

Domestic market summary

Domestic market Scenario: Most Cotton spot market prices expected to trade sideways to lower on steady demand but expectation of higher arrivals may keep prices under pressure in coming weeks. Moreover, export demand from China, Bangladesh, Vietnam and opening up of Pakistan market to keep prices high this season. Average price of Lint at Sirsa during the week was Rs. 4461 per maund (of 37.32 Kg each), slightly lower compared to the previous week price of Rs 4560. Cotton fiber (Shankar-6) prices noticed weak this week Average price was Rs 44260 per candy (of 355.6 kg each) during the week, which was Rs 45550 per candy previous week.

Weekly Price Outlook : In the coming week we expect Kapas price to remain to Range bound with the price band of Rs 5300-6200 per quintal in the Rajkot market. Lint price at Sirsa is likely to be in range of Rs 4200-5000 per maund.

Major Market Highlights:

- Cotton prices traded lower in the domestic market on rising supplies, slow demand from spinning mills and a stronger Indian rupee. Slow offtake in yarn prompted mills to buy on hand to mouth basis. Arrivals are at 160'000 bales per day approximately and are expected to surge from early December onwards. The Indian rupee against the USD strengthened to an 11 week high, mainly on the back of collapsing crude oil prices and short-term firmer equity markets. Lower retail inflation data also bolstered the market sentiment.
- The First Meeting of Cotton Advisory Board (CAB) for the Cotton Season 2018-19 held under the Chairmanship of Mr. Sanjay Sharan, Textile Commissioner, has estimated 2018-19 cotton production at 361 lakh bales as against production of 370 lakh bales of 2017-18 cotton season. The area under cotton cultivation during the ongoing season has been estimated at 122.23 lakh hectares showing a decline when compared to 2017- 18 cotton season when the hectareage was recorded at 124.29 lakh hectares. opening stock for 2018-19 has been pegged by CAB at 47.12 lakh bales with cotton crop of 361 lakh bales and cotton imports of 15 lakh bales. Thus, taking the total cotton supply during 2018-19 cotton season at 423.12 lakh bales.
- Cotton Corp of India has procured around 45,000 bales (1 bale = 170 kg) in Telangana so far in the current season, a senior official said. The Centre has fixed minimum support price for medium-staple variety of cotton at 5,150 rupees per 100 kg, and that for long staple at 5,450 rupees per 100 kg, both 1,130 rupees higher than the past year.
- In Telangana, procurement was carried out at centres in Khammam, Warangal, Mahabubnagar, and Adilabad districts. The state-owned agency has also started procurement in Andhra Pradesh and Madhya Pradesh since last week. Around 2,000 bales of cotton in Khargone district in Madhya Pradesh, and 1,000 bales from centres in Guntur, Krishna Prakashan, Kurnool, and East Godavari districts in Andhra Pradesh have been procured.
- The procured quantity is less in Madhya Pradesh and Andhra Pradesh as arrivals are yet to pick up. Supply is expected to gather pace in Madhya Pradesh post Assembly elections. "Procurement is expected to start soon in other states as prices of cotton have started declining and may touch MSP levels," the official said

Domestic Cotton Balance sheet

Source:Agriwatch &CAI

Balance Sheet Highlight (2017-18):

As per the latest estimates by Agriwatch, cotton output in country during the season 2018-19 would be around 353 lakh bales (of 170 kg each) which is lower compared to production of last season.

Following lower production, imports will rise marginally to 27 lakh bales compared to 15 lakh bales in previous season.

Due to lower opening stock imports, and lower production of cotton availability would be standing lower this season at 400lakh bales compared to 410 lakh bales during the previous season.

Total domestic consumption (Including mill, small mill and non-mill consumption) would be around 335 lakh bales compared to 320 lakh bales during the previous season.

Cotton exports are expected to remain lower as that of previous year. It is expected that country would export around 60 lakh bales of cotton in the season 2017-18.

Ending stocks are expected to be around 10 lakh bales, it is lower compared to the ending stocks of previous season

Domestic Cotton Prices Scenario

Kapas (Raw Cotton) Weekly Price Scenario

Weekly Price Review: Weekly kapas average price at Rajkot rose is Rs 5720 /quintal this week.

Weekly Price Outlook: Kapas prices are expected to remain range-bound in coming days. The expected range for Kapas at Rajkot is Rs 5400-6500 per quintal for the coming week.

Kapas Monthly M-o-M Price Scenario

Kapas(seed cotton) prices in country noticed weak tone during the Oct month when compared to the previous month, and the same is ruling higher compared to the prices during the corresponding month of the previous season.

Monthly average price of Kapas at Rajkot remained Rs. 5940 per quintal during Aug, which was Rs. 6426 during previous month and Rs.4895 per quintal during the corresponding month last year. We expect Kapas prices to remain to firm in the coming

month. The expected price range for Sep month is likely to be Rs 5500-6500 per quintal.

Spot Price versus MSP

The Kapas prices are ruling above the MSP so far. The gap between the two prices has decreased this 3rd week of Nov. The average gap between the prices was Rs 435 compared to Rs 440 a week earlier. This indicates prices are decreasing.

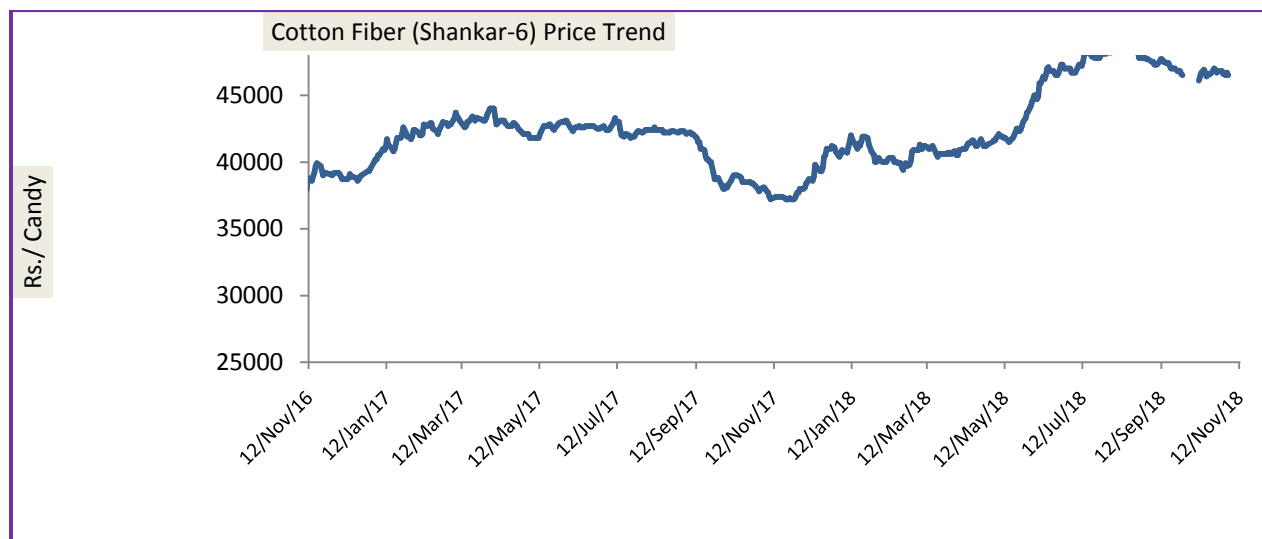

Lint price Outlook

Lint prices remained slightly weak during the week owing to tight tone prevailing in market. Weekly average price of Lint at Sirsa remained Rs 4461. per maund of 37.32 kg each, slightly higher compared to the previous week price of Rs 4560 per maund.

Cotton Fiber price Outlook

Cotton fiber noticed down trend in this week compared to the previous week. Average price was Rs 44260 per candy (of 355.6 kg each) during the week, which was Rs45550 per candy previous week. and around Rs 37300 per candy during the corresponding week previous season. We expect cotton fiber to remain in range of Rs 42000 -47000 per candy in the coming week candy.

Cotton Seed Oil and Cotton Seed Oil Cake

Cotton Seed Oil weekly Price Scenario

Cotton seed oil price noticed slightly firm tone during the week. Weekly average price in New Delhi is Rs 699 per 10 Kg, to the weekly average price of Rs 694 per 10 Kg in previous week.

	Weekly Average Price as on (Rs/10 kg.)		% Change
	29-Nov-18	22-Nov-18	
New Delhi	699	694	0.72
Rajkot	694	710	-2.25
Hyderabad	702	715	-1.82
Mumbai*	715	726	-1.52

Cotton Seed Oil Cake weekly Price Scenario

Cotton seed oil cake price noticed slightly weak tone during this week. Weekly average price in Akola remained Rs 1939 per quintal, lower compared to the weekly average price of Rs 1987 per quintal in the previous week.

Centers	Weekly Average Price as on (Rs/quintal.)*		% Change

Kadi	1945	2023	-3.86
Akola	1939	1987	-2.42

*Source: NCDEX

International Market Scenario

International cotton prices remained slightly firm during the week. Cotlook A index weekly average stood 86.51 at cents/pound this week, which was 86.18 cents/pound during last week

Major Market Highlights:

Nearby, new crop March futures now stands at 77 and change. There is clear resistance around 81 cents. What does that mean in everyday language? It means 81 to 82 cents is a hurdle the market has to successfully negotiate if we are to realize something better at some point in our future-like 85 cents.

This month's 2018/19 U.S. balance sheet shows lower production, consumption, exports, and ending stocks. Production is reduced 1.35 million bales due mainly to decreases in the Southeast, reflecting the impact of adverse weather. Domestic mill use is reduced 1.00 lakh bales and exports are reduced 5.00 lakh bales. Projected ending stocks in 2018/19 are 7.00 lakh bales lower this month, at 4.3 million bales or 24 percent of use. The marketing-year-average price received by producers is forecast between 71.0 and 77.0 cents per pound, with a midpoint of 74.0 cents, 1 cent above last month.

This month's 2018/19 world supply and demand forecasts include lower beginning stocks, production, consumption, trade, and ending stocks. Historical revisions to Benin's exports resulted in a 3.75 lakh bales decrease in 2018/19 beginning stocks there, accounting for much of this month's 5.00 lakh bale decline in global beginning stocks. Forecast global production is reduced 2.3 million bales as smaller expected crops in the United States, India, Pakistan, and Turkmenistan offset an increase in Benin. Consumption is reduced 8.75 lakh bales, with smaller expected mill use in India, Pakistan, Turkey, Brazil, Indonesia, and the United States. Global ending stocks are 1.8 million bales lower this month, at 73 million bales or 57 percent of mill use.

The US Department of Agriculture's Foreign Agricultural Service has projected India's Cotton production in 2018-19 (Aug-Jul) at 36.5 mln bales, down nearly by 2% against 37.2 mln bales in previous year, where one Indian bale equals 170 kg. Dry weather in the key growing regions of Gujarat and Maharashtra have hampered crop development and will likely to affect yields of standing crop. The US agency has estimated opening stock of Cotton for 2018-19 at 15.6 mln bales, higher than the opening stock of 14.3 mln bales in 2017-18. Imports have been estimated at 1.9 mln bales in 2018-19, compared with 2.2 mln bales in the previous year. On the demand side, consumption by mills in 2018-19 is seen at 32.1 mln bales, slightly higher from 31.4 bales a year earlier. Exports are seen falling to 5.5 mln bales from 6.7 mln bales in

2017-18. Considering consumption and exports, the closing stock at the end of 2018-19 is pegged at 16.6 mln bales, up from 15.6 mln bales the previous year

USA Spot Prices

U.S. cotton planted area for 2018 was increased nearly 4 percent in September based on acreage reported to USDA's Farm Service Agency (FSA). Planted area was estimated at 14.0 million acres by USDA's National Agricultural Statistics

Service (NASS), while harvested area was projected at 10.55 million acres—up 4 percent from the August forecast. As a result, abandonment in 2018 is expected near 25 percent, compared with 12 percent in 2017. The national yield is forecast 10 pounds below 2017's record at 895 pounds per harvested acre.

Pakistan Spot Prices

Cotton production is estimated to fall 25 percent short of its target of 14.37 million bales in the current season as water shortage and pest attacks have squeezed the crop yields – signaling hard time ahead for the already struggling economy that is heavily reliant on fibre.

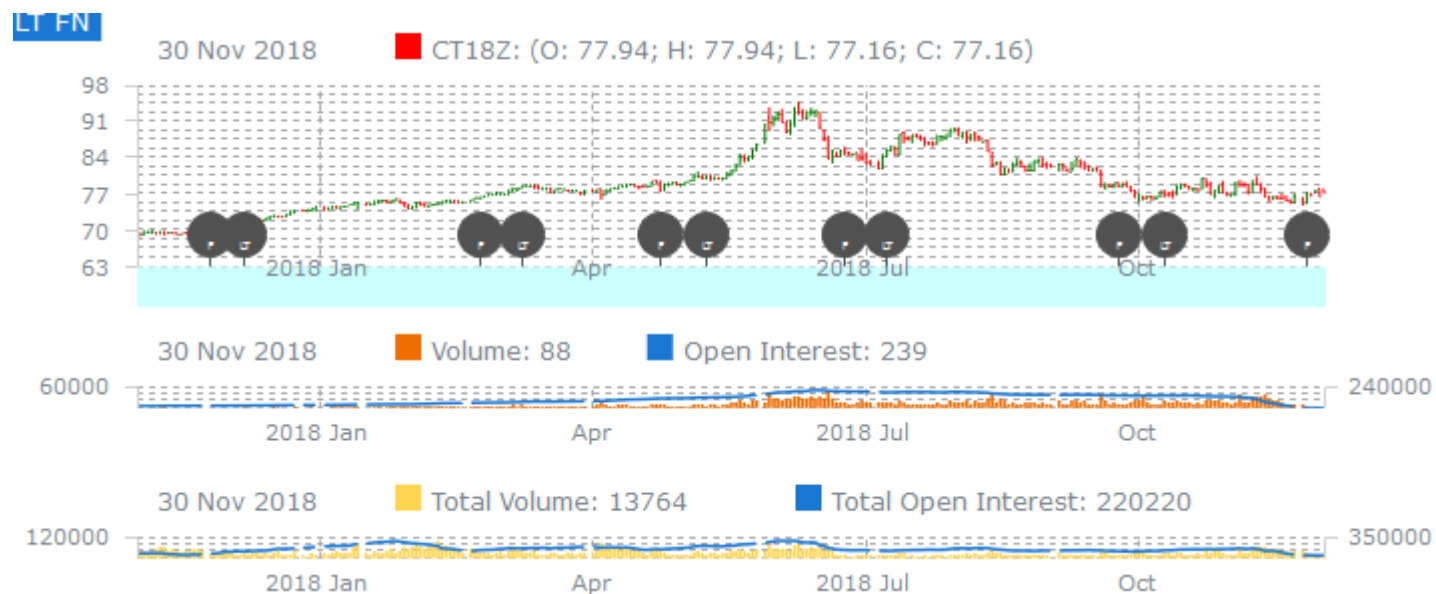

Official data on last week revealed that cotton output for 2018/19 is estimated at 10.847 million bales as water shortage and cotton leaf curl virus (CLCV) held back overall gains of areas under cultivation. The data showed that cotton production in the Punjab is estimated at 8.077 million bales as against the target of 10 million bales, while Sindh's output is feared to be just 2.60 million bales against the target of 4.20 million bales.

The country achieved a decade-high growth of 5.8 percent during the last fiscal year, but analysts feared the economy is likely to slide off on external pressures. An estimate said one million bales have an impact of 0.5 percentage points on GDP and the effect of cotton shortage on the economy due to the sector's backward and forward linkages with textile industry could simply be assessed.
