

Domestic Fundamentals:**Market Outlook:**

The cotton physical market showed mixed trend today due to the commencement of CCI procurement on large scale. MCX cotton spot price stood higher at Rs.20, 200 /bale on Wednesday. ICE cotton futures closed green on Tuesday.

News: Telangana government urges CCI to lift restrictions on cotton procurement. *The state government has urged Cotton Corporation of India to not to impose a limit on the procurement of cotton stocks as it might create fear among the farmers of not getting the minimum support price (MSP). Earlier CCI has set a limit to procure 15,000 bales in the Warangal- Mahbubnagar region and 10,000 bales in Adilabad region in the ongoing procurement season.*

Cotton Corporation of India has requested farmers to bring cotton crop in phased manner. *As, CCI has faced anger of farmers over daily ceiling for cotton procurement earlier. CCI has now assured farmers that they will continue the procurement process for cotton and have requested them to bring their crop in a phased manner as per the advice of the respective APMCs.*

Maharashtra to terminate the cotton crop by December. *The krishi vigyan Kendra and agriculture universities have recommended farmers to terminate their cotton crop by December, in order to break the Pink bollworm (lifecycle) infestation, as the cotton season in Maharashtra is about to end and this year too continual attack of pink bollworm was seen in the crop.*

Cotton procurement reaches 67 lakh bales. *The cotton season of 2020-21 is likely to end by march 2021 due to heavy arrivals in the market. Cotton Corporation of India has procured around 67 lakh bales till 28th December 2020 at a cost of Rs. 19,048.87 crore. This is almost double of the amount of cotton procured in the year ago period. The pace of arrival is very fast maybe because of Covid fears and another lockdown, Farmers fear that the prices may not rise further. Current price for cotton is Rs. 6000 per quintal which is more than the MSP of Rs. 5825 per quintal.*

Cotton growers await compensation for losses. *Whitefly has caused losses to cotton crop in Hisar, Fatehabad, Sirsa and Bhiwani districts. The farmers might have suffered biggest ever losses since 2015 when whitefly had destroyed almost 70 percent of the crop in the region. Farmers who suffered losses to their cotton crop due to whitefly attack earlier this year are still waiting for compensation from the government and insurance agencies.*

Corporation of India fails to buy produce. *Cotton farmers in Hyderabad are facing hardship as the cotton corporation of India (CCI) is not purchasing the produce. With this, they are forced to sell their produce to private traders at rates much below Minimum Support Price (MSP) of Rs. 5,300 to Rs. 5,600. Small and marginal farmers are selling cotton to private traders as they pay immediately, but those who cultivate cotton in large fields are worried as selling at lower rates would cause them a huge loss. Private traders are offering Rs. 3,000 to Rs. 4,600 per quintal based on quality of cotton as against 5,000 to 6,000 last year.*

Cotton procurement hits Rs. 14,654 crore in about two months. *The center has procured cotton worth Rs. 14,654 crore in the first two months of the current marketing year that started on October 1, which has benefited around 9.63 lakh farmers. Cotton procurement had stood at a record Rs. 28,500 crore in the last marketing year (2019-20), recording a leap from just Rs 90 crore in 2013-2014.*

SIMA to develop various cotton seeds. *The cotton Development and Research Association (CD & RA) of Southern India mill's Association (SIMA) is gearing itself up to develop various cotton seeds. The aim of developing the seeds is to*

mitigate the challenges of BT Cotton, herbicides, water scarcity, high density, environment protection and water conservation. The Cotton Corporation of India and SIMA - CD & RA have already conducted the extra long staple cotton trials in the states of Rajasthan, Madhya Pradesh, Maharashtra and Tamil Nadu.
