Castor Seed &Oil Monthly Research Report

Contents

Outlook and Review -Domestic Front:

Monthly average castor seed price fall drastically in June even with lower arrival due to frail demand, Castor seed prices settled higher in spot markets but trading were thin due to closure of market on the back of GST rollout. Castor seed arrival in the month of June is 171027quital which is 245772 down by last month arrival of 416799 quintal.

Heavy rains witnessed over Castor growing regions of Gujarat during last week. This may lead to increase in acreage under Groundnut, Grains and Cotton. Moreover, sudden fall in prices after making high of Rs 950 per 20 kg also sent wrong message among the farmers. Farmers opined their intention to keep acreage at last year level against anticipation of increase in acreage during June 1st week. There are reports that acreage under Groundnut is expected to increase by almost 100% in Surendra Nagar and Banaskantha districts which will limit the acreage gain in Castor to great extent.

As per latest information available on sowing of Kharif crops, around 20.9% of the normal area under Kharif crops has been sown up to 30.06.2017. Area sown under all Kharif crops taken together has been reported to be 222.30 lakh hectares at All India level as compared to 187.03 lakh hectares in the corresponding period of last year. As compared to normal area as on date, total area coverage 0.55lakh hectare in which 0.29 lakh hectare has been sown compared to 0.32 lakh hectares in 2016 till date.

Castor Oil export in May, 17 was expected at 43,500 MT versus 55,000 MT of last month and 46,140 MT of May, 2016.High unpredictability in price keep the exporter away from markets. Exports for the period of Jan-May are reported lower by 4.3% at 2.12 lakh tons.

Acreage over Gujarat is expected to increase by 2% due to shift in acreage from Potato in Deesa belts. In Rajasthan and South India acreage is likely to drop by 2% & 12.2% respectively as farmers are opting for Groundnut. Production for the next season is expected at 10.86 lakh tons basis last five year average yields.

As per recent third advanced estimates of Department of Agriculture, caster seed crop production, for the season 2017/18 is estimated at 15.54 lakh tons which is lower by 1.02 lakh tons from last year production of 17.52 lakh tons in MY-2016-17.

This year preliminary Agriwatch estimate for 2017/18 shows 10. 67 lakh tonne production based on farmers feedback and initial field survey in Gujarat, Rajasthan and AP. Area in Gujarat is likely to decline by over 20 % from 6.20 to 4.96 lakh ha. Overall decline in Rajasthan may be 5% and area would decline from 2.30 to 1.84 lakh ha. In AP / Telangana it may decline by 20 percent to 1.06 lakh ha. As weather remains favorable Agriwatch expects normal yield this year. Based on normal yield seed production may decline to 10.67 lakh tonne given the normal weather condition. Agriwatch would revise preliminary estimate in November-2017.

Recommendation:

In the coming month, seed and Oil prices are expected to trade higher as GST roll out is completed. Seed prices are expected to trade towards Rs 4,500 – 4,600 per Qtl and Oil prices are expected to trade higher towards Rs 95,000 – 97,000 per MT. Meal prices are likely to remain steady to weak on subdued demand from South Korea.

Seed Supply & Demand:

Agriwatch Preliminary estimates regarding area and production shows around 16 percent lower acreage this year due to crop shifting from castor seed to other lucrative crops. Over all area would decline from 11.21(normal) to 9.43 lakh ha this year. The estimate is based on initial ground level survey and feedback received from farmers. Agriwatch expects above normal rainfall this year and hopes normal yield too. Based on normal yield realization seed production would decline from 15.12 to 12.94 lakh tons this year.
This season started with 5.35 lakh tons as carryout and thus total availability for current MY - 2016-17comes to 15.85 lakh tons it estimated production of 10.5 lakh tons for MY-2017-18 is included. Lower production would drag carryout down from 5.35 to 0.35 lakh tons. It would push seed price up in second and third quarter.

All units in lakh tons	2012-13	2013-14	2014-15	2015-16	2016-17	2017-18

Castor Oil Demand & Supply:

Season 2016-17 would start with 0.5 lakh tons oil as carrying stock. Agriwatch has estimated 7 lakh tons oil production from 2015-16 crops to be marketed in 2016-17 including derivatives use this brings total availability to 7.5 lakh tons .Export has been pegged at 5.5 lakh tons slightly higher than 2015-16 as supply is higher and price is lower. Carryout for next year would be at higher side (around 1lakh tons) despite higher export volume.

Castor Oil Supply & Demand Projection For 2016-17

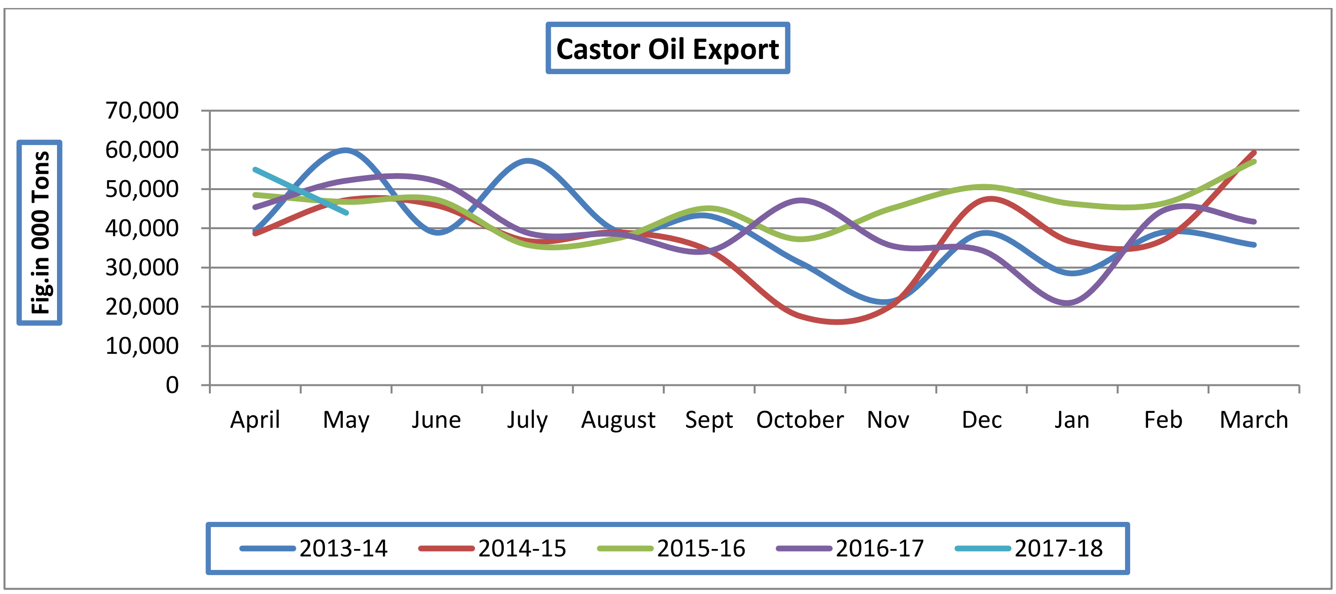
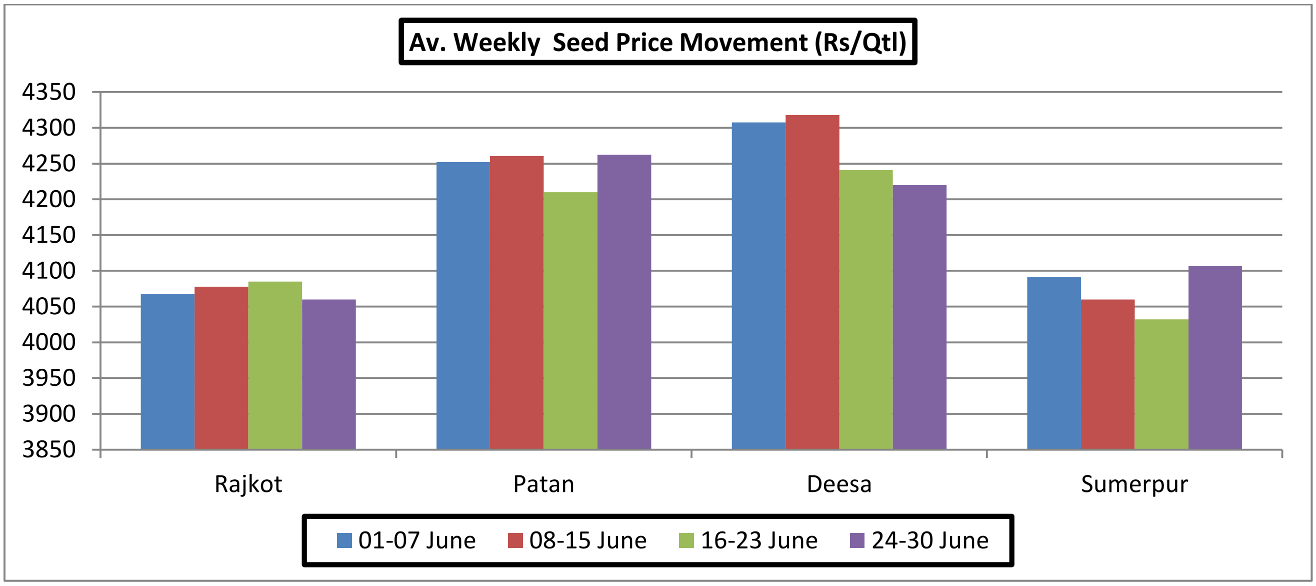
Castor Oil Monthly Export Trend:

Castor oil export in may-17(MY-2017-18) is 43,975MT and in the month of May it is likely to go down by 43500 MT due to frail demand and high volatile price. Castor oil export in the month of April was 55,000 tons and In terms of value, it is down by Rs.492.96 crore in April from Rs.338.63 crore in March17.



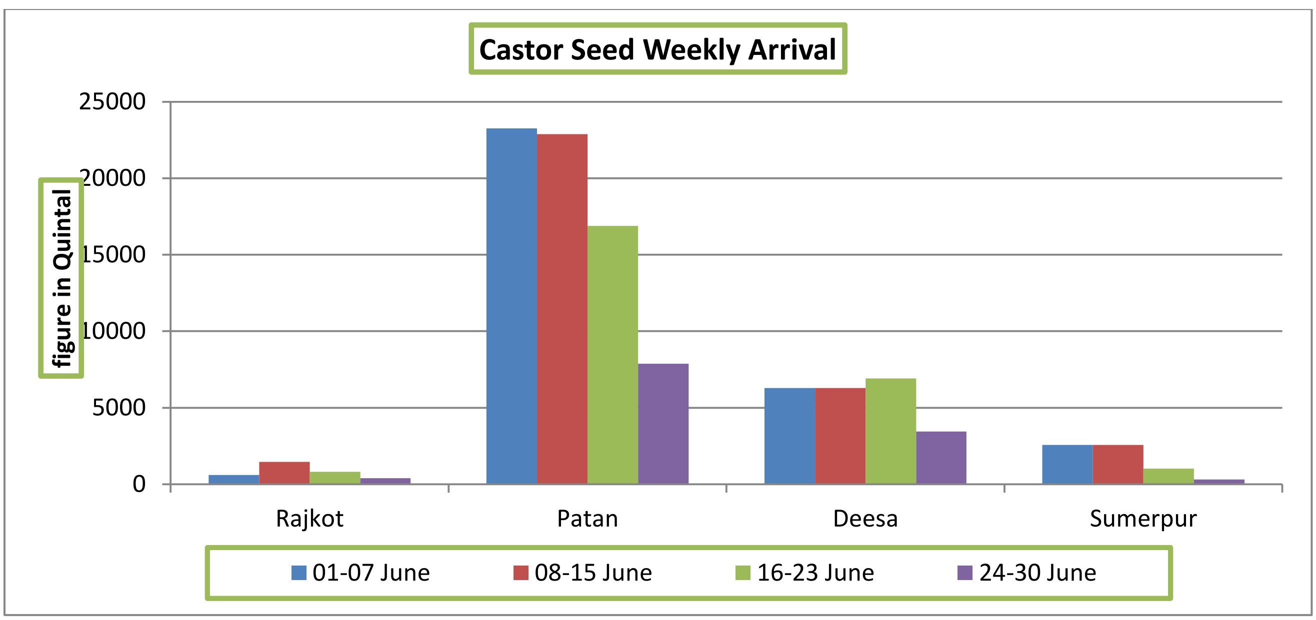
Castor Seed Price Trend:
Monthly Average Castor prices in June month decreased supported by lower prices in future market and frail demand due to GST concern. However, the trend will not be continuing on lower stock and uptrend is likely to keep on in coming month.

Arrivals of castor seed are likely to go down which support to move price up in northward. Steady to firm trend could be seen in upcoming weeks.

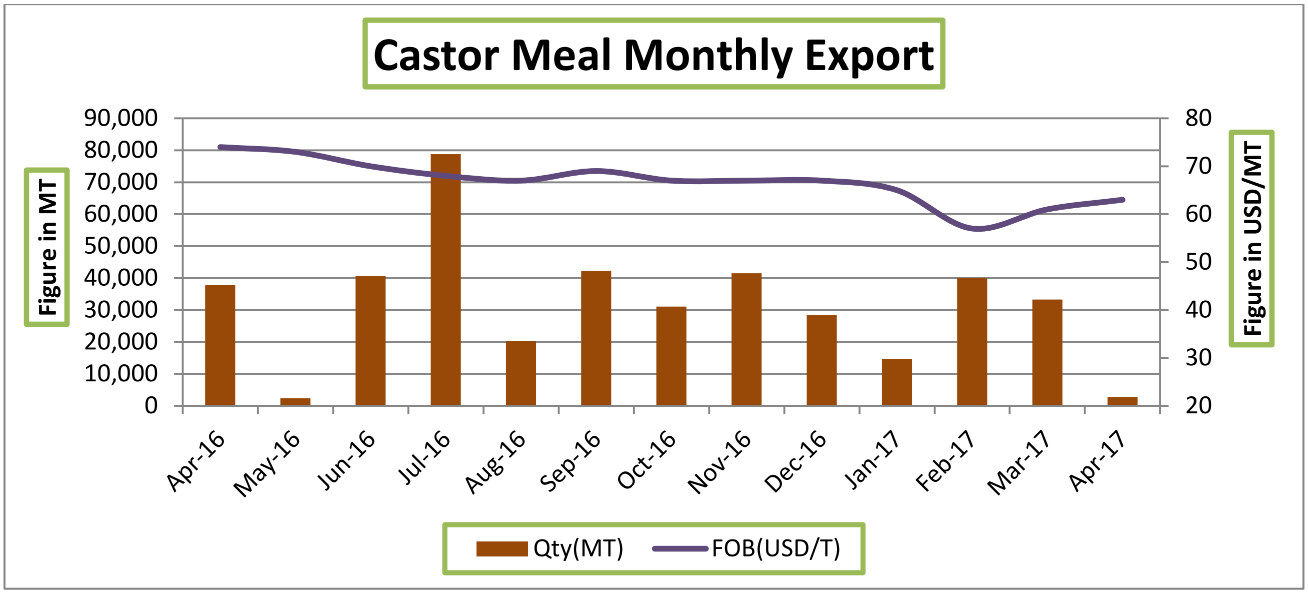


Castor Seed Arrival Trend:

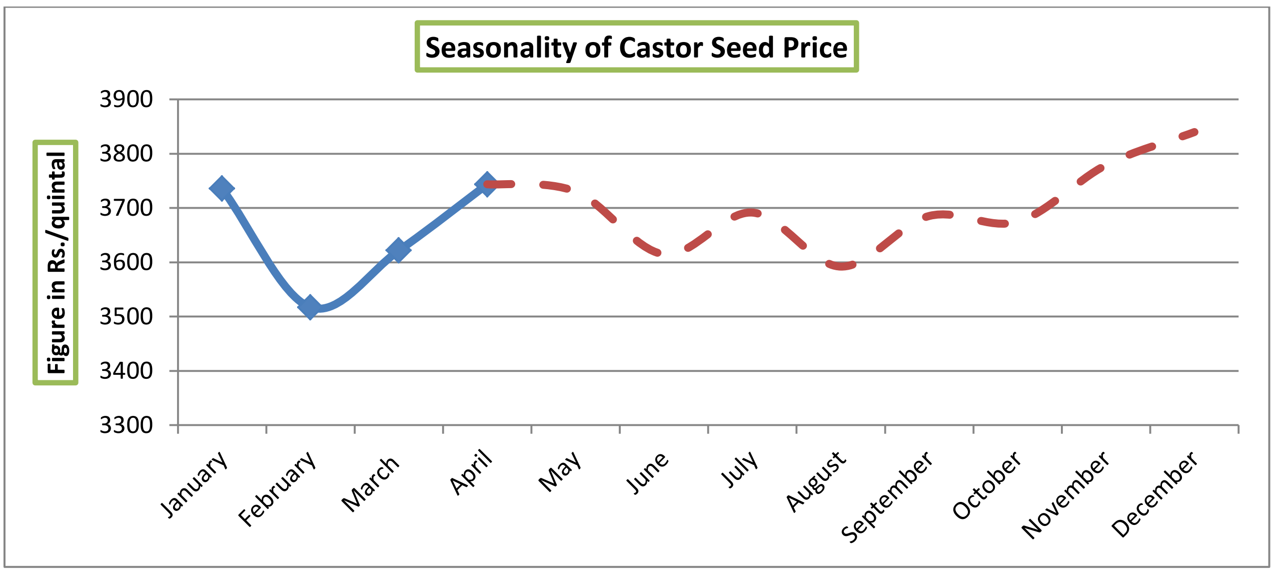
Arrivals of seed lower in the last week of June 2017 in all market in comparison to previous week arrivals. Arrival may sluggish after declining of stock in the market.



Castor Oil Meal Export Trend:



Price Seasonality Trend:



Above chart is for Rajkot market which forecast the price trend for coming months. Chart indicates that castor seed market is likely to move volatile under normal situation (weather, rainfall etc.).Price is expected to move up from October onwards as stock is getting low and demand from China and other major importers is normal.

Cash Market (Deesa) Expected Price Range for July-2017:-

Expected Range	Rs/Qtl.(Low)	Rs /Qtl.(High)
Short term (15 days)	4550-4600	4750-4900
Medium Term (30 days)	4950-5000	5000-5200

Outlook for July-2017:

Castor seed cash market is likely to trade bullish tone as seed supply in domestic market is expected to be declined as stock is limited. Improved demand will push prices up in upcoming weeks. In June, market may trade in the range of Rs 4650 to Rs 4850 per qtl.

International Market Updates:

Castor Oil prices ended higher by 3.0% on good demand from global markets, higher demand from China, EU and other Asian nation supported the prices in global market. Exports in June are reported higher by 13.2% versus last month but lower by 15% y/y. Oil prices over Rotterdam recovered by 4.5% during the week on thin pipeline amidst good buying activity. Stockiest are taking advantage of lower prices which has ruling due to new tax policy. Prices at Rotterdam are quoting at $ 1,750 per MT versus $ 1,675 per MT of last week.
