

Domestic Fundamentals:**Market Outlook:**

The markets in Haryana, Rajasthan and Madhya Pradesh are closed till first week of May to avoid the spread of coronavirus. The mills in Maharashtra and Gujarat is likely to start soon after the commencement of procurement of cotton by CCI along with Punjab.

News: *Cotton ginners in Maharashtra are unwilling to resume the operations amid fear of coronavirus in the state. As the number of affected people are increasing day by day in the state and they do not want to take the risk of the pandemic. The ginners are saying that they will resume only after the lockdown is lifted in the state. Also, the labour was a major issue as most workers had left for their homes and will not be able to return in lockdown situation. A single unit requires around 50 workers, who work in a single shift. As cotton is non-perishable commodity, therefore, the growers and ginners can hold on their produce until further notice.*

Around 14,000 bales have procured in last 7-10 days from the farmers. Buying has slowed down after March *as the peak harvest season is almost over. So far CCI has procured around 84 lakh bales of cotton, where 82% of the cotton purchased of the arrivals in Telangana followed by Maharashtra where 32% of the cotton is purchased out of the total arrivals in the state. And around 50% of the cotton would be purchased by CCI in the 20% of the arrivals that is to arrive in the market, according to CCI. So far, 283 lakh bales of cotton is arrived in the market till March'20 end.*

Maharashtra cotton federation recommended the state government to allow the private traders to procure non-FAQ cotton *by the farmers that usually enters the market from March month. The Maharashtra federation procures FAQ cotton and has halted the operations after the lockdown. Maharashtra cotton Federation started the FAQ grade cotton procurement from 27th Nov'19 and till 23rd Mar'20, it procured around 54 lakh quintals in the state. Around 70-80 quintals of non-FAQ cotton and around 25 lakh quintals of FAQ cotton is lying with farmers. The federation is willing to procure remaining FAQ grade cotton with farmers and the procured cotton is yet to be ginned.*

Only few Indian cotton ginning mills have started the operations but there is no labour force to *conduct the operations because of which the functioning is very slow. There is no inquiries from the yarn industries due to the decline in demand across the country and foreign demand. The mill consumption is likely to decline sharply amid lockdown in the country. Generally, the Indian mills consume around 22-25 lakh bales of the cotton in one month. Now, it seems that this year's ending stock would surge to its all-time high and may reach around 80-100 lakh bales by the end of this cotton season (2019-20) and all the mills were non-operational and were totally shut down since the lockdown started.*

As CCI indicated earlier that the procurement would likely to commence in Punjab, now Maharashtra, and Telangana also had issued guidelines to allow procurement operations of Kapas. *Around 25% of the cotton is still need to arrive in the mandis and CCI procured about 84 lakh bales of cotton so far this season. The trade in cotton was suspended since the lockdown started as only mandis dealing with essential commodities were functioning. Mandis would take necessary precautions like issuance of hourly passes to farmers to allow limited number of growers coming to the markets. However, the transportation of raw cotton from farm to mandi is an issue due to the labour shortage. Similarly, the ginning and spinning mills are also facing the problems regarding the labour. As all the migrant labours from Uttar Pradesh, Bihar and Jharkhand have left for their home states right at the start of the lockdown. The cotton industry is likely to suffer and would take time to normalize.*

The Cotton Corporation of India (CCI) is ready to procure cotton from the farmers at MSP so as to prevent the farmers from the losses. *As CCI is facing the issue of overstocking of cotton in the warehouses, therefore, the state authorities have started granting permits to transport ginned cotton in Punjab. The Punjab State Agricultural Marketing Board Authorities have decided to resume the cotton purchases in Mansa district. Only 20 growers to be invited in a day by issuing them the coupons to enter the mandi to sell their produce. The stock would further be purchased by CCI at MSP. Around 5 lakh bales have been purchased in the Mansa district so far and about 2 lakh bales still is left with the farmers to sell. In Punjab, a*

total of 3 lakh bales of cotton is yet to arrive in the mandis. Similarly, the purchase would commence slowly in Bhatinda, Faridkot, Fazilka and Muktsar districts of Punjab in the coming days.

The Indian cotton textile industry is disturbed after the lockdown and would take at least one to two months to normalize. As the many orders has been cancelled as global demand for yarn became extremely weak. When the factories start after the lockdown, the industry would take some time to revive and may face the problems with the lack of manpower as labours that have returned to their homes, orders will take some time to flow consistently, the fibre prices would go to its lowest levels, and issue related to the working capital crises.

CCI has procured around 78.5 lakh bales of cotton i.e., 28% of the total arrivals so far till 31st Mar'20 this season. The total stock with CCI has crossed 105 lakh bales as CCI procured around 78.5 lakh bales from the current season (2019-20) along with around 10 lakh bales procured by Maharashtra federation. Also, CCI is having the stock of around 9 lakh bales procured in the previous season (2018-19). MNCs, Ginners and MCX are estimated to have stock of 1.67 lakh bales, 10.35 lakh bales and 1.56 lakh bales respectively.

The total of 283.03 lakh bales of cotton have been arrived so far till 31st Mar'20 from the starting of the season. According to CAI, a total of 12.5 lakh bales of import shipments is expected to have reached at Indian ports and 31 lakh bales of cotton have been exported so far this season. Consumption by Indian spinning mills from 1st Oct'20 to 31st Mar'20 is estimated to have reached at 154 lakh bales.

Indian cotton prices dropped steeply in March compared to the prices in February month. The global economy breakdown resulted in weak trade across the world including India due to coronavirus. Indian government has lockdown the country for around 25 days starting from 20th March to mid of April'20 as the spread of Covid-19 has increased in the country. The cotton physical markets as well as the exports and imports are on hold as the ports have been closed. Although the supply of essential commodity is allowed in the market but there are no such notice released for cotton industry. The arrivals are delayed in the market and CCI also stopped the procurement so as to avoid gathering of farmers in mandi.

Weather Forecast for tomorrow:

Thunderstorm accompanied lightning, hail & gusty winds (speed reaching 40-50 kmph) West Bengal & Sikkim and Assam & Meghalaya; with lightning, hail & gusty winds (speed reaching 30-40 kmph) very likely at isolated places over Himachal Pradesh, Uttarakhand, Punjab, Haryana, Chandigarh & Delhi, West Uttar Pradesh, Telangana, Uttarakhand, Chhattisgarh and Madhya Pradesh; with lightning & gusty winds (speed reaching 30-40 kmph) at isolated places over Vidarbha, Kerala & Mahe, East Uttar Pradesh and with lightning at isolated places over Bihar, South Interior Karnataka, Jharkhand, Coastal Andhra Pradesh & Yanam and Rayalaseema.

International Fundamentals:

Cotton followed Monday losses with more downward moves on Tuesday, May 20 Cotton closed at 53.31, down 72 points. The 04/20 Cotlook A index was firm at 63.05 c/lb. Monday sales on The Seam were just 1,193 bales at an average gross price of 46.75 cents/lb. ICE certified stocks are 2,553 bales. The AWP for cotton is 44.78 cents/lb.

US textile and apparel total import was down by 11% year on year till Feb'20 while the imports from China were down by 28.7% compared to the previous year during the same period. China's textile and apparel import share percentage in US textile and apparel import market has dropped to 36.9% compared with 46.1% in same period of last year. COVID-19 pandemic outbreak has affected on foreign trade, and the amount and quantity of China's textile and apparel imported by the United States have declined sharply. After the outbreak of coronavirus, the imports demand of US apparel kept falling, both the total imports of US apparel and the import value from China have declined by around 41% till Feb'20.

Weekly cotton export sales were negative again, with a net 183,779 running bales cancelled. China canceled 81,999 RBs in sales; over the last three week's the country has withdrawn 284,013 RB of U.S. cotton bookings. Vietnam and Pakistan

also backed out of some business. Cumulative US cotton commitments are 15.104 million RB, with 2.117 million RB from China. Accumulated exports for the MY are up to 9.426 million RB, which is 21.2% above last year's pace and the highest for the first 37 week's since the 2010-11 marketing year.

The trade remained suspended in Pakistan amid the outbreak of coronavirus and lockdown across the country. Farmers in Pakistan have urged the government to announce support price of the cotton crop for the current season at Rs 5000 per maund on priority basis encouraging the farmers to go for this crop. As many farmers are shifting to grow sugarcane instead of cotton. The business of textile products is affected. The foreign importers, the European and American importers are canceling their orders due to which industry is facing irreparable loss.

US cotton production was reported at 19.8 million bales in Apr'20 forecast same compared to the previous month by USDA. The US cotton consumption is estimated to decline to 2.9 million bales amid the covid-19 effect from 3 million bales estimated in the previous month. After the lockdown, the country is facing problems in exports due to which the exports are also likely to decline to 15 million bales from 16.5 million bales in the earlier month's estimate. World ending stocks of cotton were increased sharply by 7.8 million bales to 91.2 million bales due to lower consumption. The total world exports and imports also decreased by 2.97 million bales and 2.9 million bales respectively to 40.63 million bales of exports and 40.67 million bales of imports.

The US cotton prices slide down further by another 4% within one week as the lockdown further increased till end of April. The retail demand is completely shut down across the country and all the textiles mills have been closed so as to avoid the spread of virus. The cotton acreage in US remained almost unchanged at 13.7 million acres. The acreage is expected to decline from the March intentions in the final acreage numbers. The US Export Sales report from USDA showed 147,500 RB for 2019-2020 in week ending 26th Mar'20 were down by 47% compared to previous week. But the collapse in demand and consumption, additional sales are expected to go down in the coming days.
