

Domestic Fundamentals:**Market Outlook:**

The markets in Haryana, Rajasthan and Madhya Pradesh are closed till first week of May to avoid the spread of coronavirus. The Kapas prices at Rajkot mandi stood at Rs. 4895/q with comparatively lower arrivals from previous day. The price at Adoni market also stood low at Rs. 4550/q with only 120 quintals arrival today.

News: According to the trade sources, the Indian cotton exports for the March'20 were reported much lower around 2.94 lakh bales and around 50,000 bales of organic cotton. The exports were higher around 4 lakh bales in the previous month. In March'20, the shipments were halted due to the outbreak of Covid-19 virus in various countries and trade of 20 days was reported in March month. During the time, Bangladesh was the largest importer of 1.54 lakh bales at an average FOB of \$1.57/kg followed by China importing around 1 lakh bales at an average FOB of \$1.62/kg almost similar quantity was exported in the February month. The other export destinations of India were Indonesia (9,883 bales at 1.29 \$/Kg), Vietnam (6764 bales at \$1.62/kg).

The cotton procurement from different centers is going to start in Telangana from today in number of phases. Farmers will be given tokens giving them the dates to bring their produce to the procurement centers. Purchase will be made at Jainad, Bheempur and Ichoda yards on 29th April, at Talamadugu, Bela and Boath yards on 30th April, at Tamsi, Adilabad and Mavala on 2nd May, at Jainad, Bheempur and Indervelli on 4th May and at Talamadugu, Bela and Jainad yards on 5th May. Farmers in Telangana have purchased cotton seeds on Sunday on the occasion of Akshaya trithiya. The farmers are waiting for the monsoon to occur to start the cultivation as already farmers have prepared the field particularly in Adilabad district.

CCI started the procurement in Punjab, Maharashtra and Gujarat so far last week. CCI procured about more than 25,000 quintals of cotton from the farmers in last 10-12 days. There is no demand from spinning industry, therefore, the ginning mills are facing problem in the storage and movement of ginned cotton bales. CCI has started selling cotton at lower price. At present, the market price is around Rs.36,000/ candy generally who buys one lakh bales from CCI.

The department of agriculture in Punjab is set to surge in the area under cotton cultivation in 2020-21 cotton season. The area under paddy is likely to switch under maize and cotton in the new season, thereby, enhancing the area of cotton from around 4 lakh ha in 2019-20 to cover about 5 lakh ha in the coming cotton season (2020-21) due to the higher returns and relatively higher yields compared to paddy. The state has managed to provide 25 lakh packets of BT cotton seed from the country's reputed seed producing companies. The cotton sowing in Punjab (Bathinda, Mansa, Muktsar, Faridkot, Moga, Fazilka and Firozpur) is expected to start from 1st of May'20 this year that is delayed by around 10-15 days due to the late wheat harvests amid lockdown in the state.

Cotton ginners in Maharashtra are unwilling to resume the operations amid fear of coronavirus in the state. As the number of affected people are increasing day by day in the state and they do not want to take the risk of the pandemic. The ginners are saying that they will resume only after the lockdown is lifted in the state. Also, the labour was a major issue as most workers had left for their homes and will not be able to return in lockdown situation. A single unit requires around 50 workers, who work in a single shift. As cotton is non-perishable commodity, therefore, the growers and ginners can hold on their produce until further notice.

Around 14,000 bales have procured in last 7-10 days from the farmers. Buying has slowed down after March as the peak harvest season is almost over. So far CCI has procured around 84 lakh bales of cotton, where 82% of the cotton purchased of the arrivals in Telangana followed by Maharashtra where 32% of the cotton is purchased out of the total arrivals in the state. And around 50% of the cotton would be purchased by CCI in the 20% of the arrivals that is to arrive in the market, according to CCI. So far, 283 lakh bales of cotton is arrived in the market till March'20 end.

Maharashtra cotton federation recommended the state government to allow the private traders to procure non-FAQ cotton by the farmers that usually enters the market from March month. The Maharashtra federation procures FAQ cotton

and has halted the operations after the lockdown. Maharashtra cotton Federation started the FAQ grade cotton procurement from 27th Nov'19 and till 23rd Mar'20, it procured around 54 lakh quintals in the state. Around 70-80 quintals of non-FAQ cotton and around 25 lakh quintals of FAQ cotton is lying with farmers. The federation is willing to procure remaining FAQ grade cotton with farmers and the procured cotton is yet to be ginned.

Only few Indian cotton ginning mills have started the operations but there is no labour force to conduct the operations because of which the functioning is very slow. There is no inquiries from the yarn industries due to the decline in demand across the country and foreign demand. The mill consumption is likely to decline sharply amid lockdown in the country. Generally, the Indian mills consume around 22-25 lakh bales of the cotton in one month. Now, it seems that this year's ending stock would surge to its all-time high and may reach around 80-100 lakh bales by the end of this cotton season (2019-20) and all the mills were non-operational and were totally shut down since the lockdown started.

As CCI indicated earlier that the procurement would likely to commence in Punjab, now Maharashtra, and Telangana also had issued guidelines to allow procurement operations of Kapas. Around 25% of the cotton is still need to arrive in the mandis and CCI procured about 84 lakh bales of cotton so far this season. The trade in cotton was suspended since the lockdown started as only mandis dealing with essential commodities were functioning. Mandis would take necessary precautions like issuance of hourly passes to farmers to allow limited number of growers coming to the markets. However, the transportation of raw cotton from farm to mandi is an issue due to the labour shortage. Similarly, the ginning and spinning mills are also facing the problems regarding the labour. As all the migrant labours from Uttar Pradesh, Bihar and Jharkhand have left for their home states right at the start of the lockdown. The cotton industry is likely to suffer and would take time to normalize.

The Cotton Corporation of India (CCI) is ready to procure cotton from the farmers at MSP so as to prevent the farmers from the losses. As CCI is facing the issue of overstocking of cotton in the warehouses, therefore, the state authorities have started granting permits to transport ginned cotton in Punjab. The Punjab State Agricultural Marketing Board Authorities have decided to resume the cotton purchases in Mansa district. Only 20 growers to be invited in a day by issuing them the coupons to enter the mandi to sell their produce. The stock would further be purchased by CCI at MSP. Around 5 lakh bales have been purchased in the Mansa district so far and about 2 lakh bales still is left with the farmers to sell. In Punjab, a total of 3 lakh bales of cotton is yet to arrive in the mandis. Similarly, the purchase would commence slowly in Bhatinda, Faridkot, Fazilka and Muktsar districts of Punjab in the coming days.

Weather Forecast for tomorrow:

Thunderstorm accompanied with lightning, hail & gusty winds (speed reaching 30-40 kmph) very likely at isolated places over Jammu & Kashmir, Ladakh, Gilgit-Baltistan, Muzaffarabad, Vidarbha and Chhattisgarh; with lightning & gusty winds (speed reaching 40-50 kmph) at isolated places over Andaman & Nicobar Islands; with lightning & gusty winds (speed reaching 30-40 kmph) at isolated places over East Uttar Pradesh, East Madhya Pradesh, Bihar, Jharkhand, West Bengal & Sikkim, Odisha, Madhya Maharashtra, Coastal Andhra Pradesh & Yanam, Telangana and Kerala & Mahe and with lightning at isolated places over Konkan & Goa, Rayalaseema, Coastal & South Interior Karnataka and Tamilnadu, Puducherry & Karaikal.

International Fundamentals:

Cotton finished the session with gains of 86 to 184 points, with the front months the stronger, May 20 Cotton closed at 58.02, up 184 points. The Cotlook A index was 50 points lower on April 28 to 64.65 c/lb. The Adjusted World Price for cotton is 45.25 cents/lb.

A drop in cotton production is estimated in Egypt to around 39 lakh bales from the 44.8 lakh bales attributing that to the reduction of yields due to the lower quality of seeds and losses due to whitefly infestation this year. Also, the reduced prices in 2019-20 discouraged the cultivation and expecting that this may continue in the coming season. India imports the Egyptian cotton of premium quality and other countries including Pakistan, Bangladesh, Greece, Germany and Italy in

2019-20 MY and expected to remain same in 2020-21. The Egyptian exports are likely to increase by 14% in 2020-21 amid lower prices that would attract the countries to the Egyptian produce.

Market reacted positively with some indication of China going to fulfil phase one deal of US China trade agreement by purchasing American cotton. ICE cotton futures have gained some support after China made an announcement that the country will buy one million bales from the US under the agreement signed two months ago to ease the financial crisis caused by the pandemic boosting its textile industry and improve US relations. The Chinese textile industry has gained momentum and demand for cotton. China still needs 550 to 600 lakh bales this year.

US textile and apparel total import was down by 11% year on year till Feb'20 while the imports from China were down by 28.7% compared to the previous year during the same period. China's textile and apparel import share percentage in US textile and apparel import market has dropped to 36.9% compared with 46.1% in same period of last year. COVID-19 pandemic outbreak has affected on foreign trade, and the amount and quantity of China's textile and apparel imported by the United States have declined sharply. After the outbreak of coronavirus, the imports demand of US apparel kept falling, both the total imports of US apparel and the import value from China have declined by around 41% till Feb'20.

Weekly cotton export sales were negative again, with a net 183,779 running bales cancelled. China canceled 81,999 RBs in sales; over the last three week's the country has withdrawn 284,013 RB of U.S. cotton bookings. Vietnam and Pakistan also backed out of some business. Cumulative US cotton commitments are 15.104 million RB, with 2.117 million RB from China. Accumulated exports for the MY are up to 9.426 million RB, which is 21.2% above last year's pace and the highest for the first 37 week's since the 2010-11 marketing year.
