

Domestic Fundamentals:**Market Outlook:**

The cotton physical market showed a firm trend today as CCI procurement has slowed down and major markets are closed due to lockdown restrictions. MCX cotton spot price was higher at Rs.24,350/bale on Wednesday. ICE cotton futures closed green on Tuesday.

News: The Southern India Mills Association has urged the Center to withdraw cotton import duty. According to Southern India Mills Association, the cotton import duty is severely affecting the global competitiveness of Indian textile and clothing industry. The association said import duty on raw cotton would erode the competitiveness of value-added segments that have a business size of about Rs 50,000 crore in exports and Rs 25,000 crore in the domestic market. These segments provide jobs to about 12 lakh people. It has taken over a decade for the textile industry to build up the market share in these segments, and with the import duty, we will lose our competitiveness and market share to competing countries. Cotton prices are also trading at all time high even as there have been lockdown led restriction as the demand has been quite strong. The Indian mills are reported to be holding more than 100 days of inventory currently.

Cotton Cultivation area may increase to 5-10 percent in 2021-22 season. Cotton acreages may see a rise of 5-10 percent this Kharif season as a result of high cotton prices in the market for the ongoing 2020-21 season. With assured procurement through Cotton Corporation of India, good monsoon and groundnut cultivation turning costly are some of the other factors that are likely to aid higher coverage under cotton this year.

Cotton Association of India has reduced its cotton crop estimate for 2020-21 season by 4 lakh bales at 356 lakh bales. The total supply from October 2020 – May 2021 is estimated at around 473.44 lakh bales which consist of arrivals of 340.19 lakh bales whereas imports were estimated at 8 lakh bales and opening stock at 125 lakh bales at the beginning of the season. Further, the cotton consumption was estimated at around 220 lakh bales, and exports upto 31st May'2021 were estimated to be 58 lakh bales, and stock at the end of May'2021 was estimated at 195.44 lakh bales.

Cotton prices have increased in Gujarat. Due to strong demand from domestic spinning mills, cotton prices have firmed up to reach a decadal high level. The demand from the international market has further supported the local prices of the natural fiber. The shanker-6 variety has reached Rs. 50,500 to Rs. 51,000 per candy in Gujarat local market, which is highest in 10 years.

Government comes up with Cotton Quality Improvement Mission. With cotton commanding higher prices in the market around 7,500 per quintal, both the Cotton Corporation of India and Cotton Association of India have come together to educate farmers to increase area under cotton cultivation for the coming 2021-22 season. Around 110-120 lakh hectares area comes under cotton cultivation in India. The center has allocated Rs. 440 crore towards Cotton Quality Improvement Mission to improve the quality and yield of cotton in India.

Telangana Government is considering a policy on cotton solvent to encourage ginning mills in the state. According to the Telangana Agriculture Department, the government is committed to encourage ginning mills in the wake of increase in raw cotton production. The by-products of cotton like cotton seed oil, cottonseed oilcake and solvents have a sound demand at the national and international levels.

Government has raised Minimum Support Price for the 2021-22 seasons. The government has increased minimum support price of cotton by Rs. 211 per quintal to Rs. 5,726 for medium staple variety and by Rs. 200 per quintal to Rs. 6,025 for long staple variety of cotton for the 2021-22 crop year.

Cotton cultivation area has increased in Muktsar. According to the State Agriculture Department, area under cotton cultivation has increased in Muktsar from nearly 28,000 hectares last year to 40,000 hectare in this season. The main reason behind the increase in the area is Minimum Support Price on cotton and direct purchase of cotton by Cotton Corporation of India.

Weather Forecast:

Thunderstorm with lightning & gusty winds is very likely at isolated places over Uttarakhand, West Uttar Pradesh, Madhya Pradesh, Andaman & Nicobar Islands and Kerala & Mahe and with lightening at isolated places over Jammu & Kashmir, Ladakh, Gilgit- Baltistan & Muzaffarabad, Himachal Pradesh, Punjab, Haryana, Chandigarh & Delhi, East Uttar Pradesh, East Rajasthan, Vidarbha, Chhattisgarh, Bihar, Jharkhand, West Bengal & Sikkim, Odisha. International Fundamentals:

The ICE cotton Futures was higher by 33 points at 85.28 cents/lb. The Cotlook A index was 25 points higher at 96.20 cents/lb. The AWP for cotton was at 72.36 cents/lb.

According to USDA'S World Agriculture Supply and Demand Estimate (WASDE) report, U.S. cotton production for the season 2021-22 shows a 100,000 bales increase in exports from the previous month, to 14.8 million bales. The U.S. production and consumption remain unchanged from last month and with lowering beginning stocks and higher exports, ending stocks are now 200,000 bales lower at 2.9 million bales.

The cotton Business of Thailand has started to recover as global economy recovers. With improving health condition and global economy the cotton business has started recovering, the cotton imports of the country were 700 thousand 480 lb bales in 2019-20 which have dropped to 550 thousand 480 lb bales in 2020-21 but is now likely to rise by 9.09 percent to 600 thousand lb bales in 2021-22.

Textile sector in turkey seeks global cooperation to boost production. As the global economy recovers from the pandemic, the Turkish textile sector wants to start a new era of collaboration with international companies and brands to exceed its \$ 100 billion production capacity. Turkey is the world's fifth largest supplier of textile, expects to export approximately \$12 billion worth of textile in 2021.

Myanmar is diverting export orders to Bangladesh. Myanmar's deepening political crisis and India's grave coronavirus situation are prompting international retailers and brands to divert work orders to Bangladesh as due to stability in the coronavirus situation; Bangladesh is witnessing a relatively calm situation than many other countries in the region.
