

**Castor Domestic Market Fundamentals:**

- **Seed stock in Gujarat and Rajasthan is said to be lower by 25 % this year** at this point of time. As stockiest are waiting for improvement in price, arrival of seed is lower. New crop would hit market from end January and its impact may be felt on price. Cash crunch too is affecting normal trading activities. Overall outlook remains flat and seed market would continue to trade range bound.,
- **Major buyers have fulfilled its 80 % requirements and they are in position** to wait for new crop, likely to hit market by Jan end. Fresh buying is expected from March onward. However, crop size is expected to be lower this year, castor seed price should move up from current level.
