

**COTTON WEEKLY RESEARCH REPORT****18 Feb 2019****Domestic market summary**

**Domestic market Scenario:** Most Cotton spot market prices are witnessed weak trend during the week. The price in Indian market is higher than that internationally. This is backed by higher MSP and purchases by CCI. The market may move up only through larger offtake by exporters or by domestic industry. This may occur gradually over the next few months. Average price of Lint at Sirsa during the week was Rs. 4340 per maund (of 37.32 Kg each), slightly weak from the previous week price of Rs 4359. Cotton fiber (Shankar-6) prices noticed slightly down trend this week. Average price was Rs 41983 per candy (of 355.6 kg each) during the week, which was Rs 42200 per candy previous week.

**Weekly Price Outlook :** In the coming week we expect Kapas price to remain to Range bound with the price band of Rs 5450-5800 per quintal in the Rajkot market. Lint price at Sirsa is likely to be in range of Rs 4200-5000 per maund.

**Major Market Highlights:**

- Indian physical market remained steady during the week. Gujarat Shankar 6 Price remained in small range but Maharashtra is facing more selling pressure.
- CCI so far, procured around 7 lakh bales of kapas at MSP.
- Gujarat 29 mm Cotton sold between 42,350 to 42,850 Rs./Candy.
- All India Daily Arrivals remained between 1,40,000 to 1,60,000 bales.
- Gujarat Daily Pressing was approximately 50,000 bales.
- Domestic cotton prices have been weaker tracking bearish cues from overseas market and supply pressure across major trading centres. All India cotton arrivals registered around 160'000bales (each bale 170 kg) lint equivalent on an average per day basis, during the week. The Cotton Association of India (CAI) released its latest crop estimate and balance sheet for current season 2018-19crop (October to September period), whereby total crop estimated production kept at 33 million bales (each bale 170 kg) reduced by 500'000bales than previous estimate.
- CCI procured about 7 lakh bales of cotton mostly from Telangana (80-85%) as prices slipped below MSP. Of the total quantity of 70k bales have been procured in Maharashtra while another 35k to 40k bales have been bought in Madhya Pradesh.
- Cotton prices are expected to remain firm this year due to lower production in the country, apart from rising consumption in both the domestic and overseas markets. Prices may rise by March end, when market dispatches will reduce. A weakening of the rupee will also help overseas demand for India's cotton exports. However, export sales volume still remains nominal. Total cotton exports for 2018-19 season (October-September period) reached around 2.5million bales till December 2018. Agriwatch have kept a target to export 53lakh bales.
- The ongoing trade tensions between the US and China is creating uncertainty in the global cotton market, affecting the economy. ICE futures US have touched their lowest levels in more than a year at 69.68 cents

per pound on last week. Cotton futures are down about 14% since the 11 June, at just before China rolled out most of its tariffs on American crops. Prices fell even as India and US production disappointed.

### Cotton Balance Sheet (India):

In Lakh Bales(170 KGS)	2014-15	2015-16	2016-17	2017-18	2018-19*	Oct-Dec	Jan-Mar	Apr-June	July-Sept

All figures in Lakh Bales (of 170 Kgs. Each) Source: CAI& Agriwatch \*: estimated

As per the latest estimates by Agriwatch, cotton output in country during the season 2018-19 would be around 336.53 lakh bales (of 170 kg each) which is lower compared to production of 365 lakh bales of last season.

Following lower production, imports will rise marginally to 27 lakh bales compared to 15 lakh bales in previous season.

Due to lower opening stock imports, and lower production of cotton availability would be standing lower this season at 387.56 lakh bales compared to 428.04 lakh bales during the previous season.

Total domestic consumption (Including mill, small mill and non-mill consumption) would be around 367 lakh bales compared to 404 lakh bales during the previous season.

Cotton exports are expected to remain lower as that of previous year. It is expected that country would export around 53 lakh bales of cotton in the season 2018-19.

Ending stocks are expected to be around 20.57 lakh bales, it is lower compared to the ending stocks of previous season.

### Domestic Cotton Prices Scenario

#### Kapas (Raw Cotton) Weekly Price Scenario

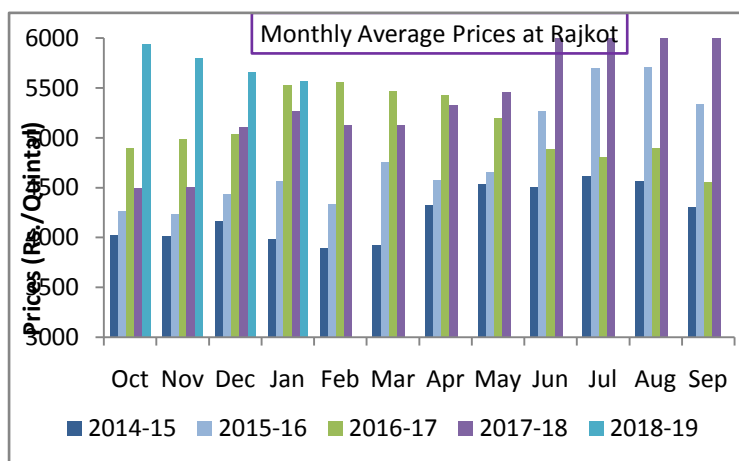

**Weekly Price Review:** Weekly kapas average price at Rajkot rose is Rs 5578 /quintal this week.

**Weekly Price Outlook:** Kapas prices are expected to remain range-bound in coming days. The expected range for Kapas at Rajkot is Rs 5450-5800 per quintal for the coming week.

## Variety wise Kapas Price trend (Rs/Qtl)

## Kapas Monthly M-o-M Price Scenario

Kapas(seed cotton) prices in country noticed weak tone during the Jan month when compared to the previous month, and the same is ruling higher compared to the prices during the corresponding month of the previous season.

Monthly average price of Kapas at Rajkot remained Rs. 5568 per quintal during Jan, which was Rs. 5654 during previous month and Rs. 5270 per quintal during the corresponding month last year. We expect Kapas prices to remain to Range-bound

in the coming month. The expected price range for Sep month is likely to be Rs 5400-6300 per quintal.

## Spot Price versus MSP

The Kapas prices are ruling above the MSP so far. The gap between the two prices has decreased this week of dec. The average gap between the prices was Rs100 compared to Rs 120 a week earlier, this means prices are decreasing.

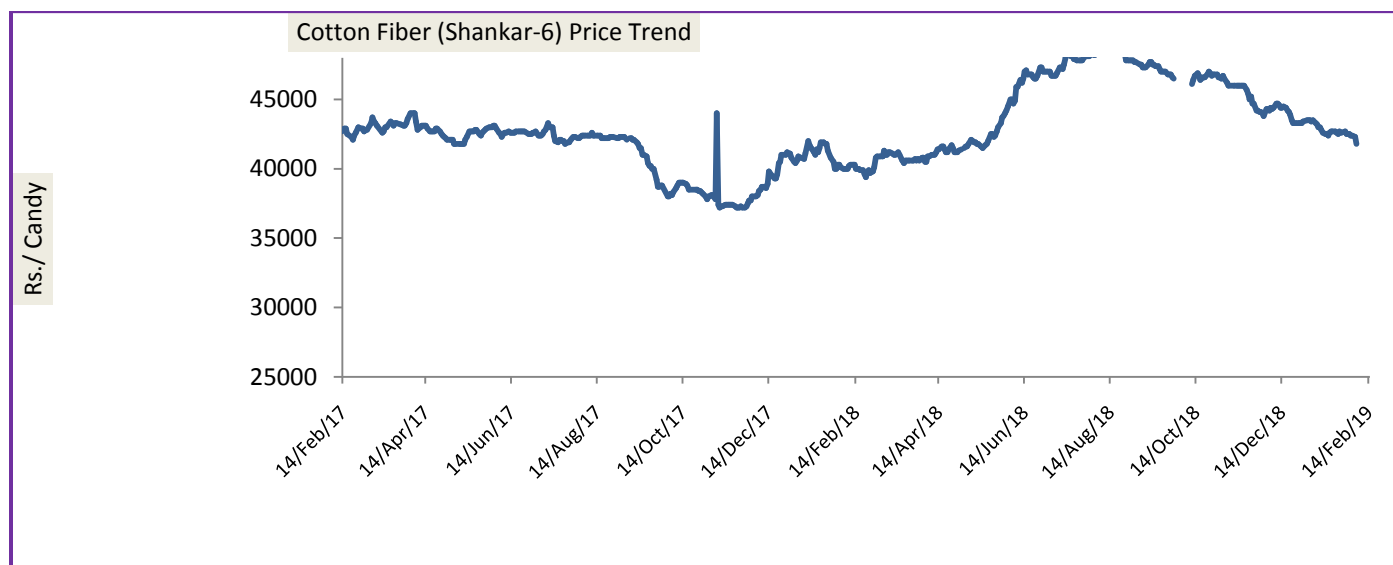

### Lint price Outlook

Lint prices remained weak during the week owing to weak tone prevailing in market. Weekly average price of Lint at Sirsa remained Rs 4340 per maund of 37.32 kg each, as compared to the previous week price of Rs 4359 per maund.

### Cotton Fiber price Outlook

Cotton fiber noticed slightly down trend in this week compared to the previous week. Average price was Rs 41983 per candy (of 355.6 kg each) during the week, which was Rs 42200 per candy previous week. and around Rs 40120 per candy during the corresponding week previous season. We expect cotton fiber to remain in range of Rs 42000 -45000 per candy in the coming week candy.

## **Cotton Seed Oil and Cotton Seed Oil Cake**

### **Cotton Seed Oil weekly Price Scenario**

Cotton seed oil price noticed weak during the week. Weekly average price in New Delhi is Rs 741 per 10 Kg, to the weekly average price of Rs 744 per 10 Kg in previous week.

	Weekly Average Price as on (Rs/10 kg.)		% Change
	14-Feb-19	07-Feb-19

### International Market Scenario

International cotton prices remained weak during the week. Cotlook A index weekly average stood 80.56 cents/pound this week, which was 82.90 at cents/pound during last week.

#### Major Market Highlights:

ICE cotton futures were little changed on Friday ahead of a three-day long U.S. holiday weekend, as traders kept a close watch on the progress in U.S.-China trade talks. The most active cotton contract on ICE Futures U.S., the March contract, settled up 0.09 cent, or 0.13 percent, at 70.22 cents per lb.

This week was a bear week. NY March option expired. So now lead month for trade is May. Both the futures lost 233 and 183 points respectively. So the market sentiment was bearish. Indian consumers are not in a hurry to build inventory. If NY future goes farther down then they have a chance to book imported cotton.

High level meeting between U.S. and china at Beijing Concluded with some positive indication from both the sides but market did not react before any solid conclusion.

Long awaited USDA WASDE Report was finally released after two months. As a backward revision in 2017-2018 USDA lowered world consumption by a net 588,000 bales effectively world's ending stock was increased by nearly two million Bales, otherwise it is neutral.

### Cotlook A Index

Cotlook A index remained weak during the week. The Cotlook A Index was up 20 points on February 7 to 82.85 cents/lb. The USDA Adjusted World Price is 64.61 cents/lb through next Thursday, down 46 points from the previous week

CCIndex(229)	16044	15976	0.43
Prices in Yuan per ton			

### USA Spot Prices

Cotton was sharply lower last week as weak overall demand continues to impact the US market. On the other hand, world production and supplies are going lower due to bad weather in the growing season for major producers around the world, including India, Pakistan, and Australia. China had problems with its growing weather, too. Demand for US Cotton has been disappointing, as the weekly export sales reports have shown average demand at best since the start of the marketing year. China has not bought any US Cotton this year and has been active in other markets, especially India. US prices are down and China might start to look at the US crop, but there have been worries about the quality of the US crop due to some extreme growing conditions in Texas and the Southeast over the Summer and Fall. Ideas are that the quality worries have kept some importers of US Cotton away from the market.

USA Spot Prices	Monthly Average Price as on		% Change
	14-Feb-19	07-Feb-19	
Prices	69.52	72.12	-3.61
Prices in US cents per Pound			

### Pakistan Spot Prices

Pakistan scrapped duties on import of cotton for February 1-June 30 to tide over shortage of the crop. In the current year, Pakistan has harvested 10.8 mln bales of cotton, down 25 per cent from initial target of 14.4 million bales. The Pakistan is likely to import 3.5-4 million bales - costing up to \$1.2 billion - as the crop size for season 2018-19 is estimated at 10.8m bales, against the annual demand of around 15m bales. India's cotton exports to Pakistan are unlikely to see a sharp jump, despite the neighboring country scraping import duty, as high domestic prices have made exports uncompetitive. Indian cotton is currently available around 43,000 rupees a candy, while prices in Pakistan are trading at 43,500 rupees per candy.
