

Domestic Fundamentals:

Market Outlook: Cotton spot markets mostly noticed firm tone on Saturday.

In The News: According to the official figures, cotton has been sown on 104.29 lakh hectares as on July 21, 2017 across the country compared to 86.86 lakh hectares during the same period previous year.

On the back of favorable weather conditions and lucrative expected returns, rating agency, ICRA projected India to produce 36 million bales of cotton in 2018, up by 6 per cent from the previous year.

The Cotton Association of India projected India's cotton export to decline by 17% to 6 million bales in 2016- 17 due to the appreciation of Indian rupee this year, which makes the Indian cotton less lucrative for the foreign importers.

Provided a normal monsoon this year, the Cotton Association of India projected india's cotton production to rise by 11.4% from 34.1 million bales in 2016-17 to 38 million bales in 2017-18

The Indian govt. had increased cotton MSP (Minimum Support Price) for long staple cotton from Rs 4,160/quintal in 2016-17 to Rs 4,320/quintal in 2017-18.

As per the latest report published by USDA, India is expected to produce 6.09 million Tonnes of cotton in 2017-18 which is 5.7% higher than the cotton produced last year in 2016-17.

The sale of cotton seeds has picked up with sowing going on in full swing in the states of Punjab, Haryana, Rajasthan and some parts of Karnataka. According to the National Seeds Association of India (NSAI), cotton seed sales are likely to cross 5.5 to 6.5 lakh packs (each of 450 gms) this season.

Farmers are likely to increase the area under cotton amid expectation of good monsoon this season and higher price of cotton during the previous season, farmers. According to initial projections by the Central Institute of Cotton Research, Nagpur, the cotton area sown would be around 6 lakh hectares in Haryana (compared to 4.98 lakh hectares during 2016-17) and 4 lakh hectare in Punjab (compared to 2.56 lakh hectares in 2016-17).

The Indian Council of Agricultural Research (ICAR)- Central Institute of Cotton Resarch (CICR) predicted India's cotton acreage area to rise by 7-10 per cent this year (2017-18) from 105 lakh hectares of land brought under cotton cultivation last year i.e. 2016-17.

The govt. of India targeted a cotton crop production of 14.40 million bales in 2017-18 compared to the target of 14.1 million bales of production in 2016-17.

International Fundamentals:

As per the latest USDA report, global cotton production is expected to rise by 8.25% from 23.08 million tonnes in 2016-17 to 24.98 million tonnes in 2017-18; wherein China, U.S , Pakistan and Brazil are expected to produce 5.23 million tonnes, 4.18 million tonnes, 2.03 million tonnes and 1.52 million tonnes of cotton respectively in 2017-18.

According to the Cotton Board of Zambia, it is likely to produce 117,000 tonnes of cotton this year compared to 116,000 tonnes in the previous year. Though the number of farmers cultivating cotton declined by over 20,000 from 277,560, production increased amid favourable weather in the growing regions.

According to the latest report published by International Cotton Advisory Committee (ICAC), world's cotton area is likely to increase by 5% to 30.8 million hectares in 2017-18. A higher cotton price in China and a stable cotton policy there, the area under cotton cultivation is expected to increase by 3% to 2.9 million hectares while cotton production is expected to increase by 1% to 4.8 million tonnes in 2017-18. While, U.S is expected to increase its cotton acreage area by 12% this year to 4.3 million hectares and its production is expected to lie somewhat around at 4 million tonnes.

On the other hand, as per the same report issued by ICAC; world cotton use is expected to increase by 2% to 24.6 million tonnes in 2017-18. Cotton use in China, which is amongst the largest consumer, is projected to increase by 1% to 7.7 million tonnes in 2017-18. Due to the various government initiative introduced to promote cotton export by Pakistan, the cotton use in the country is also expected to increase by 1% to 2.3 million tonnes in 2017-18. Mill use in Bangladesh is also projected to rise by 5% to 1.5 million tonnes in 2017-18.
