

Domestic Fundamentals:**Market Outlook:**

The cotton physical market showed a mixed trend across India today. MCX cotton spot price was lower at Rs.41,300/bale on Friday. ICE cotton futures closed red on Thursday.

News: *With the progress of the monsoon over the southern, central, and western regions Kharif sowing has increased in the country for the 2022-23 season. According to the data released by Agriculture Ministry, Cotton sowing has been reported at 102.79 lakh hectares which were 96.58 lakh hectares in the previous 2021-22 season as of 15th July 2022.*

As of 13th July 2022, Telangana Cotton sowing has reached 3848420 acres for the 2022-23 season which is slightly lower compared to the previous season's sowing of 4444255 acres. Average rainfall for the period from 01.06.2022 to 13.07.2022 has reached 484 mm higher as compared to the previous season of 320.6 mm.

As of 13th July 2022, Andhra Pradesh Cotton sowing has reached 2.04 lakh hectares for the 2022-23 season which is slightly lower compared to the previous season's sowing of 1.14 lakh hectares. Average rainfall for the period from 01.06.2022 to 13.07.2022 has reached 195 mm higher as compared to the previous season of 155 mm.

As of 12th July 2022, cotton sowing in Rajasthan has reached 613.64 hectares for the 2022-23 season which is slightly higher compared to the previous season's sowing of 582.23 hectares.

As of 11th July 2022, Gujarat cotton sowing has reached 20,52,795 hectares for the 2022-23 season which is slightly higher compared to the previous season's sowing of 18,43,266 hectares.

Indian cotton market remained bearish. As mills remains slower in buying due to slow offtake of yarn while limited cotton stock did not allow market to go lower.

As the domestic cotton season is towards its closure the cotton demand has fallen particularly for yarn, mill consumption has also reduced. Agriwatch expects cotton fiber prices to range between Rs. 84,500 – Rs. 92,500 per candy.

Due to heavy rains in Telangana Kharif crops on over 5 lakh acres are affected. Some major affected crops are cotton, maize, and soybean. The Districts of Adilabad, Nizamabad, Warangal, Jayashankar Bhupalpally, Mahabubabad, and Bhadrachalam are mainly affected because of heavy rains in the last week, the entire crop got submerged in rainwater. Although, the farmers are demanding to assess of the crop loss across the State and are demanding compensation.

As per the Punjab Agriculture Department, white fly attack was observed in 751 fields across the state. In around 370 fields, the white fly presence had crossed the economic threshold level (ETL), i.e. over 50% of the inspected crop is in danger. In the previous season, Pink bollworm infestation has damaged around 4 lakh acres out of 6.22 lakh acres of total cotton area. The major cotton growing belts in Punjab includes Bathinda, Fazilka, Mansa, Mukatsar, Moga, Barnala, Sangrur and Faridkot. As per the market sources, there is a heavy white fly attack in Bathinda and Mansa and around 50% of the crop is under danger. Lack of rain in Mansa and parts of Bathinda, Fazilka and Muktsar is said to be the cause behind this attack.

Earlier, the white fly attack was observed in the Cotton crop in Muktsar only, although at that time the attack was much below the economic threshold level (ETL) and with good rainfall, the whitefly attack was minimized. According to the Punjab Agriculture Department, about 2.47 lakh hectares of area is under cotton cultivation for the 2022-23 season which

is 4,000 hectares less than the area in 2021-22 (2.51 lakh hectares). The sowing of cotton was mainly affected because of the poor availability of irrigation in the 2022-23 season.

Weather Forecast:

Thunderstorm accompanied by lightening & gusty winds is very likely at isolated places over Andaman & Nicobar Islands, and thunderstorm accompanied by lightning at isolated places in Madhya Pradesh, Vidarbha, Chhattisgarh, Jharkhand, West Bengal, Sikkim, Arunachal Pradesh, Assam & Meghalaya, Manipur, Mizoram, Tripura, Tamil Nadu, Pondicherry & Karaikal. Heavy rainfall at isolated places Rajasthan, Chhattisgarh, Odisha, South interior Karnataka, Tamil Nadu, Pondicherry & Karaikal, Himachal Pradesh, Uttarakhand, Madhya Pradesh, Vidarbha, Assam & Meghalaya, Nagaland, Manipur, Mizoram & Tripura, Gujarat State, Madhya Maharashtra, Konkan & Goa, Coastal Karnataka, North interior Karnataka, and Kerala & Mahe.

International Fundamentals:

The ICE cotton Futures was lower by 400 points at 91.41 cents/lb. The Cotlook A index was stable at 129.75 cents/lb. The AWP for cotton was 109.10 cents/lb.

According to the USDA Cotton estimate for the 2021-22 season, Global cotton production is lowered by 725,000 bales due primarily to a decline in Brazil. Global use is estimated lower by 1.9 million bales, and ending stocks are up over 1.0 million bales. Further, Global trade is down with a 1.3-million-bale drop in imports and 1.2-million-bale drop in exports. Notable decreases in imports were seen from Bangladesh, China, India, and Vietnam. Also, exports are down from Australia, India, Mali, and the United States. Overall Global Cotton production is estimated at 121.27 million bales in the 2021-22 season, Imports are estimated at 43.32 million bales, and domestic use at 119.79 million bales. Further global exports for the 2021-22 season are estimated at 43.93 million bales resulting in an ending stock of 84.04 million bales. Stock to use ration for the 2021-22 season is estimated at 51.38 percent.

According to the USDA Cotton estimate for the 2022-23 season, Global production is lowered by 1.2 million bales to just over 120 million bales with a marked decline in the U.S. crop and a slight decline for Brazil. Global use is down 1.6 million bales due primarily to declines in Bangladesh, China, India, and Vietnam, and ending stocks are increased by 1.5 million bales. Global trade is down, with imports and exports decreasing by 1.1 million bales each. The U.S. balance sheet shows lower production, exports, and ending stocks. Abandonment in Texas is expected to surge. The projected U.S. season-average farm price is unchanged at 95 cents per pound.

According to the U.S. Crop progress report, as of 10th July 2022, U.S cotton Squaring stands at 57 percent which is higher than that of the previous season (53 percent). In the previous week cotton squaring was 44 percent. Overall 5 percent of the U.S Cotton Crop is in excellent condition, 34 percent in good to a fair condition which was 33 percent in the previous week.

DOMESTIC PRICES AND ARRIVALSCotton arrivals have decreased in the market as the season is close to its end.Cotton Prices at Key Spot Markets:
