# **Cotton-Daily-Fundamental-Report**

May 10<sup>th</sup>, 2014

#### **Domestic Fundamentals:**

**Market Outlook**: Cotton market noticed mixed tone on Friday.

Arrival stood Unchanged at 97,000 bales today compared to 97,000 bales on Thursday.

**In The News:** Cotton Corporation of India (CCI) has invited bids for export sale of cotton for maximum quantities of 600 bales. Three varieties have been offered namely, S-6 of staple length 28 mm at Rajkot, BB PRM (MOD) of staple length 30 mm at Guntur and BB PRM (MOD) of staple length 30 mm at Rayagada. Variety wise Floor prices (US Cents/Pound, CNF Ex-Benapole) quoted are 102.95, 101.55 and 101.25 respectively.

Cotton export from India is likely to rise to 8.8 million bales (480-lbs) in 2013-14, which was earlier expected to be around 8 million bales, according to USDA.

The revised policy of China for importing cotton has affected India's cotton export drastically. Export of cotton yarn in the month of April has declined by 25% on weak demand and less lucrative export to China, driven by recently announced policy. As per the new policy, which came into effect from April 1st, 2014, government has lowered the auction bids of floor price to 17250 from 18000 Yuan per tonne.

Cotton arrivals in India this year stood higher compared to previous year owing good production of crop in the country. Total arrival recorded till April 30, 2014, was 33.575 million running bales of 155-157 kg each compared to 30.2 million bales during the corresponding period last year, thus noticing a increase of 17.79% on Y-o-Y basis.

As concluded by latest data from DGFT, export registration of cotton yarn rose by 33% in current FY. In year 2013-14, contracts of 1,415 million kg of cotton yarn for export were being registered by traders, compared to 1,067 million kg last year.

#### **International Fundamentals:**

Progress of cotton sowing in Pakistan has noticed good pace amid favorable weather conditions. Sowing has been completed in lower Sindh. In central region of Punjab, sowing has been started whereas it has been delayed by 2-3 in most of the other region.

Australia exports around 95 percent of its raw cotton, with three quarters sold to China. In 2014-15, exports are expected to decline by 8% to 9 lakh tonne agains the 9.75 lakh tonne exported in 2013-14.

#### **Outlook**

We expect domestic prices to remain firm in near term.
