

Domestic Fundamentals:**Market Outlook:**

The Gujarat cotton price was firm at Rs.4790/q, up by Rs.140/q. In Adoni market of Andhra Pradesh, the price were weaker at Rs. 4408/q, with lower arrivals of 155q while the MCX cotton stood firm at Rs.15850/bale on Thursday. ICE cotton futures gained on Wednesday as a dry spell in the biggest cotton growing U.S. state, Texas.

News: *The cotton demand from the spinning mills has been hit due to Covid-19 lockdown.* Although the mills have started functioning, there would be gradual improvement in the demand in the coming months. CCI has offered bulk discounts to encourage cotton sales during June month and also reduced the base prices. CCI is offering around 8 lakh bales (2019-20 crop) cotton per day for sale. So far, about 60,000 bales have been sold under the bulk discount scheme. According to the market sources, the ginner are having enough stock with them, therefore, the sale is slow and the ginner are not participating the CCI auctions.

According to the sources, around 91.67 lakh ha area has been sown under cotton till 2nd July'20 for 2020-21 marketing year, up by around 100% during the same period of time last year. In Punjab and Haryana, sowing has been completed with an increase of around 25% and 10% in both the states, respectively compared to the previous year during the same time. In Rajasthan, the area has increased by 80% to 6.27 lakh ha so far. In Gujarat and Maharashtra, with the help of good rainfall the acreage increased to 15.71 lakh ha and 33.079 lakh ha. The sowing under cotton in Telangana and AP reached around 15.39 lakh ha and 0.90 lakh ha, respectively.

Imports and exports of goods through trucks have resumed at West Bengal-Bangladesh land border after traders started agitating at the border since 1st July'20. As the trade (No exports from Bangladesh to India) was stopped since March following fears of the spread of Covid.

Bangladesh is the largest importer of Indian cotton, so the Indian cotton exporters are largely dependent on this neighboring country. But recently the traders from Bangladesh started agitation demanding that India should allow imports from them. The agitators blocked the entry of Indian trucks for several hours, claimed that the border will remain sealed until India allows import of their goods. This has led to the halt in Indian raw cotton and yarn exports since last 2-3 days. After 7th June'20, India resumed the trade between the two countries but does not allowed to import Bangladeshi goods amid maintaining the safety measures during this pandemic. Indian cotton industry would be facing with much higher ending by the end of this year, if the situation doesn't normalize.

The cotton market during June had few obstacles with arrivals in the domestic market ranged between 55,000 bales and 70,000 bales per day. CCI stopped purchasing cotton from the farmers during the last week of June but assured the farmers to continue procurement till September end. CCI recently reduced the base price of auctioned cotton, along with revising the bulk discount scheme for buyers. The country is still facing the weaker demand in the textile industry with higher levels of unsold stocks with the mills, limited government support, operational issues faced by mills (limited staff and labor etc.), and lockdown measures imposed by state governments.

CCI increased the Bulk discount on larger purchases of cotton to attract buyers. Also, increased the number of days for lifting cotton from the centre, with the effect from 1st July'20 till 31st July'20. Today CCI offered to sell 2018-19 old stock 3.82 Lakh Bales & 2019-20 Crop 8.143 Lakh Bales.

Maharashtra is likely to have produced around 80 lakh bales of cotton lint in 2019-20 season. Both CCI (198 lakh q) and Maharashtra Cotton Federation (200 lakh q) together had procured around 398 lakh quintals of kapas from the farmers so far till end of June. Around 10-11 lakh quintals of kapas is still left with farmers which is likely to be purchased by the federation and CCI in the coming days. CCI was operating 84 procurement centres and 181 processing units, increased it to 85 and 231 respectively in the period of lockdown.

The areas such as Fazilka, Muktsar, and Bhatinda, the main cotton growing belts share the boundary with Rajasthan, therefore, they are vulnerable to locusts attack. The swarms of locusts were reported to enter in the area about 200 km far from the cotton belt in last week. The sowing in these areas is almost completed and the attack of locusts at this point of time can affect the crop. Although, the area under cotton in Punjab has been increased significantly this year (up by 25%) the abrupt invasion of locusts can affect the yield of cotton. So far no damage in Punjab has reported and if the wind direction does not change, they may hit Uttar Pradesh soon.

The locusts travelling from Pakistan and Rajasthan invaded in around 36 villages in Mahendergarh, Haryana last Saturday. Only one or two villages were affected where the locusts were settled on the standing crops. Cotton in these regions are in vegetative phase and no major damage has been reported so far. The insects just passed through the remaining villages without causing any damage. The nearby areas are also on high alert taking necessary precautions by spraying pesticides.

According to the sources, around 71.69 lakh ha area has been sown under cotton till 26th June'20 for 2020-21 marketing year, up by around 70% during the same period of time last year. In Punjab, around 25% increase in area is seen to 5.01 lakh ha followed by Haryana, up by 9% to 7.37 lakh ha compared to the previous year during the same time. In Rajasthan, the increase was witnessed from 3.45 lakh ha to 5.88 lakh ha in 2020-21 compared to the previous year. In Gujarat, the sowing has started during the 2nd week of June and around 11.67 lakh ha is sown. The sowing also started in Telangana and AP covering the area around 10.68 lakh ha and 0.45lakh ha, respectively.

According to the trade sources, the Indian cotton exports for the May'20 were reported slightly higher around 2.5 lakh bales including organic cotton compared to the prior month. In May'20, most of the shipments that were halted were now resumed. Indian cotton being the cheapest in the international, increased the exports during May and likely to increase in June and July as well. Bangladesh was the largest importer of Indian cotton purchasing around 81,000 bales at an average FOB of \$1.5/kg followed by China (65,680 bales at \$1.36/kg), Vietnam (20,000 bales at \$1.3/kg) and Turkey (11,000 bales at \$1.3/kg). The other export destinations of India were Indonesia, Oman, Italy and Japan.

Weather Forecast for tomorrow:

Heavy to very heavy rainfall at a few places with extremely heavy falls at isolated places likely over Sub-Himalayan West Bengal & Sikkim; Heavy to very heavy rainfall with extremely heavy falls at isolated places likely over Arunachal Pradesh and Assam & Meghalaya; Heavy to very heavy rainfall at isolated places over Uttarakhand, East Uttar Pradesh and Bihar and heavy rainfall at isolated places over Himachal Pradesh, Punjab, Haryana, Chandigarh & Delhi, West Uttar Pradesh, Gangetic West Bengal, Odisha, Nagaland, Manipur, Mizoram & Tripura, Konkan & Goa, Coastal & South Interior Karnataka, Tamilnadu, Puducherry & Karaikal and Kerala & Mahe.

International Fundamentals:

Cotton futures traded higher on Wednesday, Oct 20 Cotton closed at 64.57, up 83 points. The July 7 Cotlook A index was another 75 points lower to 69.70 c/lb. The AWP for cotton is 50.13 cents/lb.

In the Crop Progress report released by USDA, showed 47% planted U.S. cotton was in good condition in the week ending on 5th July'20, little changed from last week. Cotton was 47% squared, which is 1% point lagging of the 5-yr average and increased from 34% in the prior week, up by 8% points.

China sold 8,042 tonnes of cotton, 100% of total offer, at auction of state reserves on Monday. The Average price of the cotton sold was 11,533 yuan per tonne (Rs. 43750/Candy), according to China Cotton Association. The industry has also set floor price of cotton auction at 11,895 yuan per tonne for the week starting 6th July'20.

The China's cotton sales auction has been started since 1st of July'20 that will continue till September end, with the total quantity of about 5 lakh tons. The base selling price will be related with international cotton prices regularly. The state

cotton reserves policy may be implemented according to the actual state cotton auction and market supply and demand. The monthly auction volumes are about 30% of cotton consumption in April or May that was affected by the COVID-19 pandemic.

CONAB expected crop might be up to 13.5 million bales in 2020-21 but in the recent estimates it is reduced to 13.26 million bales. Cotton consumption was reduced by 10,000 tons to 2.94 million bales, Ending stocks were raised to 9.09 million bales, up sharply from last season. The average yield was estimated at a record 1,727 kg per ha. The country's new crop has started to arrive in the market since 2nd week of June. May export shipments reached 3 lakh bales, with Turkey the largest destination at 78,000 bales followed by Vietnam at 71,000 bales. Brazilian cotton has become very popular in both countries due to the cheaper rates. According ICAC, Brazil is expected to export over 8.64 million bales globally and through April, has exported an estimated 2.52 million bales to China, a 30% increase from the previous period.

In the Crop Progress report released by USDA, cotton was planted under 12.2 million acres, down by 11% from 2019 cotton acreage. While the acreage is down compared to that USDA projected a total of 13.7 million cotton acres for 2020 in March'20. New crop cotton was 35% squared, which is 1% point lagging of the 5-yr average and increased from 27% in the prior week, up by 8% points. Cotton condition was 35% in good condition and was down by 10 points compared to the previous year during the same time.

The weekly export sales reported by USDA, which showed net sales of 97,600 running bales (RB) for 2019-2020 were down 76% from the previous week and 31% from the prior 4-week average. However, exports of 348,300 RB were up 18% from the previous week and 32% from the prior 4-week average. Exports were primarily to China, at 123,500 RB, Vietnam at 89,900 RB, Turkey at 49,900 RB, Pakistan at 24,000 RB, and Bangladesh at 13,300 RB. U.S. Export Sales was better than expected. China and Vietnam were main buyers. Shipments were well above the average needed to hit the USDA's export target.
