

#### **Domestic Fundamentals:**

Market Outlook: Cotton spot market noticed mostly firm tone on Friday.

**In The News**: India could now face the hurdle of import duty in cotton yarn export to Pakistan. Pakistan Yarn Merchants Association (PYMA) demanded government to impose 15 per cent regulatory duty on cotton yarn imports from India as it is hurting the domestic market. According to PYMA cotton yarn imports during July to December 2014 has climbed fourfold of the imports during same period in 2013. All Pakistan Textile Mills Association (APTMA) had also pointed towards the expected threat to domestic textile sector driven by rise in cotton yarn imports from India.

Cotton Corporation of India (CCI) has invited the bids to sell 5,100 bales of cotton through e-auction. The sale of cotton in domestic market by CCI would pressurize the cotton prices which are already ruling weak due to cut in China cotton imports. On other hand CCI is forced to sell the cotton in domestic market due to lack in overseas demand.

India exported 1.24 lakh bales of cotton this week (19-25 Jan 2015), which was 1.26 lakh bales previous week (12-18 Jan 2015), according to the data compiled by IBIS. Imports on the other hand stood 0.13 lakh bales, which was 0.09 lakh bales previous week.

The Cotton Association of India (CAI) has revised the estimate of cotton production at 400.25 lakh bales for season 2014-15, slightly lower than previous year's production caused by yield loss in the central region of the country. According to CAI, cotton production stood 407.25 lakh bales in 2013-14. For the current season association estimated supply of 472.5 lakh bales, domestic consumption of 306 lakh bales and available surplus of 166.15 lakh bales.

Cotton Corporation of India (CCI) has procured around 4.82 million bales (of 170 kg each) of cotton this season so far. CCI is targeted to buy 10 million bales of cotton during this season with the cost of Rs. 12000 crores. If we see the procurements in previous years, it would be highest procurement, if CCI achieves the target. The highest procurement till date was recorded in 2008-09 when it was 8.9 million bales. Around Rs 9600 crores has been spent by CCI to buy cotton from the various region including Gujarat, Maharashtra and Andhra Pradesh.

Tamil Nadu based Southern India Mills Association (SIMA), the largest spinning mills association in India, has requested the centre to instruct Cotton Corporation of India (CCI) to commence procurement and commercial operation in the state. Since last 20 years, CCI has not executed any MSP operation as the state was among the lowest cotton producing region, but this season Tamil Nadu is likely to five lakh bales of cotton in winter and one lakh bale in continuing summer season. To sell their produce at genuine prices, state wants CCI to procure cotton at MSP.

#### **International Fundamentals:**

Certified cotton stocks deliverable against the ICE No.2 cotton futures contract as of Jan 28 stood at 57,423 (480-lb) bales, compared to 54,401 bales previous session, reported Reuters.

China recorded 7.4% growth in the economy, the slowest growth rate in nearly a quarter of a century, according to National Bureau of Statistics. Also International Monetary Fund (IMF) lowered its global growth forecast for 2015 to 3.5% which was estimated 3.8% earlier. Following the wave, World Bank also reduced its forecast for global economic expansion to 3%, around 0.4% lower than the previous estimate. March contract, most active contract on ICE, settled at 57.79 cents a pound, the lowest price recorded since August 27, 2009.

China cotton import during December noted a fall of 57 percent, when compared to corresponding month during the previous year. China imported 264,500 tons of cotton in December and 2.4 million tons during the year 2014, around 41 percent lower when compared to previous year.

#### **Outlook**

### We expect domestic prices to remain weak to sideways in near term.
