

Domestic Fundamentals:**Market Outlook:**

The cotton physical market showed a mixed trend today. MCX cotton spot price was higher at Rs.27,620/bale on Friday. ICE cotton futures closed green on Thursday.

News: The heavy rain and flash floods triggered by Cyclone Gulab have damaged the standing crops including paddy, groundnut, banana, custard apple, lemon trees in more than 1 lakh acres in Vizianagaram and Srikakulam districts. Paddy crops in 22,000 acres, maize in 12,700 acres and cotton in 4,950 acres has been inundated in the district. As per initial reports, standing crops in nearly 45,000 acres in Vizianagaram and around 55,000 acres in Srikakulam have been damaged.

Cotton crop get affected in sirsa due to Pink Bollworm. According to the Haryana Agriculture Department, Pink Bollworm has affected the cotton crop in sirsa and adjoining Punjab. Agriculture department officials have advised farmers to take precautions.

SIMA will promote cotton cultivation in Tamil Nadu. The Southern India Mills Association will work with the state government to increase the area under cotton cultivation in Tamil Nadu. Earlier Tamil Nadu was one of the major cotton producing State in India. Though it is a leading textile producer now, the industry purchased cotton from the other States. The association had developed a common infrastructure at Cuddalore with an investment of ₹96 crore, and two units had expressed willingness to put up plants there. The Union government would support establishing one mega textile park in each southern State. The Tamil Nadu government had expressed willingness to have three parks - at Dharmapuri, Thoothukudi, and Virudhunagar. The other focus areas of the Association is working with the Union government and urging it to sign free trade agreements with select countries soon. Further, the import duty on cotton should be removed and the hank yarn obligation should be reduced to 20 %.

The price for the raw cotton has increased in Karnataka. With the textile industry bouncing back, the price of raw cotton has increased from Rs 5,000-6,000 per quintal to Rs 11,500 and Rs 13,000 per quintal in different parts of the state. This season has been a good for cotton growers with agents and traders from neighboring states making a beeline to villages in HD Kote, Saragur, Nanjangud, Hunsur and Gundlupet taluks in the Old Mysuru region where farmers are commanding the prices. Most of the buyers are from Tamil Nadu as a majority of textile industries are situated in Tirupur and Erode where raw cotton is processed and the yarn exported to Bangladesh. Villages in HD Kote region witness early monsoon and hence, sowing and harvest start early. Usually, about 47,000 hectares comes under cotton cultivation in the region, but it had dropped to about 30,000 hectares this season.

Around 1/3rd of the cotton area is affected due to Pink Bollworm. Out of the total 3.25 lakh hectares area under cotton cultivation in Punjab about 33 percent i.e 1/3rd of the total area has been affected due to pink bollworm. The pest is spreading its tentacles rapidly as it is above the economic threshold level in many districts

Punjab Mandi has witnessed 50-fold increase in new cotton arrivals. According to the Punjab Mandi Board, about 80,000 quintals of cotton crop has been purchased at various mandis in Punjab till 21st September 2021. Cotton is being bought for rates as high as Rs. 7,010/quintal and around 98% of the produce has been purchased at rates above the minimum support price (MSP) of Rs. 5,925/quintal.

Cotton procurement in Maharashtra is likely to begin in November for the 2021-22 seasons. According to the Minister of Cooperation and Marketing, Kharif cotton procurement for 2021-22 seasons should commence from the first week of November to facilitate timely sales and income for farmers. The directives comes in the wake of a delay in the last kharif season due to covid 19 pandemic and lockdown through which cotton procurement centers did not opened on time.

Weather Forecast:

Thunderstorm accompanied with lightening very likely at isolated places over Uttarkhand, East Uttar Pradesh, Rajasthan, Madhya Pradesh, Vidarbha, Chattisgarh, Bihar, Jharkhand, West Bengal & Sikkim, Odisha, Assam & Meghalaya, Nagaland, Manipur, Mizoram, Tripura, Madhya Maharashtra, Marathwada, Konkan & Goa, Telanagana, Coastal Andhra Pradesh & Yanam, Telangana, Rayalaseema, Kerala & Mahe, Tamil Nadu, and Pondicherry & Karikal. Heavy rainfall at isolated places over Uttarakhand and heavy rainfall at isolated places over Uttarakhand, East Uttar Pradesh, Assam & Meghalaya, Nagaland, Manipur, Mizoram, Tripura, Konkan & Goa, Coastal & South Interior Karnataka, Kerala & Mahe, & Lakshadweep.

International Fundamentals:

The ICE cotton Futures was higher by 105.8 points at 386 cents/lb. The Cotlook A index was at 110.15 cents/lb. The AWP for cotton was at 83.92 cents/lb.

The Cotton Crop Assessment Committee had revised the Pakistan's cotton production target downward by 19 percent from 10.5 million to 8.46 million bales. Apart from lowest area under cotton cultivation i.e. 1.871 million hectares, some major biotic constraints including cotton leaf curl virus, mealybug, and whitefly attacks have also forced the government to cut the estimates. According to Syed Fakhar Imam, Federal Minister for National Food Security and Research, cotton production may exceed the estimate of 8.46 million bales, as 2.69 million bales of cotton have been transferred to the ginning factories till September 15, compared to 1.04 million bales in same period of last year. Whereas last year, the cotton production was around 5.57 million bales.

According to the International Cotton Advisory Committee September Report, after a 7 percent decrease in 2020-21, production is projected to increase by 3 percent in 2021-22 season to 25.20 million tonnes. Global Consumption has also recovered from 2019-20, to post a 12.4 percent increase to 25.6 million tonnes in 2020-21 and is projected to improve further to 25.9 million tonnes in 2021-22. World Exports for 2021-22 are estimated at 10.31 million tonnes.

According to USDA'S World Agriculture Supply and Demand Estimate (WASDE) report, World 2021/22 production is higher this month as increases for the United States, Australia, and Argentina offset declines in India, Greece, and several countries in West Africa's Zone. World trade in 2021/22 is still projected down from the previous year's record 48.5 million bales, but is projected 500,000 bales higher than in August, at 46.8 million bales.

Egyptian cotton production and exports may rise in the marketing year 2021-22 as the country's area under cotton harvest is likely to increase to 85,000 hectares, a 30.77 percent growth over the previous MY's area of 65,000 hectares. The expected increase in cotton production coupled with the rising demand across the world will boost the country's exports.
