

COTTON WEEKLY RESEARCH REPORT
27th Jan 2020**Domestic market summary**

Domestic market Scenario: The cotton market across India showed mixed trend while the arrivals in this week increased as the markets opened after the festivals of Makar Sankranti, Lorhi and Pongal. The export demand has started increasing since end of Dec'19 as the rupee currency started depreciating and prices in the overseas market has rallied. Average price of Lint at Sirsa during the week was Rs.4088 per maund (of 37.32 Kg each), higher from the previous week price of Rs. 4101 due to the good quality of cotton. Average price for Shankar-6 (29mm) was Rs.39667 per candy (of 355.6 kg each) during the week stood low, which was Rs. 39900 per candy previous week.

Weekly Price Outlook : In the coming week we expect Kapas price to remain steady with the price band of Rs. 5500-5700 per quintal in the Rajkot market. Lint price at Sirsa is likely to be in range of Rs. 4000-4250 per maund.

Major Market Highlights:

- Cotton prices have showed weak trend in domestic market but supported by CCI procurement. Arrivals in this week increased after Makar Sankranti, Lorhi and Pongal. CCI procured around 44 lakh bales so far this season.
- Indian cotton prices increased slightly (72.31 cents/lbs) but still lower than Cotlook index (79.61 cents/lbs), thus Indian cotton still has the attractive price for exporting.
- Gujarat 29 mm Cotton sold between 39,800 to 40,450 Rs./Candy.
- All India Daily Arrivals remained steady in between 2,25,000 to 2,40,000 bales.
- Indian Rupee remained stronger between 71.10 and 71.32 during this week.

Market Highlights:

- **According to the trade sources, total arrivals stood around 144 lakh bales so far till 25th Jan'20 from the start of the season.** And a total of 11.66 lakh bales have arrived in this week ending on 25th Jan'20 around 52% higher compared 7.65 lakh bales last week as the markets that were closed in the last week due to the festivals were opened this week. Of this, 6.75 lakh bales were from Central India, followed by 3.64 lakh bales from South India in this week. The arrivals from North India (in Haryana, Punjab & Rajasthan) have started so the arrivals stood around 1.18 lakh bales this week.
- **The cotton season in Maharashtra is coming to an end in rainfed areas.** About 44 lakh hectares of land was the planted area and about four lakh hectares is yet to be harvested. The harvesting is hampered due to the lower availability of labour to pick cotton from the fields. This year, the rainfed areas received good amount

of rainfall that encouraged the farmers to grow more cotton. But at present, the farmers have left their fields due to the labour shortage.

- **CCI procured around 44.88 lakh bales so far this season out of 31% total arrivals of cotton in the market.**

CCI is likely to achieve atleast 80 lakh bales of cotton this season against the target of procuring 100 lakh bales. The CCI has been buying in the regions, where private players were not actively buying. CCI procured the major supply from Telangana purchasing around 25 lakh bales followed by Maharashtra (7.73 lakh bales), Punjab, Haryana and Punjab (4.57 lakh bales), Gujarat (2.43 lakh bales) & Karnataka (1.34 lakh bales). While, the procurement in Andhra Pradesh has been lower around 1.25 lakh bales only due to which the prices in the local market has not still touched the MSP.

- **According to the trade sources, the Indian cotton exports for the Dec'19 were reported higher at 5.36 lakh bales against 3.47 lakh bales** in the previous month. In Dec'19 also, Bangladesh was the largest importer, importing 3.82 lakh bales with an average FOB of 1.64 \$/Kg steady compared to previous month followed by China at an average FOB \$1.6/kg for 54,850 bales , Indonesia importing 42,672 bales at 1.51 \$/Kg and Vietnam (32,690 bales at an average FOB \$1.57/kg).
