### Market Outlook:

The cotton physical market showed mixed trend today due to the commencement of CCI procurement on large scale. MCX cotton spot price stood higher at Rs.20, 680 /bale on Tuesday.ICE cotton futures closed green on Monday.

**News:** India's cotton production seen at 29.3 million bales. According to the USDA post estimates, cotton production at 29.3 million bales in marketing year 2020/21 at an area of 13.3 million hectares is estimated. Cotton prices have improved due to strong export demand for raw cotton and cotton yarn. Farmers continue to deliver their crop to the government's procurement scheme under minimum support price (MSP) as prevailing seed cotton market price remained below MSP levels. Mills consumption has improved steadily but remains constrained at 23 million bales due to subdued demand in the domestic market.

Lack of procurement center hits cotton farmers in Andhra Pradesh. Cotton farmers of Anantpur, who suffered due to vagaries of nature earlier, are now suffering due to lack of procurement center in the district. The district has two cotton procurement centers in gooty and Tadipatri, while Rythu bharosa kendras are limited to registering the names of cotton growers, only after registering the names and getting an alert on their mobile phones, farmers can go to procurement centre for sale of the cotton. As this process takes 2-3 days, farmers have started selling cotton to middlemen at lesser prices, while CCI is offering Rs.5,825/q for high quality, Rs. 5,725/q for medium quality and Rs. 5,615/q for low grade quality cotton.

**Cotton procurement reaches at 75, 03,914 cotton bales.** Procurement operations of seed cotton under Minimum support price are going smoothly in the states of Punjab, Haryana, Rajasthan, Madhya Pradesh, Maharashtra, Gujarat, Telangana, Andhra Pradesh, Odisha and Karnataka. Around 75, 03,914 cotton bales has been procured so far valuing Rs. 21,989.94 crore, benefiting 14,69,704 farmers.

**Cotton procurement center has been started in Nandgaon.** Cotton registration has been done for 773 farmers in Nandgaon. With the opening of cotton procurement center in Nandgaon farmers have started bringing cotton for sale; around 123 farmers had bought their crop initially. Earlier farmers were facing difficulty to take their cotton crop to Amravati for sale but now with the new procurement centre farmers can easily sell their crop.

**Telangana government urges CCI to lift restrictions on cotton procurement.** The state government has urged Cotton Corporation of India to not to impose a limit on the procurement of cotton stocks as it might create fear among the farmers of not getting the minimum support price (MSP). Earlier CCI has set a limit to procure 15,000 bales in the Warangal- Mahbubnagar region and 10,000 bales in Adilabad region in the ongoing procurement season.

**Cotton Corporation of India has requested farmers to bring cotton crop in phased manner.** CCI has faced anger of farmers over daily ceiling for cotton procurement earlier. CCI has now assured farmers that they will continue the procurement process for cotton and have requested them to bring their crop in a phased manner as per the advice of the respective APMCs.

*Maharashtra to terminate the cotton crop by December.* The krishi vighyan Kendra and agriculture universities have recommended farmers to terminate their cotton crop by December, in order to break the Pink bollworm (lifecycle) infestation, as the cotton season in Maharashtra is about to end and this year too continual attack of pink bollworm was seen in the crop.

### Cotton-Daily-Fundamental-Report 06<sup>th</sup> Jan, 2021

**Cotton procurement reaches 67 lakh bales.** The cotton season of 2020-21 is likely to end by march 2021 due to heavy arrivals in the market. Cotton Corporation of India has procured around 67 lakh bales till 28<sup>th</sup> December 2020 at a cost of Rs. 19,048.87 crore. This is almost double of the amount of cotton procured in the year ago period. The pace of arrival is very fast maybe because of Covid fears and another lockdown, Farmers fear that the prices may not rise further. Current price for cotton is Rs. 6000 per quintal which is more than the MSP of Rs. 5825 per quintal.

**Cotton growers await compensation for losses.** Whitefly has caused losses to cotton crop in Hisar, Fatehabad ,sirsa and bhiwani districts. The farmers might have suffered biggest ever losses since 2015 when whitefly had destroyed almost 70 percent of the crop in the region. Farmers who suffered losses to their cotton crop due to whitefly attack earlier this year are still waiting for compensation from the government and insurance agencies.

**Corporation of India fails to buy produce.** Cotton farmers in Hyderabad are facing hardship as the cotton corporation of India (CCI) is not purchasing the produce. With this, they are forced to sell their produce to private traders at rates much below Minimum Support Price (MSP) of Rs. 5,300 to Rs. 5,600. Small and marginal farmers are selling cotton to private traders as they pay immediately, but those who cultivate cotton in large fields are worried as selling at lower rates would cause them a huge loss. Private traders are offering Rs. 3,000 to Rs. 4,600 per quintal based on quality of cotton as against 5,000 to 6,000 last year.
