

Today's Update:

- As per official release, India has imported a total 1,38,272 MT of pulses including 38,288 MT Tur, 31,625 MT Urad, 61,999 MT Masur, 510 MT Moong, 240 MT Bengal Gram and 5,611 MT Kabuli in May 2023. In May 2022, total import of pulses was 0.54 LMT.
- As per official release, India has imported 240 MT of Chana during the month of May 2023 as compared to nil in May 2022. All the quantity has been imported alone from Myanmar.

Previous Update:

- Due to increased buying interest from traders, stockists, and millers, Chana experienced a 1-2% rise in all major benchmark markets during the week under review. This rise is attributed to the beginning of the demand season, which is expected to continue until mid-December. Despite the presence of a substantial stock and the release of old stock by NAFED (National Agricultural Cooperative Marketing Federation of India), a sudden significant drop in prices is not anticipated at the moment. However, the market may exhibit a range-bound movement with a slightly positive sentiment going forward. In the coming days, prices are expected to fluctuate within a range of plus or minus INR 100-200 per quintal.
- Chana traded at INR 4850 per quintal, up by 1% in Bikaner and at INR 5175 per quintal, up by 1.97% in Delhi. Prices remained up by 1% per quintal in Indore.

International Market Update:

- Pulses export specially Lentil and Peas are expected to be hampered from Canada due to closure of its West Coast port owing to workers' strike. However, much impact is not likely at present as export pace during the month of July and August remains slow which normally surges in September. At that time, bulk export figure jumps up to 20-23% in case of all peas while it increases up to 15-17% in case of Lentil.
