

Domestic Fundamentals:**Market Outlook:**

The cotton physical market showed a firm trend today as CCI procurement has slowed down and major markets are closed due to lockdown restrictions. MCX cotton spot price was up at Rs.24,390/bale on Wednesday. ICE cotton futures closed green on Tuesday.

News: Government has raised Minimum Support Price for the 2021-22 seasons. The government has increased minimum support price of cotton by Rs. 211 per quintal to Rs. 5,726 for medium staple variety and by Rs. 200 per quintal to Rs. 6,025 for long staple variety of cotton for the 2021-22 crop year.

Cotton cultivation area has increased in Muktsar. According to the State Agriculture Department, area under cotton cultivation has increased in Muktsar from nearly 28,000 hectares last year to 40,000 hectare in this season. The main reason behind the increase in the area is Minimum Support Price on cotton and direct purchase of cotton by Cotton Corporation of India.

Telangana government has set the target of cultivating cotton in over 75 lakh acres. The Telangana Agriculture Department has set a target of cultivating the cotton crop in 75 lakh acres during Vaanakalam (Kharif) season. As per government, it is decided to extend complete cooperation to cotton farmers and promote the crop cultivation on a massive scale, besides bringing the cotton solvent policy to encourage ginning mills in the state. Cotton Corporation of India has already recognized the telagana cotton as a top quality in the country as well as in the International market. Earlier Telangana has cultivated cotton in over 60 lakh acres during Yasangi (Rabi) season this year.

Spurious cotton seeds have arrived in old Adilabad district as the Kharif season is drawing to a close. According to the market sources, Adilabad Police have seized spurious seeds at various places during the raids on shop. Also the illegal transportation of spurious seeds is on the rise in interior villages despite the police and agriculture department trying their best to control the menace.

According to the Punjab Agriculture Department, cotton sowing is delaying in many districts in Punjab. According to the data released by the state agriculture department the target for cotton sowing was around 3.25 lakh hectares for 2021-22 seasons. Despite the delay in cotton sowing the area under cotton sown has increased and till 02nd June'21, in Bhatinda cotton has been sown on an area of around 1.04 lakh hectares and in Muktsar around 39,676 hectares area. These two districts are close to the target of cotton sowing for 2020-21 season where else in other six districts the cotton sowing is stretching beyond the ideal time.

Cotton sowing may get delayed in India. Cotton sowing may get delayed in India as the southwest monsoon is set to reach the mainland two days later than usual. Cotton Corporation of India has increased prices by Rs. 200-500 per candy across all the zones for 2020-21 seasons. Although the cotton crop is at risk due to water shortage mainly in sindh and Punjab. Also, the increasing trend in the rate of cotton was continuing in the international market.

According to the International Advisory Cotton Committee June report, global production has been reduced to 24.3 million tonnes. Production estimates for Brazil have been lowered since the starting of the season to 2.5 million tonnes. For India, as per the Committee on Cotton Production and Consumption, Cotton production for India is estimated at 6.12 million tonnes. With the second wave of corona virus currently affecting the country the mill use has been revised down to 5.15 million tonnes. Imports are also expected to decrease to 187,000 tonnes. Also, with the reduced supply and growth in exports, stocks in India are expected to decrease with the stock to use ratio falling to 0.54.

Cotton sowing is expected to be normal in the coming season. The cotton sowing is expected to reach at 130 lakh hectares in the current kharif season as good cotton prices were found throughout the year, with the monsoon also being normal cotton production is expected to increase. In the previous weeks TAUKEA storms caused rains in many states

which are beneficial for kharif crops, Punjab and Haryana cotton crops will get the benefit from these rains as cotton sowing is progressing in these states.

Weather Forecast:

Thunderstorm with lightning & gusty winds is very likely at isolated places over Andaman & Nicobar Islands with lightening and & gusty winds at isolated places over Uttar Pradesh, East Madhya Pradesh, Vidarbha, Chhattisgarh, Telangana, Kerala & Mahe and with lightening at isolated places over West Madhya Pradesh, Bihar and, Jharkhand, West Bengal & Sikkim, Assam & Meghalaya and Coastal Andhra Pradesh & Yanam and Coastal & South Interior Karnataka. International Fundamentals:

The ICE cotton Futures was up by 78 points at 85.14 cents/lb. The Cotlook A index was 130 points high at 93.50 cents/lb. The AWP for cotton was at 69.78 cents/lb.

Textile sector in turkey seeks global cooperation to boost production. As the global economy recovers from the pandemic, the Turkish textile sector wants to start a new era of collaboration with international companies and brands to exceed its \$ 100 billion production capacity. Turkey is the world's fifth largest supplier of textile, expects to export approximately \$12 billion worth of textile in 2021.

Myanmar is diverting export orders to Bangladesh. Myanmar's deepening political crisis and India's grave coronavirus situation are prompting international retailers and brands to divert work orders to Bangladesh as due to stability in the coronavirus situation; Bangladesh is witnessing a relatively calm situation than many other countries in the region.

Zimbabwe cotton marketing season has started amid high expectation from farmers of early payments from the crop upon delivery at the 773 buying points countrywide. Farmers are ready to deliver cotton bales at the buying points while the cotton-picking is also progressing.

In the latest report released by USDA in May'2021, for the 2020-21 season, global production and consumption have slightly changed from April month. Imports were projected higher in Vietnam(6%), China(13%), and Bangladesh(1%) and more than offset slower demand from Malaysia and Taiwan whereas exports were higher in the U.S(10%) and Brazil(16%). Global ending stock was projected down by 2 percent as larger exports in the United States and Brazil lower their stock and more than offset higher levels in China.
