

**Domestic Fundamentals:****Market Outlook:**

*The cotton physical market showed a mixed trend across India today. MCX cotton spot price was higher at Rs.37,440/bale on Monday. ICE cotton futures closed red on Friday.*

**News:** *Adoni market yard has witnessed a rise in prices this season. The price for each quintal cotton has been at Rs. 10,759. With the season coming towards its end, cotton arrivals have reduced in the market. Moreover, due to increased demand and competition among the traders, the prices have spiked up higher.*

*Demand for cotton and cotton yarn has increased due to rains, hailstorm and cloudy weather in the Northern India.*

*Government has proposed merging the Jute Corporation of India (JCI) and Cotton Corporation of India (CCI) to form a large public sector entity to handle all textile fiber procurement. A Request For Proposal (RFP) has been issued in order to appoint a consultant for the merger of both PSUs under the Ministry of Textiles.*

*Cotton Association of India expects the area under the cotton crop to expand by 20-25 percent in the upcoming 2022-23 season across all the 10 major cotton producing states. Cotton Association of India has also proposed a moderate increase of 3-5 percent in the cotton crop's Minimum Support Price (MSP) to protect cotton growers' interests.*

*According to the market sources, Indian cotton spinners are likely to report a double-digit revenue growth and all-time high profit in 2021-22 season mainly because of the high demand of raw cotton from spinning and ginning mills.*

*Southern India Mills Association has again urged the government to remove the import duty of 10 percent on cotton to ease the cotton price in the domestic market.*

*Tamil Nadu government has urged the Central government to remove the 10 percent import duty on cotton and has also asked the government to control the rising price of cotton and yarn. As, if the cotton and yarn prices kept on rising than the large number of power looms and apparel and home textile units may soon become unviable resulting in closure and consequent large scale unemployment and industrial unrest in the state.*

*Cotton Association of India has reduced its December estimate of the cotton crop for the 2021-22 season by 12 lakh bales to 348.12 lakh bales from its previous estimate of 360.13 lakh bales. The association has attributed the reduction in crop estimate due to the drop in production in states including Punjab, Haryana, Rajasthan, Gujarat, Telangana, Odisha and Karnataka. AgriWatch has estimated cotton production for 2021-22 season at 350.60 lakh bales lower from its previous season estimate of 365.00 lakh bales.*

*The textile hub of Tirupur incurred a production loss of more than Rs. 200 crore on 17<sup>th</sup> January (the first day of the 2-day strike called by textile firms against steep increase in yarn prices). Yarn prices have increased abnormally over the last one year causing disastrous impact on the textile sector. The prices have increased by Rs. 30 per kg with the start of the season.*

*Tripura Exporters Association (TEA) has asked the government to ban export of cotton due to the price rise in cotton and cotton yarn. Earlier, TEA has urged the industry to remove 10 percent import duty on cotton. The price in the international market has been lower than that of India according to the previous month data.*

### Weather Forecast:

*Dense fog at isolated places over Uttar Pradesh and Dense fog in isolated pockets over Punjab, Haryana, Chandigarh, Bihar, Sub-Himalayan West Bengal & Sikkim, Odisha, Arunachal Pradesh, Assam & Meghalaya and Nagaland, Manipur, Mizoram and Tripura is expected.*

### International Fundamentals:

*The ICE cotton Futures was lower by 88 points at 126.74 cents/lb. The Cotlook A index was at 140.15 cents/lb. The AWP for cotton was at 116.10 cents/lb.*

*Cotton arrivals in Pakistan have increased by 33.91 percent to 7.42 million bales in 2021-22 season. Sindh and Punjab has recorded an increase in cotton production this season.*

*Bangladesh cotton imports are likely to cross 9 million bales mark in 2022 as the demand for yarn and fabrics have increased from the local garment exporters.*

*With the goal of attracting local and foreign investment and to modernize and reopen closed textile mills, Bangladesh government has opened international tenders for 4 out of 16 textile mills through Public Private Partnership. Earlier, Bangladesh Textile Mills Corporation has initiated a process of handing over two textile mills through Public- Private Partnership.*

*Cotton Prices in Brazilian local market may continue to firm up as most of the 2020-21 crop has already been traded. Brazil's National Supply Company (CONAB) estimates cotton production at 2.7 million tonne in the 2021-22 season, which is around 11 percent higher as compared to the previous season. The planted area may increase to 1.542 million hectares in the second cotton crop of 2021-22 season. Brazil cotton production is expected to increase because of regular rains early in the season.*

*According to USDA's January 2022 report, US cotton production is estimated at 17.62 million bales for the 2021-22 season, about 660,000 bales lower than the previous month estimate, bringing its ending stock estimate by 200,000 bales lower to 3.20 million bales. The USDA has also cut its global output estimate by about 610,000 bales to 120.96 million bales, bringing ending stocks forecast to 85.01 million bales from 85.73 million bales last month. However, USDA has trimmed US exports estimate by 500,000 bales to 15.0 million bales on lower US crop and continuing logistical issues.*
