

### Domestic Market Update:

- Mixed sentiments recorded in castor seed price on Thursday all India castor seed arrival is 30054 quintal which is up by 6301 quintal from last day arrival of 23753 quintal.
- After the announcement of un-lockdown 1, Castor rose from 150 to 200, On June 16, July futures had a low of 3782, and we expect castor seed prices expected to move up in the coming weeks.
- Climatic adversity such as untimely rains, strong winds and hailstorms in parts of castor-sowing regions of Gujarat is set to cause a dip in the output of the oilseed.
- In its final crop estimate, trade body Solvent Extractors' Association of India (SEA) has revised its castor crop outlook for the year 2019-20 downward by about 3.5 per cent or 74,000 tonnes to 19.62 lakh tonnes (lt) as against the first estimate of 20.36 lakh tons reported in February this year.
- Per the final estimates, castor output in the country will be lower by about 15,000 tonnes from 19.77 lakh tons reported in 2018-19.
- India's average castor seed productivity after the third and fourth survey has been revised down to 1,977 kg per hectare against 2,052 kg/ha estimated in the first estimate. This is due to some crop damage in Gujarat from untimely rains and strong winds. However, Rajasthan crop conditions were a little better than the first estimate.
- According to sowing data released by Ministry of Agriculture, India, Acreage under castor seed is 9.92 lakh hectares.
- Gujarat will continue to be the largest castor seed producer with an estimated output of 16.60 lakh tons or nearly 85 per cent of the country's output. The first estimate had put the Gujarat output at 17.44 lakh tons.
- Strong winds, rains and hailstorm in some tehsils of Banaskantha, Gandhinagar, Mehsana and Ahmedabad (districts) during March 2020 had slightly damaged the standing castor crop. Farmers have also gone slow on selling castor seed in the market primarily due to the lockdown and lower prices.
- Rajasthan, on the other hand, is set to see an improvement in the average yield, which is revised upward to 1,593 kg/ha after the fourth round of survey, as against the first estimate of 1,523 kg/ha, due to favorable weather conditions and availability of water for irrigation.
- Also the area under castor in Rajasthan is believed to be higher for 2019-20 at 1, 54,240 hectares per government estimates over last year's 1, 38,000 hectares. Meanwhile final production for the State is estimated to be 2.46 lakh tonnes as against the first estimate of 2.35 lakh tonnes.
- The output in Andhra Pradesh and Telangana is estimated to be 33,000 tonnes, which is the same as last year's estimate of 24,000 lt.
- Castor Seed prices hovered in the range of Rs.3,240-3,620 per quintal at the markets in this week.
