

Domestic Market Scenario

Major Highlights (February 2022):

- Prices of Cotton bales were down on rising new crop arrivals amid better crop views.
- Ginning Mills are running with 50% to 75% capacity.
- Cottonseed prices remained lower due to weak demand.

Market Factors	Impact on Price
Subdued demand from Spinning Mills	Bearish
Increased arrivals in the Domestic market	Bearish
Local demand for cotton yarn remained sluggish	Bearish

The government on 22nd February 2023 has approved the Quality Control Order (QCO) for mandatory certification of cotton bales under specification no. IS12171:2019-Cotton Bales to augment the supply of good quality cotton to the textile industry.

The Tamil Nadu Agriculture University expects cotton prices to go down to Rs. 7,000 to Rs. 7,500 per quintal in the coming months. While the area under cotton cultivation has increased this year, demand from the domestic textile industry is low and export prices are under pressure. Hence, cotton offtake remains lower. Presently, only about 40% of the textile mills are working in the Tripura region.

Cotton daily arrivals were at around 1,40,000-1,80,000 bales per day. Arrivals have increased during the past month as farmers are releasing their stocks. Cottonseed and oilcake prices remained lower during the last month. There is very limited demand for cottonseed in the market. So, prices are likely to go down with the pressure of arrivals and due to weak demand.

Indian Metrological Department has released its seasonal outlook for Summer 2023, stating above normal maximum temperatures are likely over most parts of northeast India, east and central India and some parts of northwest India. Normal to below normal maximum temperatures are most likely over the remaining parts of the country. Presently, the temperature is on the rise in most of the regions. The reports of dry spell this year, may affect the standing crop although about 75% of the crop has been harvested.

As per the Cotton Association of India latest estimate of the cotton crop for 2022-23 season. The CAI has reduced its cotton crop estimate by 9 lakh bales for the 2022-23 season to 321.50 lakh bales. The CAI has reduced its cotton crop in Maharashtra by 2.50 lakh bales, Madhya Pradesh by 1 lakh bales, Telangana by 3 lakh bales, Andhra Pradesh by 1.50 lakh bales and Karnataka by 1 lakh bales. Cotton imports were maintained at 12 lakh bales and exports at 30 lakh bales. Domestic consumption was estimated at 300 lakh bales. Overall, the ending stock for the 2022-23 season was estimated at 35.39 lakh bales. As per Cotton Association of India, Cotton arrivals between October 2022 to January 2023 were estimated at 115.70 lakh bales.

Production Estimate

As per USDA, India's Cotton crop is estimated at 32.66 million bales higher than 31.25 million bales in the 2021-22 season. The increase in production is due to the expectationan of increased in acreages and yield for the 2022-23 season.

The government of India in its second advance estimate has estimated the Cotton production at 33.72 million bales against 31.20 million bales in the 2021-22 season.

AgriWatch has increased the Cotton production estimate to 33.81 million bales from previous season estimate of 31.50 million bales due to increased yield reported from major cotton producing states.

Production Estimates (Million Bales):

	2021-22	2022-23
GOI	31.20	33.72
AgriWatch	31.50	33.81
USDA	31.25	32.66

Domestic Production & Yield

Source: dacnet.nic.in *01st Advance estimate as on 14.02.2023

According to Min. of Agriculture's 2nd advance estimate, Cotton output in the country for the coming 2022-23 season is likely to increase by around 8% to 337.23 lakh bales from 312.03 lakh bales produced during 2021-22. The major reason behind the increase in production is the expected increase in acreage and yield during the 2022-23 season.

Domestic Cotton Prices Scenario

MSP V/s Shanker-6 Prices

Average kapas price at Gondal market stood slightly lower at Rs. 8,322/qt in Feb 2023 as compared to Rs. 8,675/qt in Jan 2023. Prices have gone down due comparative increase in arrivals during the past month.

Kapas (Raw Cotton) Monthly Price Scenario

Monthly Price Review: Monthly kapas average price at Rajkot and other markets were significantly lower and stood at Rs.8,409/quintal in Rajkot as compared to previous month price of Rs. 8,466/quintal. As the Indian cotton sowing has increased by around 8.91% for the 2022-23 season, along with increase in yield and good weather during the sowing period, the raw cotton production is expected to be higher in the 2022-23 season. Although, cotton prices were lower as farmers were holding stock in anticipation of better prices.

Kapas Monthly M-o-M Price Scenario

The arrivals in the month of February month was stable in the market, as a result the prices had decreased and the monthly average price was at Rs. 7,707/Qtl compared to the prices during the corresponding month of the previous season. (Rs. 10,518/Qtl).

Lint price Outlook

Monthly average price of Lint at Sirsa stood lower compared to previous month at Rs.6276 per maund of 37.32 kg each in February, in Bhatinda market the prices have decreased from Rs. 6478 per maund to Rs. 6392 per maund of 37.32 kg each. The cotton crop quality (staple length) has been affected in Punjab and Haryana due to unresistant weather condition during the past months.

Cotton Fiber Price Outlook

The average spot price quoted for Shankar-6 (29mm) by CAI was Rs. 62,321 per candy (of 355.6 kg each) during the February month, lower than Rs. 62,127 per candy from previous month. Agriwatch expects cotton fiber to remain around of Rs.62,200-64,400 per candy in the coming month.

Cotton Seed Oil Monthly Price Scenario

The monthly average price in Hyderabad stood lower at Rs.1165 per 10 Kg, Rs. 1102 kg in Rajkot and Rs.1122 per 10 kg in Mumbai.

Centers	Monthly Average Price as on (Rs/10 kg.)		% Change
	Feb	Jan	
Rajkot	1102	1206	-8.63
Hyderabad	1165	1209	-3.64
Mumbai	1122	1207	-7.07

Cotton Seed Oil Cake Monthly Price Scenario

The average price of cottonseed oilcake in the Kadi market has decreased and was at Rs. 2778 per quintal from Rs. 3108 per quintal and in Akola it was at Rs. 2838 per quintal from Rs. 3075 per quintal the previous month. Prices have decreased due to weak demand in the market.

Centers	Monthly Average Price as on (Rs/quintal.)		% Change
	Feb	Jan	
Kadi	2778	3108	-10.62
Akola	2838	3075	-7.69

*Source: NCDEX

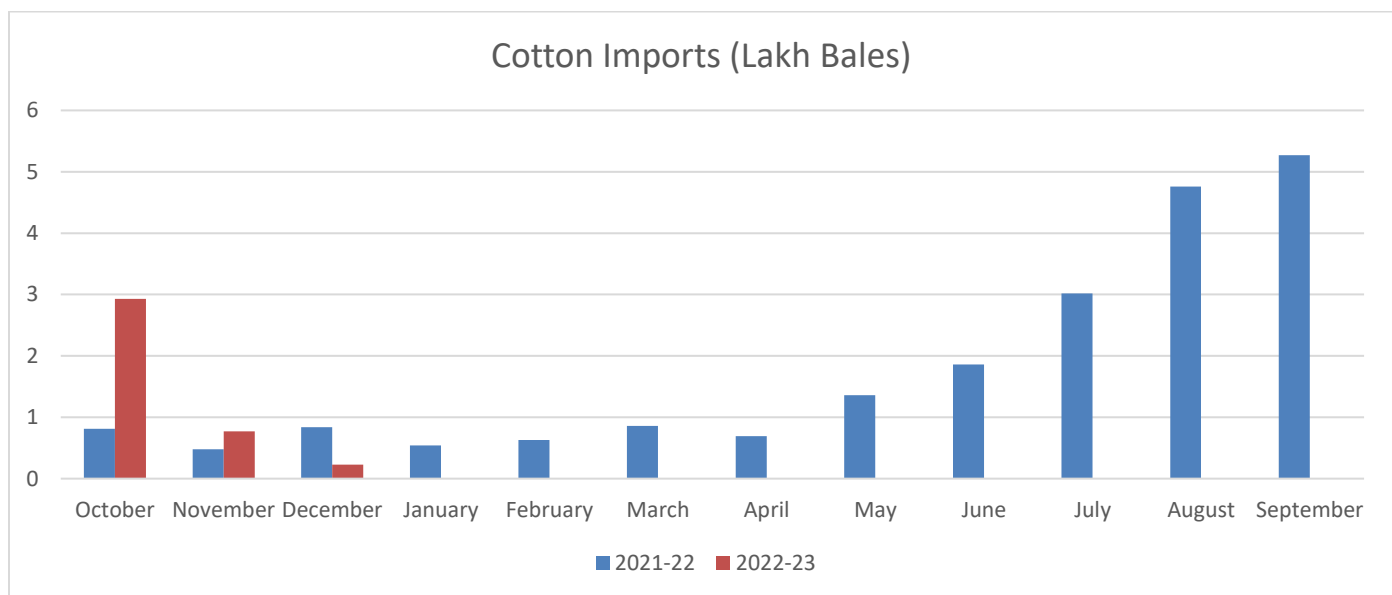

Export and Import Scenario:

Cotton exports are getting affected despite of higher production in India. Bangladesh, Vietnam, and China are the major buyers of Indian Cotton. Further, exports are likely to gain momentum as local prices had fallen and global prices had moved higher. Export of raw cotton can be done minimally due to limited demand from the international market.

Source: Agriwatch Research

The 2022-23 cotton has started with 54% lower beginning stocks compare to last year. But, estimated higher production for Kharif 2022-23 would offset the supply tightness and overall, the supplies are likely to increase by almost 21%. However, anticipated overall higher consumption during MY 2022-23 would keep the ending stocks at lower side which would remain supportive for prices once the peak arrival season ends. Consequently, the stock to use ration is likely to remain lower than last year (last year itself the stock to use ratio was lower). Presently, supply is tight as farmers are holding stock.

International Market Scenario

Major Market Highlights:

According to the Pakistan Cotton Ginners Association, till 01st March 2023, the total cotton arrivals in Pakistan has decreased to 4.875 million bales as against 7.442 million bales in the same period last year. The Pakistan local cotton market during the past week remained bearish and the trading volume remained low. The rate of cotton in Sindh is in between Rs 17,500 to Rs 20,000 per maund. The rate of cotton in Punjab ranges between Rs 18,000 to Rs 20,000 per maund.

According to the Cotton Outlook report, the world 2023-24 cotton crop was estimated at 25.398 million metric tonne, 2% higher than the expected figure of 24.892 million metric tonne for 2022-23. The world consumption of cotton was estimated to be 3.6 percent lower at 24.553 million metric tonne in the 2023-24 season.

The Brazilian Agriculture supply company CONAB has raised its outlook for cotton production by 19.2%, now estimating 13.97 million bales. Meanwhile, United States Department of Agriculture (USDA) has updated its forecast to 13.3 million bales in its latest WASDE update.

According to USDA WASDE February report, the 2022-23 U.S. Cotton Production was revised lower by 1.0 million bales to 114.4 million, mainly because of reduced yields in the Franc zone and India. Consumption is expected to decrease slightly from the previous month due to lower usage in Pakistan, Indonesia, and Vietnam, which offset the higher consumption in China.

The global trade is projected to decrease by 1.2 million bales from the previous month, primarily due to lower worldwide consumption, including Bangladesh, Egypt, Indonesia, and Pakistan. The ending stocks have decreased by 850,000 bales.

India's 2022-23 consumption is estimated 500,000 bales lower, with smaller declines for Indonesia and Vietnam. Projected world trade is down by 600,000 bales, to 41.7 million, as projected exports from the United States, India, and Argentina decline. Imports by China, Indonesia, and Vietnam are also projected lower.

Cotton Yarn

North India's cotton yarn market witnessed limited trade. Prices were slightly lower than last month, but there was an improvement in cotton yarn exports. Mills can increase production if they do not face a disparity due to the costly natural fibre. Prices of recycled yarn in Panipat remained steady amid thin trade.

As per the Trade sources spinning mills received export orders from Bangladesh, Turkey, Egypt and Latin America. In Delhi, 30 count combed cotton yarn was traded at Rs. 260-265 per kg for exports. Export deals were carried out at around \$3.05 per kg (FOB). 30 count combed yarn was traded at Rs.280-285 per kg (GST extra), 40 count combed at Rs.305-310 per kg, 30 count carded at Rs. 255-260 per kg and 40 count carded at Rs.280-285 per kg,
