

Domestic Fundamentals:**Market Outlook:**

Domestic prices traded firm during this week, mainly due to lower daily arrivals and good demand for Indian cotton from China..The price in Indian market is higher than that internationally. This is backed by higher MSP and purchases by CCI. The market may move up only through larger offtake by exporters or by domestic industry. This may occur gradually over the next few months

News: *UK-based Cotton Outlook has pegged India's 2019-20 (Aug-Jul) cotton production at 6.13 mln tn, up 3% on year, the agency said in its monthly report. India's 2018-19 production estimate has been revised to 5.95 mln tn. Gujarat and Maharashtra are India's top cotton producers, accounting for 55% of the total output*

Indian cotton exporters are upbeat due to a spurt in demand for cotton from China, especially at a time when cotton exports to Pakistan have come to a halt due to the tensions between the two neighbours. According to trade estimates, Indian traders have contracted for export 5 lakh bales to China for shipments in the next two months.

All India cotton arrivals registered around 155,000-170,000 bales (each bale 170 kg) lint equivalent on an average per day basis. Lint prices for Gujarat Shankar 6 cotton are quoted around INR 41'700 per candy.

Pulwama attack retaliation: *India halts cotton exports to Pakistan amid tensions. The unease between India and Pakistan, exporters see a temporary slump in flow of consignments for a few days. Cotton exports to China from India, are on the upswing. About 4 lakh bales have already been shipped to China in the last 10 days and another 10 lakh bales are expected to be shipped from the country soon, traders said.*

According to Cotton Association, *that some of 8 lakh bales had been contracted by Pakistan and nearly 6.5 lakh bales have already been shipped which means barely 75,000 bales are remaining. Pakistan is expected to import around 10 lakh bales of cotton from India in the current financial year. Some exporters believe that the cotton export to Pakistan will continue even in the event of increase in duty as the consignments would be routed via ports in Dubai and Singapore. So far, some 32 lakh bales have been shipped out of the country and the total exports are expected to touch 50-55 lakh bales.*

Till date, *the total cotton stock in the country is 80 lakh bales, of which 44 lakh bales is with spinning mills, 36 lakh bales with ginners and the remaining with CCI.CAI, in its January 2019 estimate of the cotton crop for the season 2018-19 beginning from October 1, 2018, has estimated cotton crop for 2018-19 season at 330 lakh bales of 170 kg each which is lower by 5 lakh bales than its previous estimate of 335 lakh bales made last month.*

Indian arrivals are slow. CCI was procuring big quantities *from Telangana and Maharashtra at MSP. Total CCI procurement Crossed 8.5 lakh bales, overall supply is limited so there is no big pressure. CCI expects procurement to reach 1.50 million bales by the end of the current season.*

Weather Forecast for tomorrow:

Scattered light to moderate rains will continue over Northeast India, Gangetic West Bengal, Coastal Odisha. Light rains are expected over Jammu and Kashmir, Himachal Pradesh and few places of Uttarakhand and Coastal Andhra Pradesh. Heat wave conditions will develop in parts of Rayalaseema and interior Tamil Nadu with maximums touching almost 40-degree mark.

International Fundamentals:

The market traded firmer this week mainly on reports that the United States and China are close to signing a trade deal which would possibly end a tit-for-that tariff row that has roiled markets. Optimism appears high that an agreement would be finalized still this month.

Net US UPLAND sales of 85,500 RB for 2018-2019 were reported for Indonesia (29,600 RB, including 500 RB switched from Japan), Vietnam (27,800 RB, including 16,700 RB switched from China, 1,100 RB switched from South Korea, and decreases of 24,000 RB), Turkey (27,400 RB), Bangladesh (21,500 RB), and Pakistan (7,900 RB, including decreases of 5,000 RB). Reductions were reported for China (65,600 RB) and Malaysia (500 RB). For 2019-2020, net UPLAND sales of 12,100 RB reported for China (11,000 RB), Mexico (2,700 RB), and Indonesia (900 RB), were partially offset by reductions for Indonesia (2,600 RB). UPLAND Exports of 3,45,700 RB were primarily to Vietnam (92,600 RB), Pakistan (70,100 RB), India (36,200 RB), Indonesia (23,500 RB), and Bangladesh (23,400 RB).

During the last week overall trading in Pakistan cotton market the prices of cotton shows down word trend, the prices of cotton decreased by Rs 100 to Rs 150 per maund. The trading volume increased due to the tension on India Pakistan border. The Indian government has imposed 200% duty on the import of Pakistani products. There are rumors that Pakistan may impose duty on the import of Indian products. There are rumors circulating regarding the imposition of duty on many products but at this point of time cotton is not included in the list.

The cotton production in Pakistan up to Feb 15 stood short by 6.83 per cent at 10.7 million bales over the corresponding period last year. This is the seventh consecutive year the country is faced with a short crop of around 4.8m bales from a record production of around 15m bales achieved in 2011-12. According to trade sources, in order to meet the shortfall, textile spinners are likely to import up to 3.5m to 4m bales, burdening foreign exchange reserves by around \$1 to \$1.2 billion. Cotton export is unaffected so far and we don't expect Pakistan to pose hurdles as their cotton industry requires raw material from India. India is the most accessible and price-lucrative market for them, Atul Ganatra, president of the Cotton Association of India.
