

- **Mixed trend were featured the castor physical market due to ups and downs in demand. Arrivals** are in mixed pace in the market. Less demand for Castor oil and castor meal in the international market are influencing castor seed prices. Spot castor seed prices are under pressure due to lower Crush margin as future price are continue trading down side. In Most of the market arrivals are coming in full pace. Overall outlook of the market is down in expectation of higher supplies. According to the Solvent Extractors' Association of India (SEA) , Castor seed production in 2016/17 is expected to stand down by 19% to 11.3 lakh tonnes compared to 14 lakh tonnes in previous year. In the long run, prices may go up in the long term as lower production estimates of this season.
- **India exported castor meal down by 31.71% to 28305 tonnes in December 2016 than 41451 tonnes in November 2016.** Castor meal exports volume is expected to go down in upcoming month on lower demand majorly in international markets. Average castor meal exports (April 2016 to December 2016) is registered down at 322918 T against 370522 T in previous year during the same period of time. FOB quotes for meal is remained at \$67/T in December 2016 during the corresponding period of last year. South Korea bought 304932 tonne meal during April- December 2016.
- **As per recent second advanced estimates of Haryana agriculture department, castor seed crop** production, Area and Yield for the season 2016/17 are estimated at 1.3(000 Tonnes), 1 (000 hect.) and 1267 (kgs./ hect.).
- **According to the recent second advance production estimate of Gujarat, Castor production is** estimated at 14.2 lakh tonnes for 2016-17 tonnes against 14.1 lakh tonnes for 2015-16 on account of higher area coverage estimate and higher yield expectation. Higher Gujarat production estimate may have bearish impact on the prices.
- **Castor oil export decreased by 20.87 percent to 35608 MT in Novemer-2016/17 against 45002 MT** in 2015/16 season in the same period of time. India shipped 21.18% lower castor oil while comparing to 47112 MT in October month during 2016/17 record. Export pace is expected to go down as availability of oil is higher. We are expecting same trend in the upcoming week.

International Market Update:

China is slow in buying activities of Castor oil as industrial production of the country is slow on account of pollution clean drive. On the other hand, export demand for castor meal were also weak from South Korea, due to which buying interest for raw material in spot market is down.
