

Domestic Fundamentals:

Market Outlook:

The kapas prices in Rajkot market stood steady at Rs. 4690/q. In Adoni market of Andhra Pradesh also the prices stood slightly down at Rs. 4308/q with 145 q of arrivals while the MCX spot price stood at Rs.15520/bale. The overall world market is on hopes of a pick-up in economic activity as governments around the world signaled easing of coronavirus-led restrictions.

News: With subdued demand for yarn after the pandemic, India expects the yarn exports to fall by 18-20% in FY 2021, following with 25% decline in FY 2020. Starting from March, cotton yarn remained uncompetitive in global markets during much of the previous year. While the pickup in demand in yarn would be gradual in several months. China consumes 8-10% of India's cotton yarn production, there is a supply glut that is likely to result in an increase in inventory in China due to the lack of demand. Of the total cotton yarn manufactured by India, 70-75% is consumed domestically, while 25-30% is exported to other countries; with China and Bangladesh (accounting for 50%).

The revival of textile industry seems very slow as all the labour force have been headed to their homes. The ginning mills are not working in its full capacity. Only 10% mills in Gujarat and around 20-25% mills in Maharashtra are working during the lockdown for 8-10 hours per day. And ginning mills are facing in the piling inventories due to the shortage of storage spaces and the stock is not being sold in the market due to the lack of demand. As 4th phase of lockdown is going to start after 18th May'20, if the government announces some ease in lockdown then there is possibility that purchasing power increases in the market and thus results in the liquidity of cotton in the industry.

The Cotton Corporation of India (CCI) has announced bulk discount for cotton bales with it from 2018-2019 and 2019-2020 cotton seasons. The discount scheme will be applicable for purchase of cotton pertaining to crop year 2018-19 & 2019-20 for the sales made from 4th May'20 till 31st May'20. The incentive for export could receive another boost as these incentives are implemented. The Cotton Association of India is requesting a 5-10% duty drawback on both yarn and fiber exports. The challenge is to provide incentive for spinners at a time of very uncertain demand. The fall in INR against USD and strength in ICE cotton futures has continued to increase the advantage of Indian cotton exports.

CCI continued buying cotton from the farmers while the demand for cotton remained very low in in the market. The functioning of ginning mills remained halted in many districts across India. Only few mills are working that falls under CCI. The mills are unable to operate with its fill capacity due to lack of availability of labour around 20- 30% mills are working in Maharashtra while only 10% mills are working in Gujarat for around 8-10 hours. While only few mills are working in Adilabad of Telangana after the cotton procurement started in the district last week. Some ginners in Gujarat are able to get the export contracts form Vietnam, Bangladesh and China due to cheaper Indian cotton prices against the international cotton.

The farmers in Vidarbha region are in distress after the isolated rains were reported in the region in the last few days and is expected to continue in the coming days also. The farmers are facing problems in selling the cotton due to the unseasonal rains in the area. The farmers would likely to face difficulty as CCI buys only FAQ grade cotton while the rains are deteriorating the quality of cotton and the moisture content could exceed over 12%. The sowing time for cotton is likely arrive for which farmers need sufficient money to commence the sowing and CCI procurement is very sluggish. Therefore, farmers are forced to sell their produce to local traders and private ginners.

Cotton area in Tamil Nadu is expected to increase but the farmers are uncertain that they will be paid a reasonable price or not in the coming season. One of the reasons, all the textile mills are in financial crisis and all the factories have shut production of yarn came to halt. So, this would definitely affect the raw cotton procurement from the farmers until CCI gives assurance. The cost of production is cheaper while the returns in growing cotton is higher compared to paddy. Total cost would come around Rs. 30,000 per acre, while the return is Rs. 1.5 lakh.

CCI purchased around 7.5 lakh bales this season at MSP so far Gujarat, highest purchases in past 12 years in the state. CCI has supported the farmers in the time of need as the kapas prices are hovering around Rs.4500-4900/q currently in the

state due to less demand in the pandemic situation. Also, the cotton production is expected higher in Gujarat by around 5-7% in 2019-20 season from the previous year to around 90-92 lakh bales according to Agriwatch estimates.

In Maharashtra, CCI has activated around 34 centres across the state in the lockdown for procurement. Also the centres that are under red zone, likely to pick up procurement pace by the 2nd week of May. Before lockdown, CCI procured around 18 lakh bales and in last 15 days during the lockdown, CCI purchased around 6,900 bales. Out of total procurement value of Rs. 4,995 crore, a sum of Rs. 4,987 crore has already reached the farmers. In Maharashtra around 15-17% cotton crop is still with farmers and yet to arrive.

In Punjab, cotton has been sown in about 500 ha so far and it is likely reach to around 1.25 lakh ha by May 20. The state government is supplying ample amount of seeds to farmers without any delay. Due to the delay in wheat harvest this year, the cotton sowing is lagging behind by around 1 week to 10 days. As cotton does not need as much labour as required in paddy, therefore, 7-10% of paddy cultivating farmers are shifting to cotton and the state is expecting to cover the area with cotton to around 5.5 lakh ha this year (2020-21) from 4 lakh ha last year (2019-20). The suitable weather for cotton is prolonged till the end of this month. So a significant rise in area can be noticed by the end of this month this year.

According to the trade sources, the Indian cotton exports for the March'20 were reported much lower around 2.94 lakh bales and around 50,000 bales of organic cotton. The exports were higher around 4 lakh bales in the previous month. In March'20, the shipments were halted due to the outbreak of Covid-19 virus in various countries and trade of 20 days was reported in March month. During the time, Bangladesh was the largest importer of 1.54 lakh bales at an average FOB of \$1.57/kg followed by China importing around 1 lakh bales at an average FOB of \$1.62/kg almost similar quantity was exported in the February month. The other export destinations of India were Indonesia (9,883 bales at 1.29 \$/Kg), Vietnam (6764 bales at \$1.62/kg).

Weather Forecast for tomorrow:

Thunderstorm accompanied with lightning & squall (speed reaching 50-60 kmph) at isolated places over Andaman & Nicobar Islands; with lightning & gusty winds (speed reaching 40-50 kmph) at isolated places over Gangetic West Bengal; with lightning & gusty winds (speed reaching 30-40 kmph) at isolated places over Chhattisgarh, Sub-Himalayan West Bengal & Sikkim, Assam & Meghalaya, Nagaland, Manipur, Mizoram & Tripura, Madhya Maharashtra, Konkan & Goa, Coastal Andhra Pradesh & Yanam, Rayalaseema, Karnataka, Lakshadweep and Kerala & Mahe and with lightning at isolated places over Madhya Pradesh, Vidarbha, Bihar, Jharkhand, Arunachal Pradesh, Marathwada and Tamilnadu, Puducherry & Karaikal.

International Fundamentals:

Cotton was 10 to 48 points, with Mar '21 the strongest, Jul 20 Cotton closed at 57.85, up 39 points. The May 13th Cotlook A index was 66.65c/lb. The new AWP for cotton is 47.36 cents/lb, up 135 points from last weeks.

The world cotton market is suppressed after the rapid spread of Covid-19 has become pandemic. There has been a decline in demand from across the world due to the closure of all non-essential businesses. China has commenced its spinning operations but the recovery rate is not satisfactory enough due to the lack of demand. The forecast for 2019-20 world cotton consumption dropped further by 5% to 104 million bales in May' 20 compared to April'20. USDA increased world consumption by 11 percent for the 2020-21 season to 116.46 million bales. The current forecast of world cotton demand is at 250 million bales, while the world cotton supply is at a relatively high level of 242 million bales. The ICE futures dropped to 55 cents/lbs in first week of May'20 from around 63 cents/lbs in March'20 first week.

US textile and apparel total import was down by 12.6% year on year in Mar'20. Imports from China were impacted as well from the port closures in February and March as the virus stormed through China. US imports from China fell 22.6%, and apparel imports only fell 42.6%. COVID-19 pandemic outbreak has affected on foreign trade, and the amount and quantity of China's textile and apparel imported by the United States have declined sharply. While an improvement in sale

of cotton is seen as China has started buying US cotton in the first week of May'20 that would help gain the cotton prices globally.

Imported cotton yarn arrivals to China in Apr'20 are estimated at 132 kilo tonnes (kt), down 27.07% year on year and 27.47% month on month. The shipments of Vietnamese cotton yarn are estimated at 62.7 kt, followed by Indian cotton yarn at 53.9 kt, Pakistani cotton yarn 23.6 kt, Uzbekistan cotton yarn at 7kt, Indonesian cotton yarn at 4 kt, in April month but not delivered as expected due to the breach of contracts. According to USDA, the total Demand decline to 34 million bales in May estimates compared to 35 mln bales in April estimates. Due to the reduced domestic as well as international demand, China is troubled facing dealing with huge inventory in the warehouses. Increase in the stock reserves China likely to end the year with higher ending stock at 36.25 million bales in 2019-20 MY.

The US Export Sales report from USDA showed 370,300 RB for 2019-2020 in week ending 30th Apr'20 were down by 15% compared to previous week. Increases primarily for China 217,500 RB, Vietnam 102,600 RB, Taiwan 18,300 RB, Bangladesh 10,900 RB, Turkey 10,300 RB and offset by reductions primarily from Mexico 7,000 RB, El Salvador 3,200 RB, Pakistan 2,800 RB. For 2020-2021, net upland sales of 55,900 RB were primarily for China 22,000 RB, Vietnam 11,400 RB, Turkey 6,600 RB, Mexico 5,000 RB. Net Upland Shipment for Exports of 370,300 RB were primarily to Vietnam 125,100 RB, China 56,500 RB, Turkey 51,500 RB, Pakistan 32,200 RB, Taiwan 23,700 RB.

According to USDA, the total Demand decline to 35 million bales in April estimates compared to 36.5 mln bales in March estimates. While the imports also has been hit badly that declined to 7.5 mln bales in April estimate from 8.25 mln bales in March'20. Due to the the reduced domestic as well as international demand, China is troubled facing dealing with huge inventory in the warehouses. Despite the stock reserves China likely to end the year with lower ending stock at 35.24 million bales due to lower imports and lower crop in 2019-20 from 35.67 mln bales in 2018-20.
