

Domestic Fundamentals:

Market Outlook: Cotton spot market noticed mixed tone on Wednesday.

In The News: Around 86.02% of the cotton sowing has been completed in Gujarat, according to State Agriculture Department. Area sown under cotton as on 20 July 2015 stood 23.45 lakh hectares in Gujarat against the total normal area of 27.26 lakh hectares and previous year as on date area of 17.77 lakh hectares.

Around 93.22 lakh hectares of cotton has been sown so far throughout the country, as on 17 July this year. This is around 66.50% higher when compared to the corresponding sowing progress of last season which was 55.99 lakh hectares, according to Ministry of Agriculture.

In Andhra Pradesh, around 20.49% of the cotton planting has been completed so far. Around 1.19 lakh hectares of cotton has been planted as on 15 July 2015 which is around 40% lower when compared to the area sown for cotton during the same period last year which was 1.96 lakh hectares.

Cotton Corporation of India (CCI) is getting good response for its e-auctions, said India Cotton Federation (ICF). Miller, traders and exporters are buying cotton from CCI according to their current and future requirements. Currently CCI is holding the unsold stock of approximately 62 lakh bales out of approximately 87 lakh, which it procured in the current season under the MSP operation.

Cotton output in India is likely to be around 6.423 million tones (377.8 lakh bales of 170 kg each.) in the season 2015-16, same as the output of season 2014-15, according to USDA. The country is likely to export 1.023 million tones (60.17 lakh bales of 170 kg each.) of cotton in 2015-16, around 17.45% higher when compared to export in season 2014-15 which was 0.871 million tones (51.23 lakh bales of 170 kg each), said USDA.

The Southern India Mills' Association (SIMA) has urged minister of state for textile Santosh Kumar Gangwar to look into the e-auction policy of Cotton Corporation of India (CCI) of selling cotton and instruct CCI to offer at least 50,000 bales - in varied lot sizes and in multiples of 100 bales. It also requested that CCI should offer cotton for sale in each center and each variety in order to help small industry.

India exported 0.439 lakh bales of cotton last week (15-21 June 2015), which was 0.449 lakh bales previous to last week (08-14 June 2015), according to the data released by IBIS and compiled by Agriwatch. Imports on the other hand stood 0.297 lakh bales last week, which was 0.259 lakh bales previous to last week.

According to Investment Information and Credit Rating Agency of India (ICRA), cotton prices in year 2016 is likely to remain range bound despite the expectation of fall in production by 10-15%. ICRA in its report said that in the last four year (CY 2011-12 to 2014-15), the global cotton prices and trade were majorly driven by government policies in various producing and consuming countries, despite the increasing supply and negligible growth in demand.

Central Institute for Cotton Research (CICR) has issued the district specific advisory for sowing cotton across the country, considering the difference in the status of monsoon in different states. CICR has suggested the immediate sowing in Maharashtra in the coming week particularly in Jalgaon, yavatmal, Nanded, Amravati, Buldana and Aurangabad districts as dry situation is expected in the period of July 03-16.

International Fundamentals:

USDA estimated cotton imports to be around 7.41 million tones in 2015-16, around 1.5% lower when compared to the imports in the current season i.e. 2014-15. It should be noted the net fall in the cotton imports is caused by the lower cotton imports by China, otherwise all the major importing nation are expected to import higher in 2015-16.

In its July estimates, USDA estimated world cotton export to be around 7.413 million tones in season 2015-16, around 1.6% lower when compared to export in the current season that is 2014-15. Except India and Uzbekistan, where exports would be on higher side and Burkina where export would remain steady, all the major exporting countries are likely to face fall in exports.

Egypt's cabinet decide to cancel a temporary ban on cotton imports imposed last week and form a committee to review agricultural policy on cotton.

Outlook

We expect domestic prices to remain range bound to firm in the near -term.
