

May 15<sup>th</sup>, 2014

#### **Domestic Fundamentals:**

**Market Outlook**: Cotton market noticed mostly mixed tone on Tuesday. Arrival stood lower at 88,000 bales today compared to 95,000 bales on Monday.

**In The News:** According to latest release by Cotton Association of India (CAI), cotton production in India stood 383.50 lakh bales (of 170 kg each) during current season ending September 2014. Production of cotton in Gujarat has been estimated around 120 lakh bales which was 83.25 lakh bales previous season. In Maharashtra, cotton production is estimated 77.25 lakh bales in 2013-14 which was 72.50 lakh bales in 2012-13. Arrivals till 30 April, 2014 stood 341.75 lakh bales.

Cotton arrival in India this season stood 341.75 lakh bales till April, which accounts 90% of the estimated crop for 2013-14, cotton Association of India said in its latest release.

Cotton Corporation of India (CCI) has invited bids for export sale of cotton for maximum quantities of 600 bales. Three varieties have been offered namely, S-6 of staple length 28 mm at Rajkot, BB PRM (MOD) of staple length 30 mm at Rayagada. Variety wise Floor prices (US Cents/Pound, CNF Ex-Benapole) quoted are 102.95, 101.55 and 101.25 respectively.

Cotton export from India is likely to rise to 8.8 million bales (480-lbs) in 2013-14, which was earlier expected to be around 8 million bales, according to USDA.

The revised policy of China for importing cotton has affected India's cotton export drastically. Export of cotton yarn in the month of April has declined by 25% on weak demand and less lucrative export to China, driven by recently announced policy. As per the new policy, which came into effect from April 1<sup>st,</sup> 2014, government has lowered the auction bids of floor price to 17250 from 18000 Yuan per tonne.

### **International Fundamentals:**

Production of cotton in China is likely to be around 6.44 million tons, 23000 tons higher, which was projected earlier, as reported by Beijing Cotton Outlook (BCO) in its latest release. China cotton ending stock in 2014-15 is expected to be around 13.42 million tons compared to 13.13 million tons estimated earlier.

Progress of cotton sowing in Pakistan has noticed good pace amid favorable weather conditions. Sowing has been completed in lower Sindh. In central region of Punjab, sowing has been started whereas it has been delayed by 2-3 in most of the other region.

Australia exports around 95 percent of its raw cotton, with three quarters sold to China. In 2014-15, exports are expected to decline by 8% to 9 lakh tonne agains the 9.75 lakh tonne exported in 2013-14.

### **Outlook**

We expect domestic prices to remain firm in near term.
