

**Domestic Fundamentals:****Market Outlook:**

*The cotton physical market showed mixed trend today due to the commencement of CCI procurement on large scale. MCX cotton spot price was higher at Rs.20, 880 /bale Tuesday. ICE cotton futures closed red on Monday.*

**News: Import duty imposed on Cotton to support farmers.** *The government has imposed 10 percent import duty on cotton in India to support the farmers, earlier there was no import duty on cotton. The tax comprises a basic customs duty of 5 percent and an additional 5 percent levy to finance the development of agricultural infrastructure in the country, the levy on overseas purchases will potentially support the local prices amid higher domestic production and prevent distress sales by the growers.*

**Cotton prices increases in Guntur market.** *In the open market the cotton is being sold at prices ranging between Rs. 5,600- Rs. 6,000 per quintal due to increasing demand caused by the reduced production, as a result prices are expected to increase in the market in the coming weeks. The cotton Corporation of India has fixed Rs. 5,825 per quintal for quality cotton earlier. As the demand is increasing the traders are offering better price than the CCI and are purchasing cotton from farmers.*

**CCI Procurement has reached at 88, 43,847 cotton bales.** *Procurement operations of seed cotton under MSP are going smoothly in 10 states and till 26<sup>th</sup> Jan'21 around 88,43,847 cotton bales have been procured valuing Rs. 25,826.59 crore and by benefitting around 18,13,359 farmers.*

**Cotton Corporation of India introduces lock - in period for prices.** *CCI has permitted those who buy cotton from it through e-auctions, to lock in the cotton prices. CCI has introduced this facility to ensure price security especially for textile mills.*

**CCI is planning to export 10 lakh bales of cotton.** *CCI has procured around 85 lakh bales of cotton so far at minimum support price since the beginning of the current season 2020-21, but with the rising prices of cotton CCI has now reduced the purchase of cotton at MSP and is planning to export at least 10 lakh bales of cotton during the current season.*

**Maharashtra government offers guarantee to Rs. 1500 crore loan by cotton growers marketing federation.** *The government has decided to stand 1500 crore loan, which will be raised by Maharashtra state co-operative cotton growers marketing federation Ltd for paying minimum support price to the cotton growing farmers, the interest rate by the bank is decided to be 6.35 percent.*

**CCI procurement reduces as prices goes up.** *Cotton procurement under minimum support price has reduced with prices going up. Cotton arrivals are staggered with around 210 lakh bales which have already arrived into the market with another 140-150 lakh bales remaining with farmers. CCI has procured around 85 lakh bales till now and will continue procuring cotton from farmers. The raw cotton prices have reached around Rs. 6000 per quintal in last week.*

**Private traders are offering higher prices than MSP for cotton in Punjab.** *Punjab cotton growers are now being offered prices far higher than minimum support price of Rs. 5,515 for the current season 2020-21, the private traders are buying cotton at Rs. 5,900 per quintal. Private traders are offering higher prices as the CCI has procured over 50 percent of the crop estimated that is to be produced in this season, cotton prices have increased to Rs. 43,500 from Rs. 41,000 a candy in few states including north India. So, the private ginners are buying cotton from the farmers as they find parity. Also, the prices are ruling high despite the country having a record carryover stock of about 120 lakh bales this season as cotton yarn prices have surged over 50 percent since June last year.*

**CAI increases its crop estimates for 2020-21.** Cotton Association of India has increased its crop estimate by 2.50 lakh bales for the 2020-21 seasons to 358.50 lakh bales due to more carry over stock. The total cotton production for the previous season 2019-20 stood around 360 lakh bales. The Total cotton supply estimated by the CAI during October to December 2020 is 327.35 lakh bales, which comprises arrivals of 197.85 lakh bales, imports estimated at 4.50 lakh bales, and opening stock of 125 lakh bales as on October 1, 2020. The CAI has revised its crop estimate and the total cotton supply till end of the cotton season 2020-21 is at 497.50 lakh bales, this consist of the revised opening stock at 358.50 lakh bales and imports at 14 lakh bales

### Weather Forecast:

Dense Fog in isolated pockets over East Uttar Pradesh, Assam & Meghalaya and Nagaland, Manipur, Mizoram & Tripura. Cold wave condition in some pockets very likely over Odissa; Thunderstorm accompanied with lightning & hail at isolated places over Punjab and Haryana, Chandigarh & Delhi.

### International Fundamentals:

The ICE cotton Futures was down by 61 points at 80.03 cents/lb. The Cotlook A index was lower by 95 points at 86.60 cents/lb. The AWP for cotton is 67.59 cents/lb.

**According to the USDA estimates, India's cotton production for MY 2020-21 is estimated at 29.3 million bales** from acreage of 13.3 million hectares. Cotton prices have improved due to strong export demand for raw cotton and cotton yarn. Farmers continue to deliver their crop to the government's procurement scheme under minimum support price (MSP) as prevailing seed cotton market price remained below MSP levels. Mills consumption has improved steadily but remains constrained at 23 million bales due to subdued demand in the domestic market.

**Cotton prices fall in India.** With the new strain of the novel corona virus that emerged in the UK spooking markets, cotton prices have fallen by Rs 600-700 per candy over the past two days between 22-23<sup>rd</sup> December 2020, the price for Shankar -6 cotton variety fell from Rs 42,200-42,900 per candy (356 kg) to Rs 41, 400-42,200. Prices have fallen as the new corona virus strain in UK has increased apprehensions about the cotton export.

**Cotton production decreases in Pakistan.** The cotton production in the country has declined to about 2.8 million bales, According to Pakistan cotton ginners association more than 5 million bales were produced in the country which is 35.67 percent less as compared to more than 7 million bales produced till December 15 last year.

**According to USDA latest report, the 2020-21 November forecast** shows higher use with lower production and ending stock. Sharply lower production in Pakistan, India and Australia is partially offset by an increase in Turkmenistan. Consumption is raised in India, China and Pakistan and lowered in Thailand. Global trade is up slightly led by Bangladesh and Thailand.
