

COTTON WEEKLY RESEARCH REPORT
07th Oct 2019**Domestic market summary**

Domestic market Scenario: Mixed trend is seen in Indian Domestic market and prices traded weaker in Rajkot amid lower demand compared to last week and the prices in Punjab and Haryana stood steady to low with low grade cotton arrivals. The overall weather is suitable in some states whereas Gujarat and Madhya Pradesh received above average rainfall in the cotton belts. Average price of Lint at Sirsa during the week was Rs.4010 per maund (of 37.32 Kg each), lower from the previous week price of Rs. 4028.33. Average price for Shankar-6 (29mm) was Rs.41680 per candy (of 355.6 kg each) during the week stood low , which was Rs. 41616.66 per candy previous week.

Weekly Price Outlook : In the coming week we expect Kapas price to remain steady to firm with the price band of Rs. 5900-6350 per quintal in the Rajkot market. Lint price at Sirsa is likely to be in range of Rs. 3700-4200 per maund.

Major Market Highlights:

- All India cotton sowing till 4th Oct'19 was 128.17 lakh hectares against 121.42 lakh hectares last year on same time which is higher by 6.75 lakh ha.
- The new arrivals are of inferior quality, therefore, consumers are waiting for good quality cotton.
- Gujarat 29 mm Cotton sold between 41,050 to 41,650 Rs./Candy.
- All India Daily Arrivals remained less in between 35,000 to 40,000 bales.
- Indian Rupee remained stronger between 70.87 to 71.08 during this week.

Market Highlights:

- **Total arrivals stood slight higher at 1,94,930 lakh bales in the month September'19 compared to previous month 52,600 bales.** Of this, 39,300 bales were from Central India, followed by 23,400 bales from South India. The arrivals from North India (in Haryana and Punjab) have started so the arrivals increased to 1,32,230 bales this week compared 11,700 in August.
- **As on 4th Oct'19, the cotton area has been increased this year by 6.75 lakh ha and stood at 128.17 lakh ha till now higher than 121.42 lakh ha last year.** The sowing is lagging behind in Gujarat by 1.6% this week and stood same at 26.67 lakh ha followed by Madhya Pradesh is behind by 12.6% covering only 6.09 lakh ha area. Whereas all other states are now ahead compared to previous year. So far, the total area of cotton expanded this year by around 5.46%. The advancement in rainfall has favoured the North India crop which has increased the yield in Punjab while some areas in Madhya Pradesh received above average rainfall. IMD forecasts there would be heavy rainfall in MP and Saurashtra region of Gujarat which could affect the crop at this maturity stage.

- **The extended rainfall in India is harming Indian cotton after the late arrival of monsoon this year.** After the rains in Maharashtra and Madhya Pradesh, Gujarat is also facing from the excess rainfall since last 3 days which is on verge of deterioration of the already formed cotton bolls. The assessment could be done after the rain stops in the state. According the trade sources, North Haryana and bordering areas of Punjab is expecting lower yield (-2%) than expected because of unsuitable weather conditions (extreme hot and rainy weather) which could encourage the pest attack on cotton.
- **The Indian market remained firm at 74.63 (cents/lbs) compared to the international prices in US (62.79 cents/lbs) and Brazil stood at 60.22 cents/lbs in the month end.** The prices were firm in Domestic as well as in the international market in September after the largest cotton producer reported damage in Madhya Pradesh and Maharashtra from stagnated water in the cotton fields. The quality of cotton might be affected in these area which would decline the yield and production than expected.
- **According to the trade sources, the Indian cotton exports for the Aug'19 were reported at 61,991 bales against 68,509 bales in the previous month.** The total exports of India from the starting of the marketing year in Oct'18 till July'19 reached to a total of 43.65 lakh bales around 21.34% lower compared to 64.99 lakh bales during the corresponding period in 2017-18. In Aug'19, Bangladesh was the largest importer, importing 45,187 indian bales with an average FOB of 2049.2 \$/Tonne followed by Iran (9,625bales at FOB 2013\$/Tonne) and Vietnam importing 4081 bales at 1238 \$/tonne.
- **Monthly cotton yarn exports still are low by 35.7% compared to previous year during April- Aug.** The data released by the textile industry in August also showed a decline of 38.8%. India cotton industry is already struggling from slumped exports due to lean demand. The Indian export yarn exports fallen to 355 million kg in 2019 as against an average of 552 million kg in 2018 during April-Aug.

Due to lower opening stock but estimation of higher production of cotton would increase the availability the new season at 384.74 lakh bales.

Total domestic consumption (Including mill, small mill and non-mill consumption) in 2019-20 would be around 297 lakh bales compared to 311.5 lakh bales during the previous season due to lower demand from textile industries. Cotton exports are expected to remain higher as that of previous year. It is expected that country would export around 52 lakh bales of cotton in the season 2019-20 due to slightly higher crop compared to 2018-19.

Kapas (Raw Cotton) Weekly Price Scenario

Weekly Price Review: Weekly kapas average price at Rajkot stood at Rs 6355/quintal this week weaker from the previous week. Kapas prices are expected to remain steady to steady for the next week delay in arrivals as the rains has overpowered the cotton belts in Gujarat. The expected range for Kapas at Rajkot would be between Rs. 6000-6400 per quintal for the coming week whereas the prices in Hisar with new arrivals are hovering below MSP due to arrival of 10-12% moisture content in cotton.

Kapas Monthly M-o-M Price Scenario

Kapas(seed cotton) prices in country noticed firm during the Sep when compared to the previous month, but the same is ruling lower compared to the prices during the corresponding month of the previous season.

Monthly average price of Kapas at Rajkot remained Rs. 6319.2 per quintal during June, which was Rs 6083 /quintal during previous month and Rs.6156 per quintal during the corresponding month last year. We expect Kapas prices to remain steady to weak further in the coming month due to the new arrivals which is expected to be of lower grade.

Spot Price versus MSP

The Kapas average price at Gondal market this week at ended weaker at Rs. 5955 as the market was closed last week due to arrival of low graded cotton. The gap between the two prices has decreased once again. The average gap between the prices decreased and stood at Rs.505 , prices could remain steady to weaker.

Cotton Fiber price Outlook

Cotton fiber noticed steady in this week compared to the previous week whereas much weaker compared to last year due to lower export demand for Indian cotton due to higher prices prevailing in the Indian market against international market.
