

COTTON WEEKLY RESEARCH REPORT
20th Apr 2020**Domestic market summary**

Domestic market Scenario: CCI started the procurement in only Punjab so far last week but there are rumors that CCI might start procurement of cotton from the farmers in Maharashtra, Gujarat and Telangana also. There is no demand from spinning industry, therefore, the ginning mills are facing problem in the storage and movement of ginned cotton bales. Also the operations of those few ginning mills that started the operations have lack of labour and lack of demand as all the apparel stores and factories are closed due to the lockdown in the country. All the local cotton markets in Maharashtra, Rajasthan, Punjab, Haryana, AP and Telangana have been closed due to the outbreak of Covid-19. Markets have been shut down with no trade for the couple of weeks till first week of May so far. Only the kapas and cotton futures market is open for trade.

Weekly Price Outlook : The cotton is trading in Punjab at MSP procured by CCI in the last week while the procurement has not started in rest of the country. As long as CCI procures Kapas, the prices would remain at MSP.

Major Market Highlights:

- Few Ginning mills are permitted to operate but very few working at very slow pace due to many hurdles to run the factories. The slow operations are due to the less yarn inquiry and movement.
- Cotlook index remained (63.55 cents/lbs) higher compared to the ICE cotton future (52.72 cents/lbs).
- There were no arrivals this week due to lockdown except in Punjab.
- Indian Rupee remained stronger between 76.27 and 76.87 during this week.

Market Highlights:

- **Only few Indian cotton ginning mills have started the operations but there is no labour force to** conduct the operations because of which the functioning is very slow. There is no inquiries from the yarn industries due to the decline in demand across the country and foreign demand. The mill consumption is likely to decline sharply amid lockdown in the country. Generally, the Indian mills consume around 22-25 lakh bales of the cotton in one month. Now, it seems that this year's ending stock would surge to its all-time high and may reach around 80-100 lakh bales by the end of this cotton season (2019-20) and all the mills were non-operational and were totally shut down since the lockdown started.
- **The Cotton Corporation of India (CCI) is ready to procure cotton from the farmers at MSP** so as to prevent the farmers from the losses. As CCI is facing the issue of overstocking of cotton in the warehouses, therefore, the state authorities have started granting permits to transport ginned cotton in Punjab. The Punjab State Agricultural Marketing Board Authorities have resumed the cotton purchases in Mansa, Bhatinda and Abohar district. Only 20 growers to be invited in a day by issuing them the coupons to enter the mandi to sell their

produce. The stock would further be purchased by CCI at MSP. Around 5 lakh bales have been purchased in the Mansa district so far and about 2 lakh bales still is left with the farmers to sell. In Punjab, a total of 3 lakh bales of cotton is yet to arrive in the mandis. Similarly, the purchase would commence slowly in Bhatinda, Faridkot, Fazilka and Muktsar districts of Punjab in the coming days.

- **As CCI indicated earlier that the procurement would likely to commence in Punjab, now Maharashtra, and Telangana also had issued guidelines** to allow procurement operations of Kapas. Around 25% of the cotton is still need to arrive in the mandis and CCI procured about 84 lakh bales of cotton so far this season. The trade in cotton was suspended since the lockdown started as only mandis dealing with essential commodities were functioning. Mandis would take necessary precautions like issuance of hourly passes to farmers to allow limited number of growers coming to the markets. However, the transportation of raw cotton from farm to mandi is an issue due to the labour shortage. Similarly, the ginning and spinning mills are also facing the problems regarding the labour. As all the migrant labours from Uttar Pradesh, Bihar and Jharkhand have left for their home states right at the start of the lockdown. The cotton industry is likely to suffer and would take time to normalize.

Cotton Balance Sheet (India):

Cotton Balance Sheet									
In Lakh Bales(170 KGS)	2015-16	2016-17	2017-18	2018-19	2019-20*	Oct-Dec	Jan-Mar	Apr-June	July-Sept

Ending Stock	36.7	48.0	25.0	24.6	51.0	44.6	64.4	61.9	51.0

*All figures in Lakh Bales (of 170 Kgs. Each) Source: CAI&Agriwatch *: estimated*

As per the latest estimates by Agriwatch, cotton output in country during the season 2018-19 would be around 321.05 lakh bales (of 170 kg each) whereas 351.8 lakh bales is expected in 2019-20.

Following lower production, imports will rise marginally to 32 lakh bales and around 23 lakh bales is expected to import in the new season.

Due to lower opening stock but estimation of higher production of cotton would increase the availability the new season at 399.6 lakh bales.

Total domestic consumption (Including mill, small mill and non-mill consumption) in 2019-20 is likely to be around 305.96 lakh bales compared to 311.5 lakh bales during the previous season due to lower demand from textile industries.

Cotton exports are expected to remain slightly higher as that of previous year. It is expected that country would export around 42.6 lakh bales of cotton in the season 2019-20 lower than the previous estimate due to the disruption caused in trade which might continue till April'20.

Ending stocks are expected to be around 51 lakh bales, it is higher compared to the ending stocks of previous season and previous estimate because of lower consumption and lower exports.

Domestic Cotton Prices Scenario

Kapas (Raw Cotton) Weekly Price Scenario

Weekly Price Review: Weekly kapas average price at Rajkot remained closed this week also due to the lockdown by the government instructions. The prices stood at Rs. 5235/quintal in the 3rd week of March before lockdown.

Kapas Monthly M-o-M Price Scenario

Kapas(seed cotton) prices in country noticed weak during the Feb when compared to the previous month, but the same is ruling lower compared to the prices during the corresponding month of the previous season due to the lower demand this year.

Monthly average price of Kapas at Rajkot remained Rs. 5315 per quintal during Jan, which was Rs 5515/quintal during previous month and Rs.5551 per quintal during the corresponding month last year. We expect Kapas prices to remain steady to low further in the coming month due to the lower demand across the country as well as in international market.

Spot Price versus MSP

The Kapas average price at Gondal market was closed this week and 3rd week of March the price ended at Rs. 5245/q. Average price in the week stood further down by around Rs.304/q from MSP (Rs.5550/q). The average gap between the spot price and MSP has slightly declined again, but due to weaker sentiments in the international market would affect the domestic price.

Lint price Outlook

Lint prices stood slightly firm during was closed this week also. Weekly average price of Lint at Sirsa stood down by Rs.33/q lower at Rs. 3941 per maund of 37.32 kg each, than its previous week price of Rs. 4002 per maund. The arrivals in the previous week in Bhatinda the major belt of Punjab has declined from 25500 quintals to 6562 quintals followed by Abohar with 3570 quintals and around 5700 quintals in Bhiwani, Haryana before lockdown.

Cotton Fiber price Outlook

Cotton fiber (Shankar-6) of premium quality prices stood slightly higher compared to the previous week as few mills were opened. Average price was Rs. 37366 per candy (of 355.6 kg each) during last week, which was Rs. 37285 per candy previous week while the prices were hovering around Rs. 46016/candy last year during the same time. We expect cotton fiber to remain steady to weak in range of Rs 36000-38000 per candy in the coming week candy.

Cotton Seed Oil and Cotton Seed Oil Cake

Cotton Seed Oil weekly Price Scenario

Cotton seed oil price marginally showed weak trend across all centres during the last week. Weekly average price in New Delhi declined to Rs. 710 from Rs. 745 per 10 Kg before lockdown.

Cotton Seed Oil Cake weekly Price Scenario

NCDEX Cotton seed oil cake price remained firm in the last week as support seen after the lockdown started because of the increase in demand from the cattle feeder and due to the lack of availability of labour, raw material and transport that lead to the increase in prices. Also, nearly 60% cotton seed crushing units were closed since November in Gujarat. Of 1,000 cotton seed crushing units, nearly 400 mills were currently functional in the state as it is unviable to crush cotton seed in absence of cotton cake demand. The prices are lower compared to the previous year due to the shortage of crop in the previous year. Weekly average price in Akola was Rs. 1866 per quintal before lockdown in March.

International Market Scenario

International US cotton spot prices stood slightly weak at 53.19 cents/lbs during the week. Also Cotlook A index weekly average stood firm at 63.5 cents/pound this week, which was 62.47 at cents/pound during last week.

Major Market Highlights:

- Cotton futures were mixed ahead of the weekend break, with 2 to 16 point losses in May and July.** The 04/16 Cotlook A index was 50 points lower to 62.95 c/lb. The USDA FSA cotton AWP is 44.78 cents/lb. The LDP is 7.22 cents/lb, through next Thursday.
- Weekly cotton export sales were negative again, with a net 183,779 running bales cancelled.** China canceled 81,999 RBs in sales; over the last three week's the country has withdrawn 284,013 RB of U.S. cotton bookings. Vietnam and Pakistan also backed out of some business. Cumulative US cotton commitments are 15.104 million RB, with 2.117 million RB from China. Accumulated exports for the MY are up to 9.426 million RB, which is 21.2% above last year's pace and the highest for the first 37 week's since the 2010-11 marketing year.
- The trade remained suspended in Pakistan amid the outbreak of coronavirus and lockdown across the country.** Farmers in Pakistan have urged the government to announce support price of the cotton crop for the current season at Rs 5000 per maund on priority basis encouraging the farmers to go for this crop. As many farmers are shifting to grow sugarcane instead of cotton. The business of textile products is affected. The foreign importers, the European and American importers are canceling their orders due to which industry is facing irreparable loss.

Cotlook A Index

Cotlook A index noticed slightly firm in last week in the hope that slowly the textile industry would start their operations. The Cotlook A Index was at 63.55 cents/lb than in the first week of March (71.95 cents/lb) and due to the global economic breakdown after the outbreak of coronavirus in world.

USA Spot Prices

The US cotton prices slightly moved at higher side as the number of coronavirus cases declined slightly. Plans announced for a gradual reopening of the economy have generated optimism in the market but the decline in demand in cotton would moderate the prices. The US cotton crop was estimated at around 15% planted on April 12. Significant progress seems likely to have been accomplished since then, but heavy rains are expected across the Mid-South and Southeastern states this week. Also the US export sales reductions of 183,800 RB for 2019/2020 is reported. Cancellations were primarily from Vietnam with 138,700 RB and China with 82,000 RB, key consumers of the natural fiber.

USA Spot Prices	Monthly Average Price as on		% Change

Prices	53.19	53.03	0.30
Prices in US cents per Pound			

Pakistan Spot Prices

Steady trend was witnessed in Pakistan cotton market as the markets were closed. Most of traders were disappointed because of huge losses in their business, so mills were also worried about delay in shipment. The trade activities are slow due to a halt in exports following the coronavirus outbreak. Both ginners and mill owners are worried about the situation. The business of textile products is affected. The foreign importers, the European and American importers are canceling their orders due to which industry is facing irreparable loss.
