

**Castor Domestic Fundamentals:**

- **Cash market traded mixed amid firm inner tonne. Area is feared to decline** more than normal expectation as sowing lags behind considerably in major growing states like Gujarat and Rajasthan. Retention of seed continues and it may push market up from current level.
- **Castor seed sowing may decline by 24 to 30 per cent in the year 2016-17** as farmers are shifting towards groundnut, spices and pulses. Since the beginning of the year(Feb)castor prices have been reeling under extreme pressure due to higher production and steady in castor oil.As per the agriculture department, as on August 28, total sowing of castor seed has reached to 5.76 lakh hectares, down by 24 per cent from 7.73 lakh hectares in corresponding period last year. India's total sowing was about 1.13 million hectares in 2015-16.
- **India exported 7125.08 tonne castor oil during week ended 28th Aug-2016.** It is lower by 35.62 percent from 4th week of July-2016.India had exported 11609.17 tonne oil in third week of August. Export of castor oil has been almost stagnant in the past few years from India and this has laid pressure on castor oil prices. As prices are ruling lower export is likely to continue with same pace despite old accumulated stock. Prices are unlikely to move up in the near term until export volume increases.
- **All India average price for castor seed recovered smartly by 6.12 % from Rs 3104 to Rs3294.06 per qtl** during the week ended 27<sup>th</sup> August-2016. It is lower by 5.74 % from the price registered in the fourth week of August, 2015. As prices are ruling lower, buyers remain active. Arrivals are comparatively 50 % lower in August due to unattractive price and retention.
- **Castor seed planting is lagging behind by 24.37 % to 5.74 lakh ha as on 26.08.2016.**Indian farmers had planted 7.75 lakh ha in corresponding period last year. It is lower by 27 % from August's normal planting of 8.00 lakh ha. Major decrease has been seen in Gujarat where area lags behind by 34 % to 3.27 lakh ha. It had covered 5.05 lakh ha last year till date.
- **Castor seed market in Sumerpur located in region of Rajasthan traded unchanged.** Stockiest remained active as arrival is being reported at 250/350 bags per day. As price is ruling lower, buyers have started accumulating stock in anticipation of higher price in second half of the year.

**International Market Update:**

- **China Remains the major buyers in July for castor oil buying 13914.15 tonne** at an average FoB of \$1051.76 per tonne.Netherland and France stand second and third position buying 1075 and 1020 tonne during the same period at an average FoB of \$1075 & 1019 per tonne.USA brought 5450 tonne castor oil at an average FOB of \$1117.83 per tonne.
- **Other countries brought 8792 tonne oil during July at an average price of \$1180.36 per tonne.**Major volume has been exported from Mundra and JNPT port.
- **Major buyers are not aggressive right now as they have sufficient stock to take care of their immediate needs.**So sudden spike in seed market is unlikely despite lower planting progress so far.

**Domestic market Outlook:** Market is likely to trade steady to slightly firm in the short to medium term.
