**Major Market Highlights:** According to the latest report published by International Cotton Advisory Committee (ICAC), world's cotton area is likely to increase by 9% to 31.9 million hectares in 2017-18.

ICAC also projected global cotton production to rise by 9% from 23.07 million tonnes in 2016-17 to 25.14 million tonnes in 2017-18. Wherein, China, U.S and Pakistan are projected to produce 5.2 million tonnes, 4.5 million tonnes and 2 million tonnes of cotton respectively.

On the back of a favorable weather condition , increased acreage and yield; the Chinese govt. forecasted the country to produce 5.28 MT of cotton in 2017-18. Alongwith it, cotton consumption by the country is also projected to lie at 7.9 MT during 2017-18.

As per the latest USDA report, global cotton production is expected to rise by 8.25% from 23.08 million tonnes in 2016-17 to 24.98 million tonnes in 2017-18; wherein China, U.S , Pakistan and Brazil are expected to produce 5.23 million tonnes, 4.18 million tonnes, 2.03 million tonnes and 1.52 million tonnes of cotton respectively in 2017-18.

According to the Cotton Board of Zambia, it is likely to produce 117,000 tonnes of cotton this year compared to 116,000 tonnes in the previous year. Though the number of farmers cultivating cotton declined by over 20,000 from 277,560, production increased amid favourable weather in the growing regions.

In a bid to discourage imports and to promote domestic sowing and harvesting of cotton, the Pakistan govt. had re-imposed import duty of 4% & sales tax of 5% on import of cotton to the country that is going to get effective from 15th July, 2017.

According to agriculture ministry, Mali's cotton production for the upcoming 2017/18 season is estimated at 725,000 tonnes compared to 645,000 tonnes in the current season. Plantation of more land, renewing subsidies and continuing a two-year-old programme that provides tractors at reduced prices will help in achieving higher production in the coming season.

Good demand for quality lint, increasing prices in the global markets and lack of availability of quality cotton led to increase in cotton prices in Pakistan during the previous week. The Karachi Cotton Association increased its spot rates by Rs. 50 to Rs 6,700 per maund (37.3242 kg) and Rs 7,180 for 40 kg. The Ex-Karachi rates also increased to Rs 6,835 per maund and Rs 7,325 for 40 kg. There is good buying from the millers amid limited stocks with ginners.
