

**Domestic Fundamentals:**

- Frail sentiments recorded in key guar spot markets on Friday; however arrival is also lower than prior day.
- Prices of guar seed likely to test Rs.4800-4850 level in coming week. It is notable that big stockiest would release their stocks at the mentioned level as expected.
- Farmers are now getting hope with recent increase in prices of guar and now expecting again Rs.10000-12000 per quintal which decreases the arrivals in the markets.
- Markets experts are of the view, firmness in guar future market is unnatural and some big players are trying to push market up so that they can release their stock at higher levels. It indicates that market is likely to decrease in coming weeks.
- Higher production and carry over stocks would restrict big players to take the prices upside for a longer period.
- India has exported 48713 tons of guar gum powder, splits and meal in November 2013 as reported. Present year guar exports figures are 33700 tons higher compared to guar exported in November 2012. November month guar exports are also 44% higher compared to Guar exported in October 2013. Main reason for increase in guar gum exports are weak rupee scenario in the month of November compared to October. In addition to it, prices of guar gum continuously breaking which increase the export parity.
- Market is estimating 2.8-3 million tons of guar production for 2013-14.

**Outlook:** Guar sentiments are weak for medium to long term considering weak demand from International markets, higher carry over stock from last year and higher guar production scenario for current season representing huge surplus of guar stocks in the markets. **However, big players are pulling the market up for short term to release their stocks at higher levels.**
