

### **Domestic Fundamentals:**

Market Outlook: Cotton market noticed mixed sentiments on Thursday.

**In The News**: Around 116.91 lakh hectare of area has been sown for cotton this year as on August 14 as compared to 110.93 lakh hecaters during the corresponding period last year, reported Ministry of Agriculture.

According to the market participants, cotton production in India would be around 400 lakh bales in the upcoming season (Oct'14-Sep'15). Cotton output for the current season ending this month would be around 390 lakh bales, according to the Cotton Advisory Board (CAB).

Commercial Crops (CC) program, under National Food Security Mission (NFSM) is including the Mini Mission-II (MM-II) of Technology Mission on Cotton (TMC) has been implemented (w.e.f. 2014-15) in major cotton growing states including Maharashtra. Also CCI has been mandated to procure entire quantity of FAQ seed cotton offered by farmers without the quantitative limit at the nominated market yards in the event of prevailing Kapas prices touches the MSP.

The South-West monsoon rain over the country as a whole during the second half (August-September) of the 2014 is expected to be 95% of LPA i.e. 43.5 cm. The LPA in second half consit of 49% of the average season rainfall.

Due to unpredictable monsoon and fall in the international prices, cotton imports have witnessed the uptrend in the recent weeks. India is mostly importing from West Africa as they are offering the quality product at much competitive prices.

According to Ministry of Agriculture, around 112.24 lakh hectare of area has been sown for cotton this year as on August 08.

Government of Tamil Nadu announced the launching of cotton cultivation mission with an initial outlay of Rs 50 crore in order to amplify cotton acreage and hence the production in the state.

First quarter of current fiscal year witnessed timid sentiments in the textile industry. The reason for the same is decline in cotton yarn export to China and lackluster demand for fabrics and made-up from European countries. There is a situation of leading supplies and hence depending on the counts, prices of cotton yarn fell by Rs. 10 to Rs. 25 per Kg.

According to the State Agriculture Department, as on July 28, sowing of cotton in Gujarat has reached to 2.58 million hectares, 95.11% of the total area sown last year which was 2.61 million hectares.

Cotton farmers in India have requested the Union Government to impose import ban on cotton and issue measures to revive cotton export. Vidarbha Janandolan Samiti has said that prices of cotton have declined drastically since the new government has formed. Farmers urged the government to increase the Minimum Support Prices (MSP) from the existing Rs.4050 per quintal to Rs 6500 per quintal.

The Government of India has reduced insurance premium on cotton crop from 17.19% to 6%, giving relief to farmers in cotton-growing states like Gujarat and Maharashtra, after fears of weak monsoon gripped farmers.

The worries of cotton farmers are likely to be continued throughout the season though the rainfall has revived significantly. Situation for cotton is getting critical as delayed sowing has increased the sowing expenditure on one hand and expectation of less remunerative prices of cotton on other hand.

## **International Fundamentals:**

World cotton production is expected to be around 25.613 million tons during the season 2014/15, which was forecasted 25.34 million tons in July, reported USDA. Cotton production on the global front during the season 2013/14 stood 25.75 million tons.

Due to ongoing drought conditions in Australia, the third biggest exporter of cotton in the world, cotton production is likely to fall by 50% in the country. It is believed that if the same condition continues cotton production in Australia could plummet down to 2 million bales in the coming season i.e. 2014-15 from 4 million bales this year. Amid deficit rains, farmers would plant lesser which would reduce the cotton acreage and hence the production.

According to The News International (Pakistan), Pakistan cotton trade turnover climed to four month high of 15000 bales (each of 155 Kg), even after the announcement of Karachi Cotton Association to lower the cotton spot rate by Rs.100 per 37.324 Kg to Rs.525 per 37.324 Kg.

## **Outlook**

## We expect domestic prices to remain sideways in near term.
