

### Domestic Fundamentals:

**Market Outlook:** Cotton spot market prices were noticed weak tone on Saturday

**In The News:** In benchmark market of Rajkot (Gujarat), market prices are trading near Rs.5100/quintal compared to Rs.5150/quintal previous week. Last year during same period prices were trading near Rs 5800-Rs 6000/quintal.

After pink bollworm attack, the Maharashtra government has decided to promote short duration varieties of Bt cotton from the next cotton year. Because the short duration varieties get adequate soil moisture during the critical flowering and fruiting phase and escape bollworm attacks during squaring-flowering stage.

Andhra Pradesh nearly 15 percent of its cotton acreage was planted with an unapproved variety of genetically modified seeds developed by Monsanto.

The Cotton Association of India (CAI) has, in its latest estimate, lowered the crop size by 8 lakh bales (of 170 kg each) to 367 lakh bales against the earlier estimate of 375 lakh bales. For the 2017-18 season, beginning from October 1, 2017, the CAI reduced the crop estimate to 367 lakh bales citing severe infestation of cotton with pink bollworm.

The projected Balance Sheet drawn by the CAI estimated total cotton supply for the season at 417 lakh bales of 170 kgs. each including the opening stock of 30 lakh bales at the beginning of the season and the imports which the CAI estimated at 20 lakh bales for 2017-18 crop year. The domestic consumption is estimated to be 320 lakh bales while CAI estimates exports for the season to be 55 lakh bales. The carry over stock at the end of this season on 30<sup>th</sup> September 2018 is estimated to be 42 lakh bales.

Since the introduction of Bt cotton in 2002, there has been a near doubling of cotton production in the country from 158 lakh bales in 2001-02 to 351 lakh bales in 2016-17, and increase in productivity from 308 kg/ha in 2001-02 to 568 kg/ha in 2016 17.

Higher demand for better grades of cotton kept market sentiments firm while better grades of cotton getting a premium price during trading sessions at leading stations of cotton market in India.

The government today increased import duties on certain crude and refined vegetable oils like cotton seed oil, olive oil and groundnut oil, to 30-35 per cent to check shipments. Import duty on crude edible vegetable oils like groundnut oil, olive oil, cotton seed oil, safflower seed oil, saffola oil, coconut oil, palm kernel/babassu oil, linseed oil, maize corn oil, castor oil, sesame oil, other fixed vegetable fats and oils has been raised from 12.5 per cent to 30 per cent.

Cotton yield in Gujarat may take a 15% hit this year due to the pink bollworm pest attack. The average per hectare yield of cotton in the state is estimated to fall from 510-520kg a hectare to 480kg a hectare.

Cotton acreage in Gujarat increased to 26.42 lakh hectares in the kharif season of 2017-18 from 24.04 lakh hectares in the previous season.
