival is being reported at 250/350 bags per day. As price is ruling lower, buyers have started accumulating stock in anticipation of higher price in second half of the year.

**International Market Update:**

- **China Remains the major buyers in July for castor oil buying 13914.15 tonne** at an average FoB of \$1051.76 per tonne. Netherland and France stand second and third position buying 1075 and 1020 tonne during the same period at an average FoB of \$1075 & 1019 per tonne. USA brought 5450 tonne castor oil at an average FOB of \$1117.83 per tonne.
- **Other countries brought 8792 tonne oil during July at an average price of \$1180.36 per tonne.** Major volume has been exported from Mundra and JNPT port.
- **Major buyers are not aggressive right now as they have sufficient stock to take care of their immediate needs.** So sudden spike in seed market is unlikely despite lower planting progress so far.

**Domestic market Outlook:** Market is likely to trade steady to slightly firm in the short to medium term.
