

Domestic Fundamentals:

Market Outlook: Cotton spot market noticed mixed tone on Saturday.

In The News: In line with the bonus payment announced to the cotton farmers in Gujarat; the cotton grower in Maharashtra too demanded a bonus payment of at least Rs 500/quintal for their product from the government.

In a move to ensure better remunerative prices to the farmers, the Gujarat govt. had declared a bonus of Rs 100 per 20 kg of the cotton sold directly to the Cotton Corporation of India (CCI) which is in addition to the MSP (Minimum Support Price) paid for the crop.

To mitigate for the loss incurred due to the untimely rain in Telangana, the Communist Party of India(Marxist) Telangana State committee had demanded the state govt. to procure cotton crop from the farmers at a support price of Rs 7,000/quintal.

According to the official figures, cotton has been sown on 123.17 lakh hectares as on October 13, 2017 across the country compared to 103.69 lakh hectares during the same period previous year.

Heavy rain in the major cotton growing region of India (Maharashtra, Gujarat, M.P., Andhra Pradesh, Telanagana & Karnataka) had adversely affected cotton sowing and arrivals into the country.

The Cotton Association of India (CAI) predicted India to produce 375 lakh bales of cotton in 2017-18.

In its first advance estimate, the agriculture ministry of India projected the country to produce 32.3 million bales of cotton in 2017-18 which is 2.12% lower than the cotton produced last year in 2016-17.

On the back of favorable weather conditions and lucrative expected returns, rating agency, ICRA projected India to produce 36 million bales of cotton in 2018, up by 6 per cent from the previous year.

The Indian govt. had increased cotton MSP (Minimum Support Price) for long staple cotton from Rs 4,160/quintal in 2016-17 to Rs 4,320/quintal in 2017-18.

As per the latest report published by USDA, India is expected to produce 6.09 million Tonnes of cotton in 2017-18 which is 5.7% higher than the cotton produced last year in 2016-17.

Farmers are likely to increase the area under cotton amid expectation of good monsoon this season and higher price of cotton during the previous season, farmers. According to initial projections by the Central Institute of Cotton Research, Nagpur, the cotton area sown would be around 6 lakh hectares in Haryana (compared to 4.98 lakh hectares during 2016-17) and 4 lakh hectare in Punjab (compared to 2.56 lakh hectares in 2016-17).

The Indian Council of Agricultural Research (ICAR)- Central Institute of Cotton Resarch (CICR) predicted India's cotton acreage area to rise by 7-10 per cent this year (2017-18) from 105 lakh hectares of land brought under cotton cultivation last year i.e. 2016-17.

The govt. of India targeted a cotton crop production of 14.40 million bales in 2017-18 compared to the target of 14.1 million bales of production in 2016-17.

International Fundamentals:

According to China's General Administration of Customs, China imported 441,571 metric tonnes of cotton from U.S. during the period January –September 2017, an increase of 140.48% compared to the same period previous year. In the month of September 2017, China's imports of cotton from U.S. increased by 89.62% to 33,594 metric tonnes.

On the back of a higher production estimate in India & U.S, the International Cotton Advisory Committee (ICAC) projected world's cotton output to rise by 10% to 25.5 million tonnes in 2017-18 (01st October, 2017 -30th September, 2018).

On the other hand, world' cotton consumption is expected to increase by 2.7% from 24.56 MMT in 2016-17 to 25.22 MMT in 2017-18. Wherein, China, the world's largest cotton consumer, is expected to consume 8.1 MMT of cotton during 2017-18 which is 1.5% higher than its cotton consumption last year.

ICAC also projected cotton export of 3.1 MMT from U.S (which is the largest cotton exporter in the world)and an import of 1.4 MMT by Bangladesh in 2017-18.

As per the latest USDA report, global cotton production is expected to rise by 8.25% from 23.08 million tonnes in 2016-17 to 24.98 million tonnes in 2017-18; wherein China, U.S, Pakistan and Brazil are expected to produce 5.23 million tonnes, 4.18 million tonnes, 2.03 million tonnes and 1.52 million tonnes of cotton respectively in 2017-18.
