

**COTTON WEEKLY RESEARCH REPORT**  
**4<sup>th</sup> Nov 2019****Domestic market summary**

**Domestic market Scenario:** The cotton market across India was steady to weaker as the rains across India has hindered the trade activity. The prices across India still stood lower than MSP, therefore, CCI waiting for the moisture to reduce in cotton and planned to procure cotton from 2<sup>nd</sup> week of November in South India. Average price of Lint at Sirsa during the week was Rs.3882 per maund (of 37.32 Kg each), lower from the previous week price of Rs. 3868. Average price for Shankar-6 (29mm) was Rs.41150 per candy (of 355.6 kg each) during the week stood low, which was Rs. 41185 per candy previous week.

**Weekly Price Outlook :** In the coming week we expect Kapas price to remain steady to firm with the price band of Rs. 5300-5800 per quintal in the Rajkot market. Lint price at Sirsa is likely to be in range of Rs. 3650-4000 per maund.

**Major Market Highlights:**

- Indian market remained steady to low whereas the international market remained steady at 60 cents/lbs in the hope of progress in US-China trade war.
- Indian cotton prices (70.96cents/lbs) are lower than Cotlook index (76.45cents/lbs), thus Indian cotton can be exported easily.
- Gujarat 29 mm Cotton sold between 39,100 to 39,400 Rs./Candy.
- All India Daily Arrivals remained less in between 48,000 to 70,000 bales.
- Indian Rupee remained stronger between 70.96 and 70.70 during this week.

**Market Highlights:**

- According to the trade sources, Total arrivals stood slight lower as the markets were closed all over India for 2-3 days on the occasion of Diwali at around 12.52 lakh bales so far till 2<sup>nd</sup> Nov'19. And a total of only 2.40 lakh bales have arrived in this week ending on 2<sup>nd</sup> Nov'19 compared to 3.93 lakh bales in the last week. Of this, 72,500 bales were from Central India, followed by 32,200 bales from South India. The arrivals from North India (in Haryana, Punjab & Rajasthan) have started so the arrivals decreased to around 1.36 lakh bales this week.
- According to the Cotton Corporation of India, the total arrivals till 28th Oct'19 stood at 12.33 lakh bales. Out of which Rajasthan is leading with 3.77 lakh bales followed by Haryana with arrivals of 3.75 lakh bales, Gujarat with 1.38 lakh bales and 1.28 lakh bales as on date. The arrivals from Maharashtra (35,000 bales), Telangana (29,000 bales) and AP (31,000 bales) declined compared to the previous year at the same time due to disruptions caused by rainfall from last week in the cotton belts.
- Rain in Maharashtra, Telangana and AP excess by 45% since last 10 days and more showers likely to continue this week. The southern parts of Madhya Pradesh also recorded heavy rainfall at one or two places with moderate rainfall. In Telangana, the fibre output was expected to be around 45-50 lakh bales as against 36-40 lakh bales in a normal year. But incessant rains in the last five-six weeks have shattered their hopes. CCI

has announced to start kapas buying from 10th Nov onward in AP. Farmers have held back kapas in anticipation of getting better realisation. As a result of this arrivals have dropped to 50% and is still likely to drop further. This may result in unhealthy competition and increase the price of kapas across all the variety.

- Many spinning mills are on the verge of closure as since April as the exports of cotton yarn declined by 38.8%. Cotton yarn is the only product that hasn't been granted export benefits such as Merchandized Export Incentive Scheme (MEIS) and 3% Interest Equalization Scheme. Additionally, exporters of cotton yarn are facing differential import duties between 3.5 and 5 per cent in leading export markets. Also, the consumer demand has declined and in contrast, the demand for polyester yarn has been growing strongly as compared to natural fibre as polyester is much cheaper (by around 40-50%) than cotton fibre. Therefore, the government should include cotton yarn under the MEIS, 3% Interest Equalization Scheme and the ROSCTL (Rebate of State Levies & Taxes) Scheme so that exports of cotton yarn increase to China, Bangladesh, Vietnam, South Korea, Colombia and Turkey.
- CCI is prepared to start procurement of cotton in Andhra Pradesh in the second week of November to ensure minimum support price to the farmers. Joint collector of Pithapuram of Kakinada district said that cotton farmers should register themselves in e-crop about the details of the cotton produced. Cotton will not be purchased if the moisture content exceeds 12% as per the government instructions. Also, Procurement is likely to start in Khammam district of Andhra Pradesh where farmers are eagerly waiting to sell their produce as they are getting around Rs.4800-5000/q which is around 10-12% lower rates than MSP.

### Cotton Balance Sheet (India):

All figures in Lakh Bales (of 170 Kgs. Each) Source: CAI&Agriwatch \*: estimated

As per the latest estimates by Agriwatch, cotton output in country during the season 2018-19 would be around 321.05 lakh bales (of 170 kg each) whereas 349.89 lakh bales is expected in 2019-20.

Following lower production, imports will rise marginally to 26 lakh bales and around 20 lakh bales is expected to import in the new season.

Due to lower opening stock but estimation of higher production of cotton would increase the availability the new season at 384.74 lakh bales.

Total domestic consumption (Including mill, small mill and non-mill consumption) in 2019-20 would be around 297 lakh bales compared to 311.5 lakh bales during the previous season due to lower demand from textile industries.

Cotton exports are expected to remain higher as that of previous year. It is expected that country would export around 52 lakh bales of cotton in the season 2019-20 due to slightly higher crop compared to 2018-19.

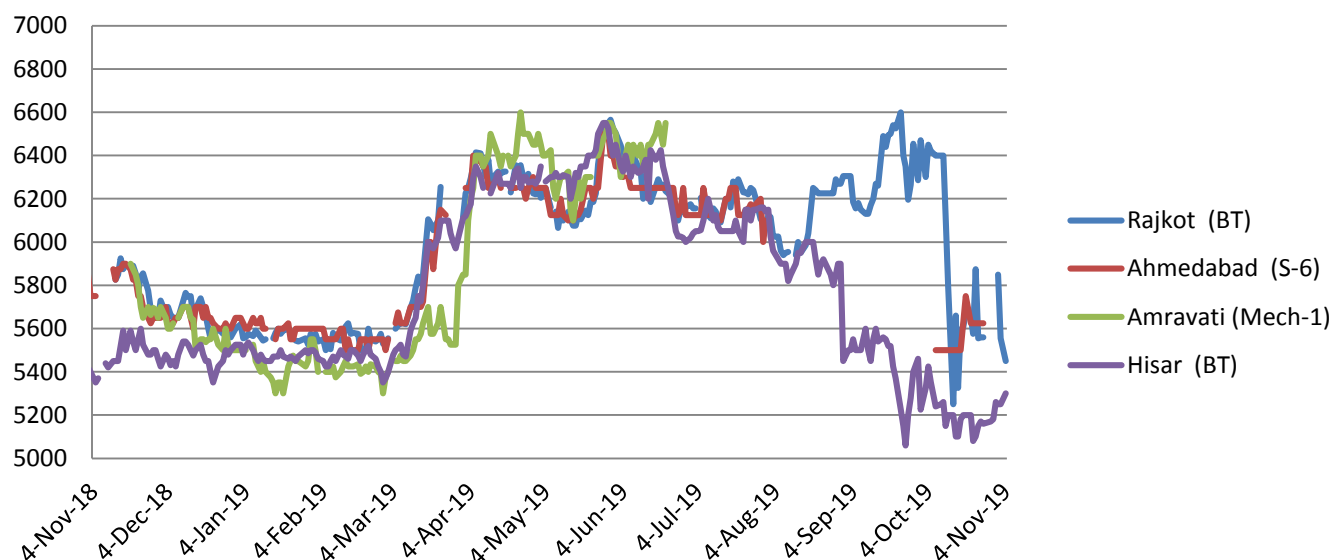

Ending stocks are expected to be around 34.77 lakh bales, it is higher compared to the ending stocks of previous season.

## Domestic Cotton Prices Scenario

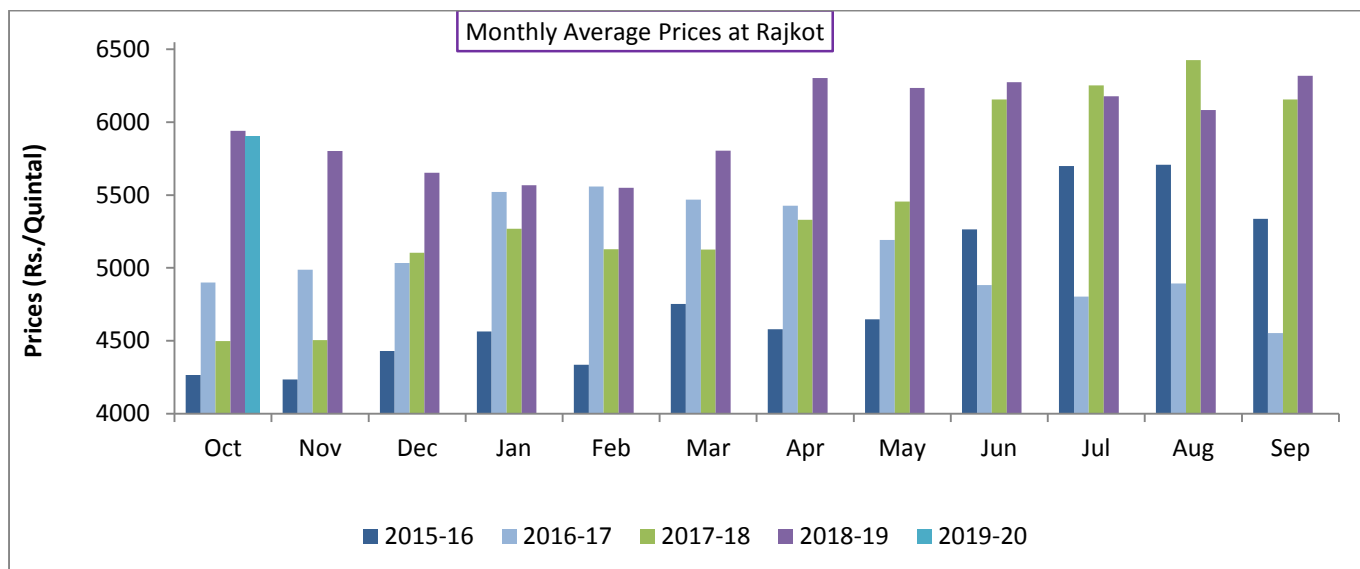

### Kapas (Raw Cotton) Weekly Price Scenario

**Weekly Price Review:** Weekly kapas average price at Rajkot stood slightly weaker to Rs 5560/quintal this week as the market was closed for 4 days on the occasion of Diwali from the previous week Rs. 5656/q. Kapas prices would be slightly higher than MSP and the new arrivals have started in Ahmedabad too this week along with the arrivals from Rajkot and Hisar. The expected range for Kapas at Rajkot would be between Rs. 5400-5800 per quintal for the coming week whereas the prices in Hisar with new arrivals are hovering around MSP at Rs.5200/q compared to last week due to arrival of 10-12% moisture content in cotton.

### Variety wise Kapas Price trend (Rs/Qtl)

### Kapas Monthly M-o-M Price Scenario

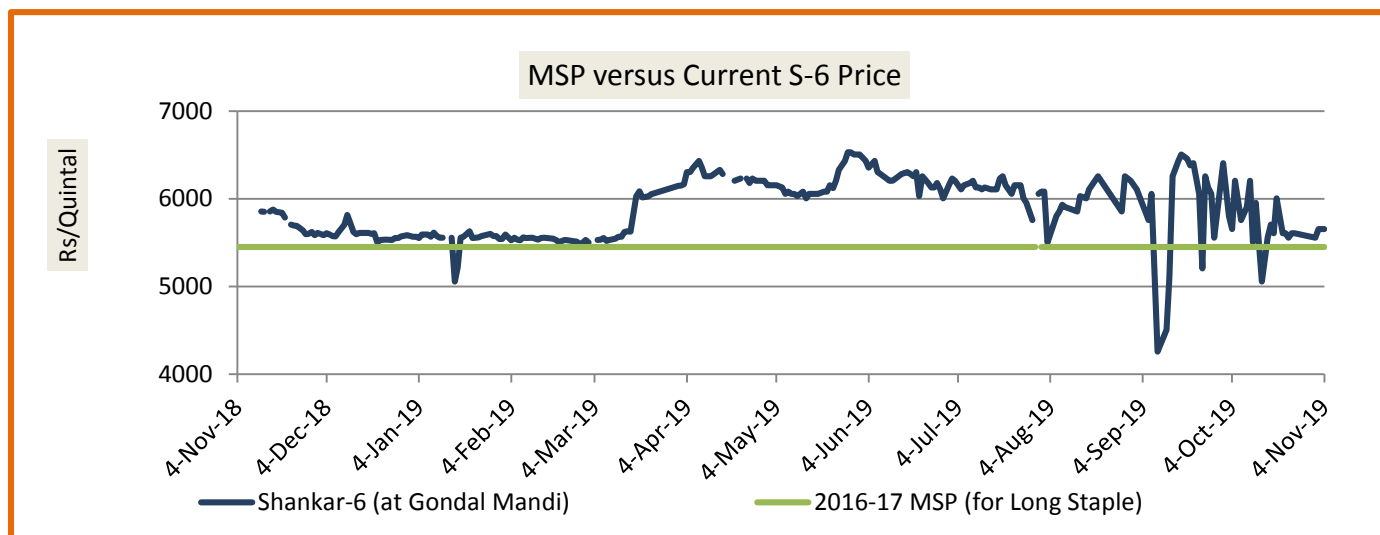

Kapas(seed cotton) prices in country noticed firm during the Sep when compared to the previous month, but the same is ruling lower compared to the prices during the corresponding month of the previous season.

Monthly average price of Kapas at Rajkot remained Rs. 6319.2 per quintal during June, which was Rs 6083 /quintal during previous month and Rs.6156 per quintal during the corresponding month last year. We expect Kapas prices to remain steady to weak further in the coming month due to the new arrivals which is expected to be of lower grade.

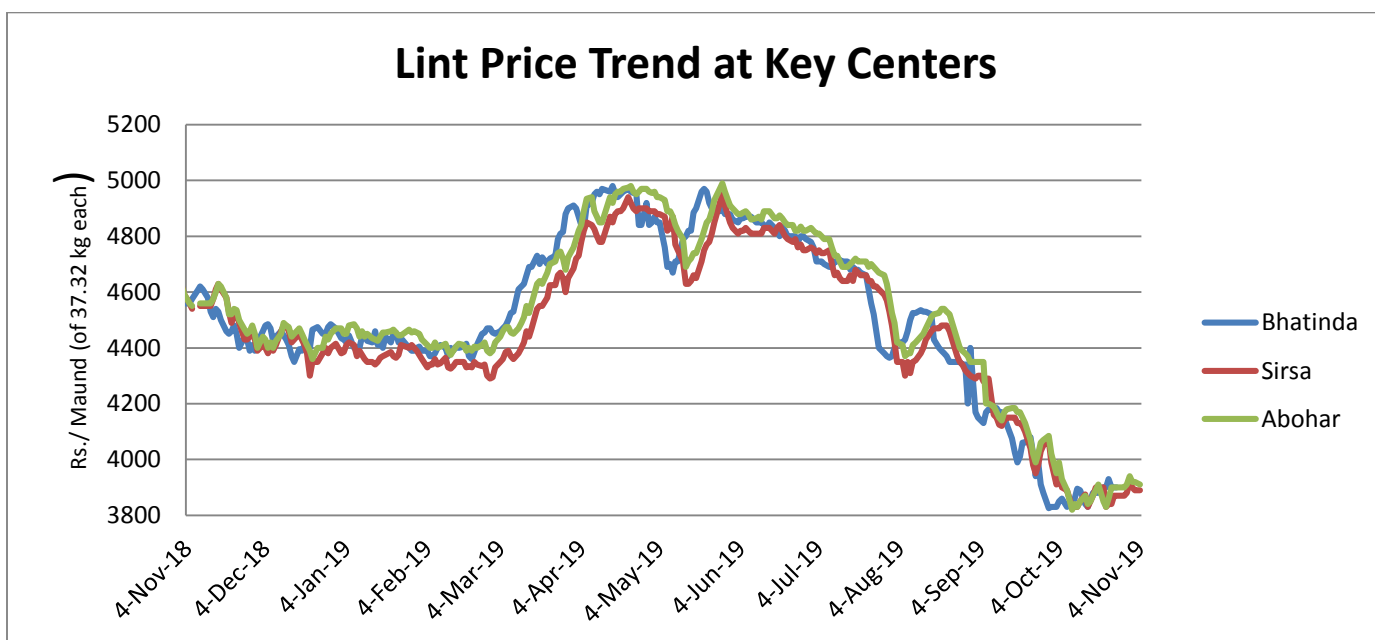

### Spot Price versus MSP

The Kapas average price at Gondal market this week at ended at steady trned as the closed was closed for few days on the occasion of Diwali and stood at Rs. 5600. The gap between the two prices has increased by an average of Rs.100. The average gap between the prices likely to remain firm by 2<sup>nd</sup> week of November'19.

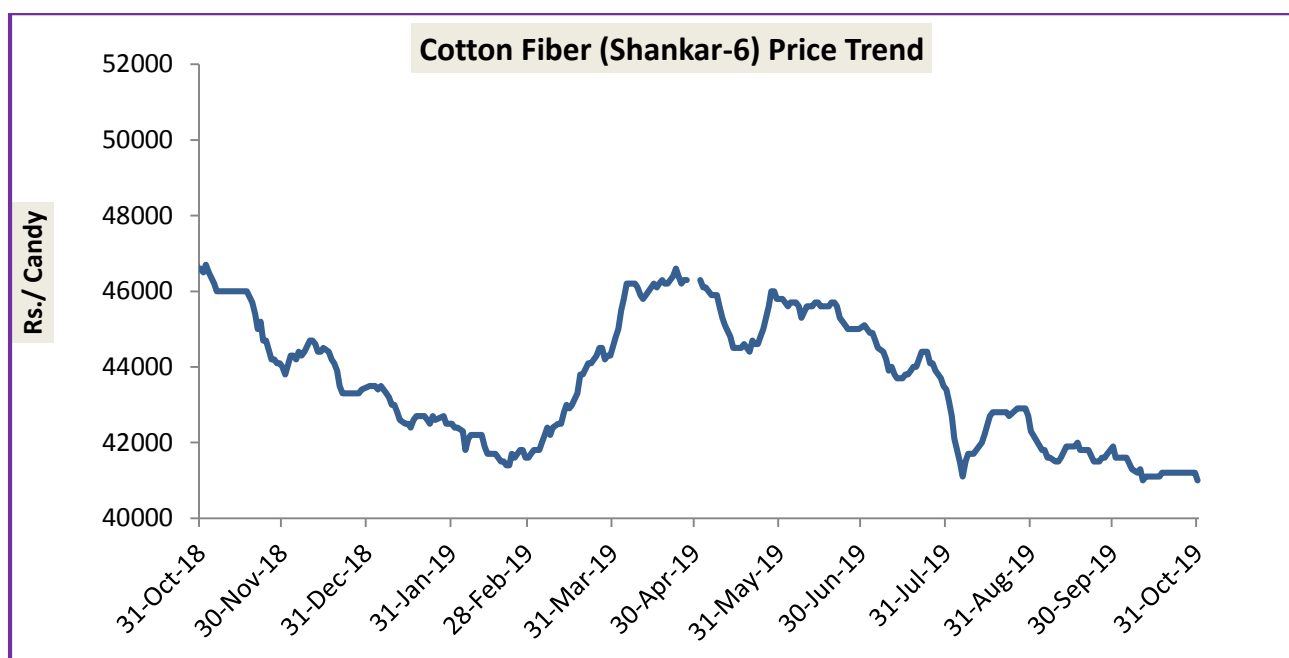

### Lint price Outlook

Lint prices decreased sharply during this week compared to previous week as the low quality and higher moisture (15-20%) cotton is arriving in the market along with lower demand from textile industry. Weekly average price of Lint at Sirsa lower to Rs. 3882 per maund of 37.32 kg each, as compared to the previous week price of Rs. 3868 per maund. The arrivals have increased in all the states in North India out of which arrivals in Bhatinda the major belt of Punjab arrived 34850 quintals this week followed by Abohar with 5950 quintals last week and around 51000 quintals in Bhiwani, Haryana.

## Cotton Fiber price Outlook

Cotton fiber (Shankar-6) of premium quality noticed slightly weaker compared to previous week due to the slow supply disturbed by the rains as well as due to the lower demand. Whereas the Indian cotton prices become competitive to the international prices. Average price was Rs. 41150 per candy (of 355.6 kg each) during the week, which was Rs. 41200 per candy previous week. We expect cotton fiber to remain steady in range of Rs 38000 -42500 per candy in the coming week candy due to lower arrivals and delayed arrivals with lower quality cotton of first picking.

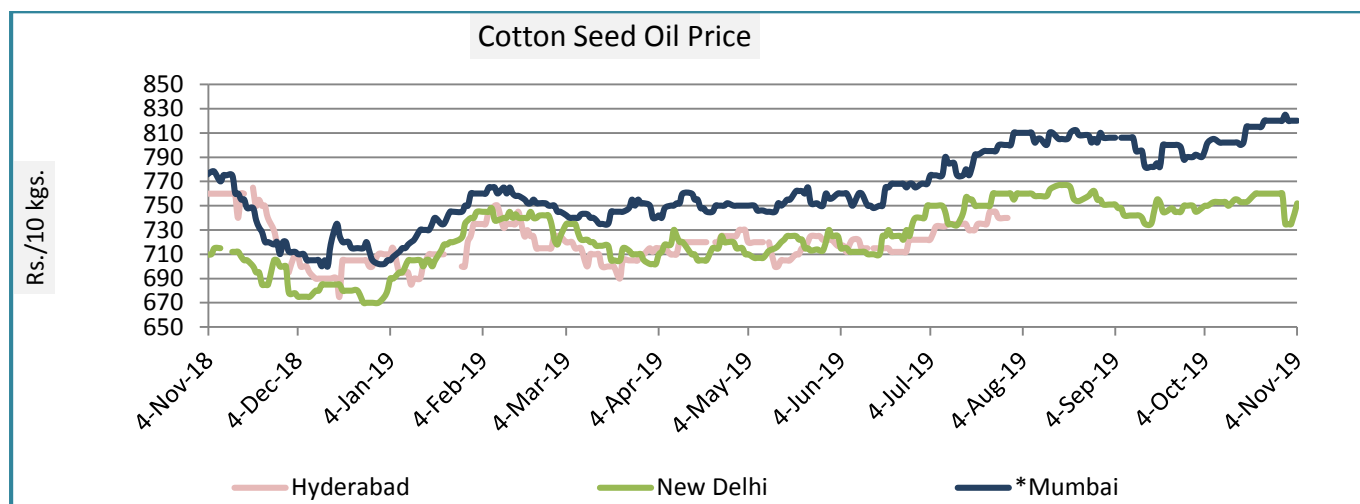

## Cotton Seed Oil and Cotton Seed Oil Cake

### Cotton Seed Oil weekly Price Scenario

Cotton seed oil price marginally showed mixed trend across all centres during the week. Weekly average price in New Delhi slightly decreased to Rs. 755 from Rs. 759.16 per 10 Kg last week.

	Weekly Average Price as on (Rs/10 kg.)		% Change
	31-Oct-19	24-Oct-19	
New Delhi	755	759.16	-0.55
Rajkot	781	807.5	-3.28
Hyderabad	NA	NA	-
Mumbai*	821	818.3	0.33

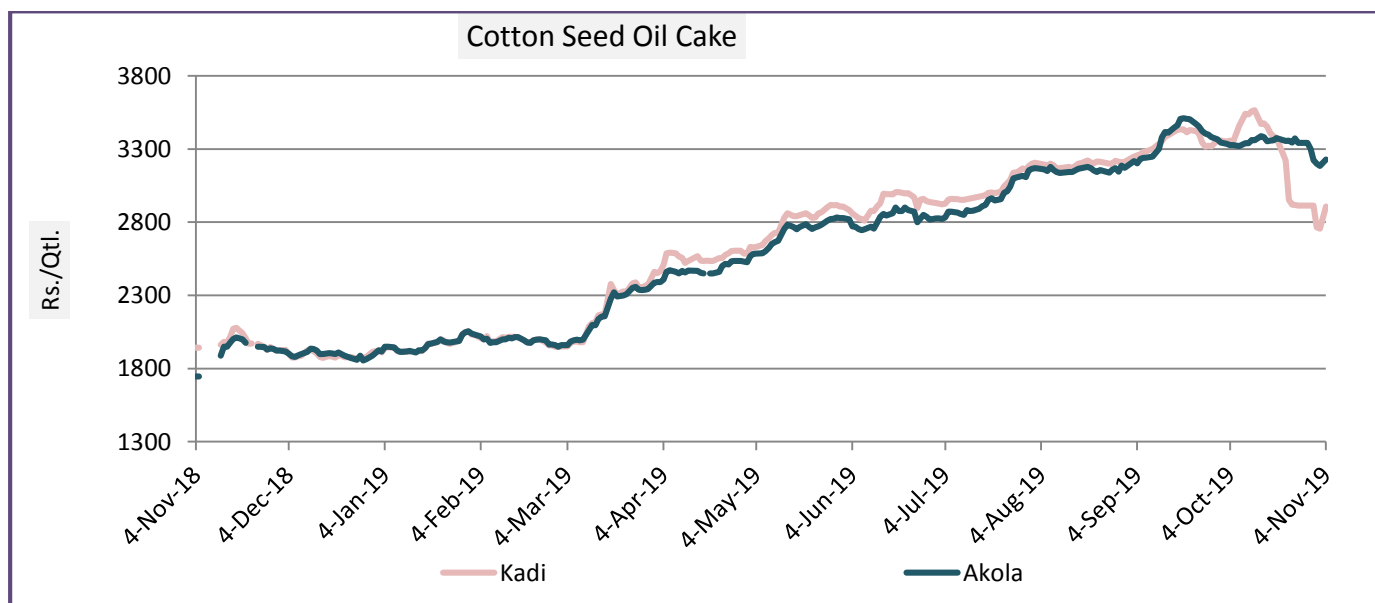

### Cotton Seed Oil Cake weeklyPrice Scenario

Cotton seed oil cake price stood weaker from previous week as the kapas prices were weaker in the same week. Weekly average price in Akola was Rs. 3317 per quintal, higher compared to the weekly average price of Rs. 3358.2 per quintal in the previous week.

Centers	Weekly Average Price as on (Rs/quintal.)*		% Change
	31-Oct-19	24-Oct-19	
Kadi	2915	3171.6	-8.09
Akola	3317	3358.2	-1.23

\*Source: NCDEX

## International Market Scenario

International US cotton spot prices stood firm by 0.12 points at 67.66 cents/lbs during the week. Also Cotlook A index weekly average stood slightly higher at 75.74 cents/pound this week, which was 75.47 at cents/pound during last week.

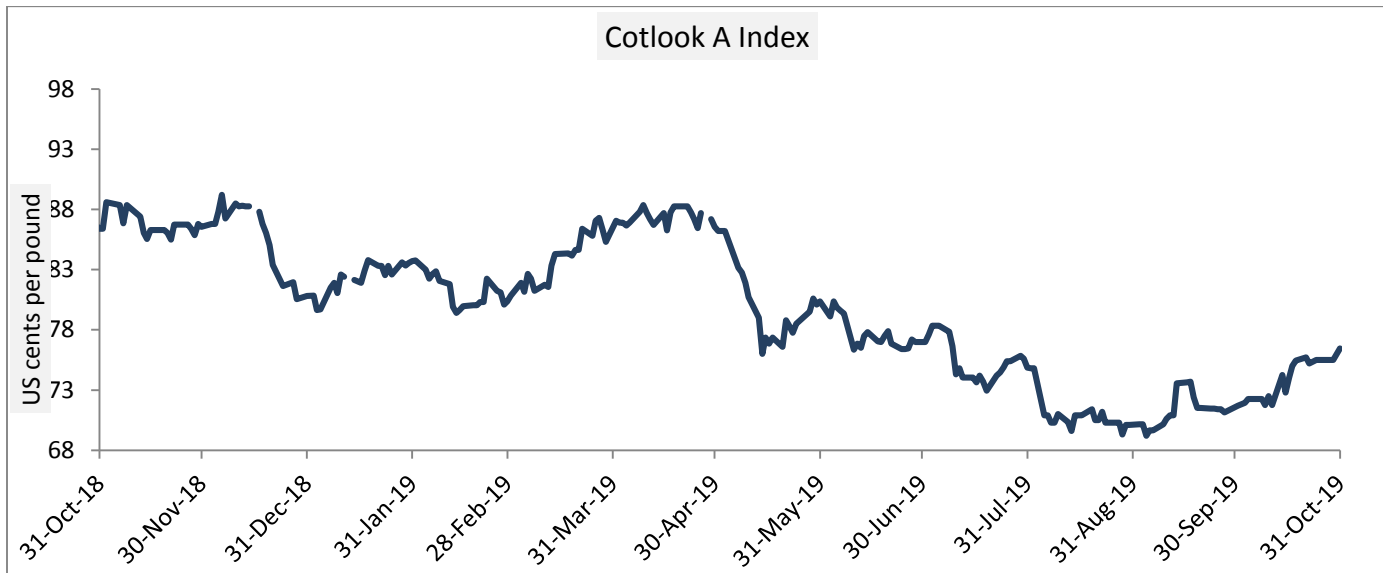

### Major Market Highlights:

- **Cotton futures close after Monday's round of trading with 47 point losses in nearby DEC.** The Cotlook A Index dropped 120 points to 75.25 cents/lb. The weekly AWP from 10/31 is 57.33 cents/lb and will be valid through next Thursday.
- **The USDA's weekly crop progress report showed cotton harvest crest above 53% complete in the week ending 3<sup>rd</sup> November.** The 7 day forecast is moderate to heavy precipitation for North East Texas and most of Oklahoma in US. The South is forecasted to receive about an inch of accumulated precipitation. The average pace is 51%, and compared to last year we are 5 percentage points ahead of schedule. Texas was 42% complete, normally 38%, and GA has harvested 67% of their crop 11 percentage points ahead of average.
- **The US Export Sales report from USDA showed 108,100 RB of 2019-20 upland cotton sold in the week ending 24<sup>th</sup> Oct'19 were down by 23% compared to previous week.** With major buyers including Turkey (60,500 RB), followed by Pakistan (60,500 RB), & Vietnam (31,400 RB) and reductions were from Indonesia (60,000RB), Philippines (4,400RB). For 2019-20, net upland shipments exports of 149,000 RB were same from previous week and were primarily to Vietnam (46,200 RB), Indonesia (16,700RB) and Mexico (15,800RB).
- **Brazil's 2019/20 production and exports will top current records, at 12.5 million bales and 8.5 million bales,** respectively. Importing countries like Bangladesh and Vietnam is getting parity from Brazil (around 60cents/lbs) by thus increasing the export estimates this year. Brazilian exports reached all time high in October month and in the same month reached 16.08 lakh bales so far (68% higher compared to the previous year).

### Cotlook A Index

Cotlook A index noticed firm during the week. The Cotlook A Index was slightly up 75.74 cents/lb than previous week (75.47 cents/lb).

### USA Spot Prices

USDA exports decreased by 32 percent due to which the rate was decreasing. According to the report, Pakistan was the second largest importer of American cotton after signing export agreement of 44,000 bales. Cotton producers hope that China will buy some Cotton from the US but China has not been doing this. President Donald Trump had agreed not to proceed with the proposed hike in tariffs from 25% to 30% on US\$250 billion (about R3,6 trillion) in Chinese goods. The 2019 U.S. crop is now estimated at 21.7 million bales. The USDA in its earlier September forecast had estimated US 2019-20 cotton production at 21.86 million bales.

USA Spot Prices	Monthly Average Price as on		% Change
	31-Oct-19	24-Oct-19	
Prices	67.66	67.54	0.18
Prices in US cents per Pound			

### Pakistan Spot Prices

The cotton prices surged and textile industries have booked the cotton in bulk as expecting the shorter crop this year. One third of the cotton crop was destroyed in the country due to the extreme hot wave in the country. Only 1 crore bales will be produced against the target of production of 1 crore 50 lac bales set for the year 2019-20. Nearly 40-45 percent crop has already arrived in ginning factories till 15<sup>th</sup> Oct'19, which was 26 percent down compared to the corresponding period last year and short of 1.6 lakh bales.
