

Domestic Fundamentals:**Market Outlook:**

The Gujarat cotton physical market showed mixed trends at various trading centers today in the market. MCX cotton October contract stood higher at Rs.19700/bale on Friday. ICE cotton futures closed in green on Thursday.

News: Cotton Corporation of India (CCI) procurement under MSP have been increased gradually in North India (Punjab, Haryana, and Rajasthan). According to the sources, CCI procured a total of 2.36 lakh bales of cotton till 20th October 2020.

The crop in Khammam district of Telangana has been adversely affected with the recent rains that resulted in high moisture content in the produce brought by the farmers in the procurement centres. Even there are issues with the colour of the cotton not meeting the standards of CCI procurement. Therefore, the farmers are forced to sell their produce to the private traders below MSP. Some farmers brought the cotton that was kept in cold storage last year and are selling it at Rs 4,825 per quintal. The farmers claims that they can get MSP price if the moisture content is reduced if the mandi officials could provide a space for drying cotton.

Telangana state Agriculture Minister said that the government will issue tokens to the farmers for purchase of cotton to prevent crowd near the procurement centres. CCI has established the procurement centres at 300 ginning mills and 9 market yards across the state.

The heavy rainfall since last two days in Telangana, crop damage is expected in some regions in Warangal and Adilabad region. And the main cotton growing regions; Guntur, Krishna and Prakasam districts in Andhra Pradesh likely to have affected with heavy rainfall and expects a damage in the quality of cotton and resulting in the yield loss. As this year, the farmers were expecting higher yield as there were no pink bollworm infestation. However, after 17th October, rains will be reducing and clear weather is expected in Southern regions of India with scattered rains only.

According to Cotton Association of India (CAI), the cotton production in 2019-20 is expected to have reached 360 lakh bales up from 354.5 lakh bales as estimated earlier and declined imports by 50,000 bales to 15.5 lakh bales from the previous estimates. The exports and consumption figures remained unchanged at 50 lakh bales and 250 lakh bales, respectively. Till 6th October'20, 3.12 lakh bales of new crop of raw cotton had arrived in the market. Out of which, CCI could procure 2,311 bales in Haryana, Punjab and Rajasthan as against zero procurement in the corresponding period of last year.

The cotton textile ministry assures that Kasturi, the first national brand of Indian cotton can get at least 5% premium prices. Kasturi brand represents Whiteness, Brightness, Softness, Purity, and Luster. This premium cotton would be suitable for trade in the world cotton market.
