

Domestic Fundamentals:

Market Outlook: Cotton spot markets witnessed mixed tone on Wednesday.

In The News: Cotton Advisory Board (CAB) has estimated that cotton production in 2017-18 is likely to rise 9.3 per cent to 37.7 million bales.

In a major action against faulty Bt cotton seeds in Maharashtra, the agriculture department has seized failed seeds worth 24 crore from an unnotified godown in Aurangabad. After department officials got a tip-off, the quality control cell of the agriculture commissionerate seized 1,279 quintals of Bt cotton seeds produced by Green Gold seeds, which had either expired or were mixed with non-Bt seeds but were to be sold as Bt seeds.

The Cotton Corporation of India (CCI) has started procuring cotton in major districts of Andhra Pradesh which are Prakasam, Guntur, Kurnool and Krishna. So far, it has procured 35542.04 Qtls valued at 15.24 crore.

In a major action against faulty Bt cotton seeds in the Maharashtra, the agriculture department has seized failed seeds worth 24 crore from an unnotified godown in Aurangabad. After department officials got a tip-off, the quality control cell of the agriculture commissionerate seized 1,279 quintals of Bt cotton seeds produced by Green Gold seeds, which had either expired or were mixed with non-Bt seeds but were to be sold as Bt seeds.

The Cotton Corporation of India (CCI) has procured 1.29 lakh tonnes of cotton in Telangana so far this season. The CCI made these purchases from 243 centres that it set up for the season. And also opened its collection centres in 202 ginning mills and 41 public market yards.

Pakistan government has allowed cotton imports from India, though with a set of rules which are being seen as “tough” by local importers there. A permit from the Department of Plant Protection of Pakistan’s food ministry would be mandatory for any trader to import unprocessed cotton, including raw or seed cotton, cotton lint, linters, cotton waste and cotton stuffing from India.

Cotton Association of India has called for the government to roll back the Reverse Charge Mechanism (RCM) of GST collection on kapas as it blocks their working capital and adds to costs. The Association has also asked the government for speedy resolution of pending RCM refunds. The Association has indicated that if the issue of RCM was not resolved in the next meeting of the GST Council to be held on 21st December 2017, they would go on an indefinite strike 22nd December 2017 onwards.

Cotton crops in Maharashtra and Telangana are said to have sustained large losses on account of pink bollworm attack. As much as 1.4 million hectare or about 30% of Maharashtra’s acreage is likely to have been affected. This will likely result into final crop estimates settling lower than the previous estimates. Cotton Association of India (CAI) in its first estimate for the cotton crop season 2017-18 beginning October 1, 2017 had put the country’s cotton crop at 375 lakh bales of 170 kg each compared to last year’s crop of 337.25 lakh bales.

India’s current cotton crop for the season ending this September is expected to be about 34.1 million bales.

With a view to facilitate domestic manufacturing industry, the Indian government has raised basic customs duty (BCD) on polyester/man-made fabric from 10% to 20%. This will be supportive of cotton prices too.

Farmers are likely to increase the area under cotton amid expectation of good monsoon this season and higher price of cotton during the previous season. According to initial projections by the Central Institute of Cotton Research, Nagpur, the cotton area sown would be around 6 lakh hectares in Haryana (compared to 4.98 lakh hectares during 2016-17) and 4 lakh hectare in Punjab (compared to 2.56 lakh hectares in 2016-17)

International Fundamentals:

Global cotton area for 2017-18 is projected to increase by 11 per cent to 32.5 million hectares. As a result, global cotton production is forecast to grow by 12 per cent during 2017-18, compared to 7 per cent growth in 2016-17, the International Cotton Advisory Committee (ICAC).

The International Cotton Advisory Committee (ICAC) had upraised its world's cotton output projection to 25.57 million tonnes in 2017-18 (01st October, 2017 -30th September, 2018).

Pakistan government has allowed cotton imports from India, though with a set of rules which are being seen as "tough" by local importers there. A permit from the Department of Plant Protection of Pakistan's food ministry would be mandatory for any trader to import unprocessed cotton, including raw or seed cotton, cotton lint, linters, cotton waste and cotton stuffing from India.

According to fortnightly report issued by the Pakistan Cotton Ginners Association (PCGA) on Saturday, a total of 0.20 million bales were sold to exporters, which was 33.10 percent higher than 0.15 million bales last year.

According to China's General Administration of Customs, China imported 441,571 metric tonnes of cotton from U.S. during the period January –September 2017, an increase of 140.48% compared to the same period previous year. In the month of September 2017, China's imports of cotton from U.S. increased by 89.62% to 33,594 metric tonnes.

World cotton consumption is expected to increase by 2.7% from 24.56 MMT in 2016-17 to 25.22 MMT in 2017-18. Wherein, China, the world's largest cotton consumer, is expected to consume 8.1 MMT of cotton during 2017-18 which is 1.5% higher than its cotton consumption last year.
