According to Cotton Corporation of India, a record purchase of around 26.5 lakh quintals of cotton (2020-21) has been made in Punjab till the first week of January 21 as against the 7.5 lakh quintals procured during the previous season (2019-20) around the same time.

**India's cotton production seen at 29.3 million bales.** According to the USDA post estimates, cotton production at 29.3 million bales in marketing year 2020/21 at an area of 13.3 million hectares is estimated. Mills consumption has improved steadily but remains constrained at 23 million bales due to subdued demand in the domestic market.

**Lack of procurement center hits cotton farmers in Andhra Pradesh.** Cotton farmers of Anantpur, who suffered due to vagaries of nature earlier, are now suffering due to lack of procurement center in the district. The district has two cotton procurement centers in gooty and Tadipatri, while Rythu bharosa kendras are limited to registering the names of cotton growers, only after registering the names and getting an alert on their mobile phones, farmers can go to procurement centre for sale of the cotton. As this process takes 2-3 days, farmers have started selling cotton to middlemen at lesser prices, while CCI is offering Rs.5,825/q for high quality, Rs. 5,725/q for medium quality and Rs. 5,615/q for low grade quality cotton.

**Telangana government urges CCI to lift restrictions on cotton procurement.** The state government has urged Cotton Corporation of India to not to impose a limit on the procurement of cotton stocks as it might create fear among the

farmers of not getting the minimum support price (MSP). Earlier CCI has set a limit to procure 15,000 bales in the Warangal- Mahbubnagar region and 10,000 bales in Adilabad region in the ongoing procurement season.

**Cotton Corporation of India has requested farmers to bring cotton crop in phased manner.** CCI has faced anger of farmers over daily ceiling for cotton procurement earlier. **Cotton procurement reaches 67 lakh bales.** The cotton season of 2020-21 is likely to end by march 2021 due to heavy arrivals in the market.
