The world's top two economies announced their Phase 1 deal earlier this month, but have since disclosed few concrete details. Trade optimism and better economic report out of China lifted global equity markets to fresh records in a year-end rally.

News: *According to the Chandigarh government, Punjab is likely to produce 49% larger crop of around 18 lakh bales as against 12 lakh bales produced last year. The average production per acre crossing the 10 quintals per acre mark as against last year's 9.31 quintals per acre. As this year the farmers were encouraged to shift to cotton cultivation in the view to diversification of crops. Therefore, the area under cotton cultivation from 6.70 lakh acres last year to 9.80 lakh acres during this year. CCI had purchased around 4.36 lakh quintals of cotton, which is about 20% of the total arrivals so far.*

India's cotton exports have slowed down in the current marketing year that began on Oct 1 due to higher domestic prices following a hike in the minimum support price and in view of the depressed global prices. So far only 6-7 lakh bales have been shipped out, and the total export contracts are yet to hit the 1-mln-bale market. The number is just about 50-60% of the normal export contracts this time than in the past few years. These export contracts were finalized at 73-74 cents per pound, of which 75% were from Bangladesh, and the rest from China and Vietnam.

As on 13th Dec'19, the cotton arrivals from all over India stood approximately 72.3 lakh bales this season so far. Although the arrivals were delayed in South India, but now Telangana is leading with 13.94 lakh bales arrivals with moisture content ranging between 8-12% and CCI is procuring 95% of the cotton. The state is followed by Gujarat, that received around 12.99 lakh bales so far after the loss caused by the untimely rains in the state. The state is expecting 10% less production from the earlier estimates of 100 lakh bales. Similarly Maharashtra also faced bad weather this year which affected the crop and so far 9.3 lakh bales have been arrived in the state. While the arrivals from North India declined this month after the sowing of wheat crop has started in the previous month (November) in Punjab and Haryana. Rajasthan is seen to have good crop growth that received 11.3 lakh bales this year so far followed by Haryana (10.86 lakh bales) and Punjab (3.42 lakh bales).

The prices increased gradually as the moisture content declined after CCI recommended farmers to dry their cotton in order to sell it to CCI. The prices in Rajkot remained around Rs.5250/q while in MP the prices stood firm around Rs.5400/q. Prices likely to surge in the coming days in other states too.

As on 12th Dec'19, CCI procured 13.78 lakh bales in total across India, buying the large quantity of 8 lakh bales from Telangana followed by 2.2 lakh bales from Punjab, Haryana and Rajasthan. Around 1.82 lakh bales were procured from Maharashtra, 71,500 bales from Gujarat and the minimum purchases of 23,000 bales were reported from Andhra Pradesh. According to the trade sources, around 64 lakh bales have been arrived in the Indian markets so far as on 13th Dec'19.

India retain its overall cotton output for the 2019-20 season at 354.5 lakh bales, according to CAI. Cotton arrivals during October and November are estimated at 56.15 lakh bales. Cotton exports shipments during 1st Oct'19 to 30th Nov'19 stood at 5 lakh bales as the country is facing problems due to higher MSP compared to international prices and quality issues. Whereas the imports are on higher side are estimated at 5 lakh bales during the same period. Domestic prices are hovering around Rs.38,000-40,000/candy and around 80-95% of the arrivals is being bought by CCI so as to stabilize the prices.

Today the arrivals in North India were far lower than previous day due to heavy rainfall in Punjab, Haryana and rawastar, ganganagar and hanumangarh in Rajasthan and Vidarbha region of Maharashtra. The rainfall at this point of time might affect the harvested cotton as the fear of high moisture increases. After one month, the cotton prices took correction during the past week. If the rain continues, the crop might be affected and the infestation of pink bollworm might increase.

US expects further decline in production by around 0.61% than the previous estimates of 20.8 US million bales to 20.2 US million bales. Although, the production is still higher than previous year that stood at 18.37 US million bales (2018-19). The exports are also expected to increase to 16.5 US million bales in 2019-20 against 14.76 US million bales in 2018-19. According to the WASDE report, cotton production also declined in India and Pakistan at 29.5 US million bales (-0.5%) and 6.2 US million bales (-0.8%) from previous month's estimates.

As per the latest data released by ICAL, total arrivals in North zone reached around 27.82 lakh bales from 1st Sep'19 till 30th Nov'19 up compared to 27.72 lakh bales in the same period last year. So far, arrivals in Rajasthan stood at 14.09 lakh bales followed by Haryana at 10.43 lakh bales and Punjab at 3.29 lakh bales in the same period. In Haryana, CCI has not been seen much active covering only 4 centres in the state: Kalanwali (10,609 bales), Adampur (6,548 bales), Ellenabad (5,159 bales) and Sirsa (2,588 bales). Whereas CCI was active in many areas in Rajasthan supporting the prices and maintaining around MSP.

According to the Telangana state pressing report of October and November'19, Adilabad pressed 1,60,000 bales followed by Warangal (1,42,000 bales), Nalgonda (1,40,000 bales), Mahabubnagar (95,000 bales) with total pressed bales of 7,08,700 bales so far. In Adilabad district, still the farmers are facing problems in selling their produce as CCI refused to buy stating that moisture content was high and now in the name of Koudi (insect) which attacks the crop at the final stage. Farmers are worried as private traders are purchasing the cotton at a cost of Rs 4,500 per quintal. About 6.81 lakh quintals of cotton came to Adilabad market yard for sale. Of this, CCI had purchased 4.93 lakh quintals and private trades purchased 1.87 lakh quintals.
