The exporters and traders are offering better price for cotton in the open market. Cotton price in the open market have jumped to Rs 5,250 per quintal from Rs 4,500 per quintal. The major cotton growing areas in Gujarat such as Amreli, Rajkot, Bhavnagar, Morbi, Jamnagar and surendarnagr has reported pink bollworm infestation, according to the official estimates up to 15 percent drop in the crop yield may occur in cotton crop in Gujarat. Some farmers are now switching to other Rabi season crops and are not going for third round of picking in cotton from their fields.

Cotton price has decreased as arrivals begun to increase in the market. The daily arrival has increased to about 2.5 lakh bales resulting into decrease in cotton prices by Rs 200 per candy. Cotton corporation of India has procured around 32.85 lakh bales of cotton till date, CCI has also been procuring good quantity of cotton from the market this year.

Cotton export are likely to jump 40% in 2020-21 to 7 million bales, the highest in seven years, as depreciation of the rupee and a rally in global prices have allowed exporters to clinch contracts. India has exported around 50 lakh bales in the previous season. Yarn exports however are declining, as India faces duty challenges in export market. Countries like Pakistan and Bangladesh levy higher rates of duty on Indian yarn, while they enjoy duty free or concessional duty access in India. India is lagging in cotton export to major markets due to duty disadvantage.
