

**Today's Update:**

- Chana witnessed a further increase of 1-3% on average across major benchmark markets such as Bikaner, Indore, and Delhi. This rise can be attributed to the seasonal demand picking up and an improved buying interest from traders, stockists, and millers. Traders believe that the demand season has commenced and will continue until mid-December. However, due to the substantial stock and the release of old stock by NAFED (National Agricultural Cooperative Marketing Federation of India), a significant and sudden drop in prices from their current lower levels is not expected at the moment. However, the market may experience a range-bound movement with a slightly positive outlook going forward. Prices are likely to fluctuate within a range of +/- INR 100-200 per quintal in the coming days.
- Chana traded at INR 5000 per quintal, up by 3% in Bikaner and at INR 5200 per quintal, up by 0.48% in Delhi. Prices remained up by 1.92% at INR 5300 per quintal in Indore.

**Previous Update:**

- Chana traded again up by 1-3%, on an average in all the major bench mark markets including Bikaner, Indore and Delhi due to increased seasonal demand amidst improved buying interest by traders, stockists and millers. Chana traded at INR 5000 per quintal, up by 3% in Bikaner and at INR 5200 per quintal, up by 0.48% in Delhi. Prices remained up by 1.92% at INR 5300 per quintal in Indore.

**International Market Update:**

- Pulses export specially Lentil and Peas are expected to be hampered from Canada due to closure of its West Coast port owing to workers' strike. However, much impact is not likely at present as export pace during the month of July and August remains slow which normally surges in September. At that time, bulk export figure jumps up to 20-23% in case of all peas while it increases up to 15-17% in case of Lentil.
